rose again as a leading contender This game will be the first in to repeat their conference title win of last year. win of last year. The Cadets quintet thrashed Ar-kansas and slipped by Texas but lost a decisive contest to TCU, 65-35, in the finals. 65-35, in the finals.

days.

First SWC Win

Opening their conference season against Arkansas, the Texas Lassies 'Wow' 'Em boys looked sharp setting back the Ozark lads 46-40. Smooth ball control and a stiff defensive stall secured the victory for the Cadets. Walter (Buddy) Davis, A&M's giant center, ranks as the Aggie's hottest scorer with 161 points. Davis has been good on rebounds and defensive play. Jewell McDowell has again push-

ed himself as the top play-maker and general court leader. Against the Razorbacks, he staged almost a one-man show, stalling the Hogs into complete confusion.

First Win

Took Eastern Tour

Earlier in the season the Cadets last night in Guion as the two took a tour out of the state to battle some of the top teams in good music and comedy into 20

Senate Votes Hospital to Close In Future Christmas Holidays

By GENE STEED **Battalion Staff Writer**

An explanation of the handling of the Demke hospital case was reported by the hospital committee to the Student Senate in a regular meeting last night in the MSC.

"The hospital committee met at 4 p.m. at the College Hospital yesterday to obtain a full report of the case from the hospital officials," reported Carroll Jones, spokesman of the Student Senate hospital committee. T. J. Wood, record-ing secretary for the hospital committee read the following minutes to the senate members:

'Mrs. Thomas, nurse of duty, when Demke first went to the hospital, said Demke came to the hospital about midnight, and complained of numbness of his right side and no grip in his right hand. The nurse tested Demke's grip, and it

was good. She told him to come back the next day and see the doctor.

Nurse Sowers was on duty the next day. She said Demke came back and told her that he had a slight stroke. The nurse noticed no paralysis, except a slight drooping of the lip on the right side. Mrs. Sowers called the doctor and told him the condition of the patient. She explained that Demke said he had high blood pressure; therefore, Dr. Marsh told the nurse to tell Demke to go to his family doctor that had been treating him for high blood pressure. With this Demke left the hospital.

Nurse Sowers stated that Demke did not tell her that he had trouble swallowing, but he had a slight head ache the day before. No swelling was observed in Demke's hand. Dr. Marsh explained that many patients have the slight paralysis or numbness, such as Demke's after a case of flu.
