

C of C Membership Campaign To Last Until End of Month

The College Station Development Association and Chamber of Commerce membership drive scheduled to end Feb. 15 has been extended through Feb. 29. The drive began Feb. 1.

At a director's meeting of the Chamber of Commerce yesterday afternoon in the College Station State Bank, Marion Pugh, president, asked the group to extend the drive in order to contact more people.

The directors endorsed a project presented by D. D. Burchard, head of the department of journalism, to study advertising habits among businessmen in the College Station-Bryan area. Three senior

Mayor, Council Posts Filing Closes March 1

Filing deadline for elective city positions for 1952 is March 1, City Manager Raymond Rogers announced today. The election will be held the first Tuesday in April.

Councilmen whose two year terms expire April 1 are A. P. Boyette, Ward III; R. B. "Bob" Halpin, Ward II; and Joe Orr, Ward I. Mayor Ernest Langford's term also expires April 1.

Filing for elective positions must be done at least 30 days before the election date, Rogers said. To date no one has filed for a position.

Regular meeting of the council Monday night was postponed because a quorum of councilmen could not be present. The group will meet again March 19.

Religious Emphasis Speakers Will Include Chunn, Speck

Former A&M Baptist Student Secretary Prentis W. Chunn, Jr., and H. E. Speck, dean of men at Southwest Texas State Teachers College, will be dormitory lounge group discussion leaders during Religious Emphasis Week Feb. 17 to 22.

The Reverend Chunn will live in Puryear Hall and lead forums and discussion groups for students in Puryear, Law, and Mitchell Halls. Dean Speck will serve Dorms 6 and 8. He will live in Dorm 6 and hold group sessions in lounge.

Afternoon discussions in all lounges will start at 4:30 and last till 6. Evening forums will begin

immediately after supper and last till 9 p. m.

Morning services will be held from 10 to 11 on Monday, and Tuesday, from 11 to 12 on Wednesday and Thursday, and the final service will be Friday at 9.

Dr. William E. Denham, Jr., pastor of the River Oaks Baptist Church in Houston, will be the principal speaker for these campus wide services.

Prentis W. Chunn, Jr.

White Will Speak To Architect Wives

Robert F. White of the floriculture and landscape architecture department will address the Architect Wives Society Wednesday at 7:30 p. m. in the south solarium of the YMCA.

All wives of new students and faculty members in the architectural department are invited to come, said Mrs. Millie Heltzel, president.

Ladies Get Spotlight At Lions Club Meeting

Ladies of the Lions Club got the spotlight Monday as the local organization held its first Ladies Night program of the year in the MSC Assembly Room.

Regulation clothes for the evening were classified "way back when."

Prize winners for costumes were Lucian Morgan and Mrs. Warren LeBourveau. Morgan wore a decrepid old shirt with pants suspended by a rope. Mrs. LeBourveau was attired in a casual one-piece dress made from a feed sack.

Menu for the banquet, which preceded the program, consisted of beans, spinach with boiled eggs, slaw, and corn bread.

Dr. Al Price, president, presented Dr. W. E. Paulson, charter member of the club, a 25 year chevron award from Lions International. Paulson had been in Lions Clubs at Lufkin and Bryan before the College Station group was organized.

Featured on the program was a barber shop quartet directed by Herb Thompson. Lions W. A. Bonney, Lt. Col. John Roddy, Lucian Morgan, and C. G. Haas made up the quartet.

Other "stunts" directed by Tail Twisters Lt. Col. Alex Currie and Thompson were also included on the program.

Square dancing ended the entertainment for the evening.

Visit Boy's Ranch

Preparing to take off from Easterwood Airport in a Phillips Petroleum Company plane are these members of the fifth year architecture class who visited Boy's Ranch, near Amarillo last weekend. The group made the trip to secure information for designing class rooms, housing units, administrative offices, and other buildings for the Ranch. Actual construction will be done by boys at the ranch. Designing the buildings for Boy's Ranch will be a semester project for the graduating architects.

Architects Start Second Phase of Boy's Ranch Plan

A&M architects have started on the second phase of designing the twenty year building plan of Boy's Ranch. Nineteen of the fifth year students made a trip by air to the ranch during the latter part of last week and returned Friday.

In 1950 the department of architecture, at the request of Cal Farley, founder of Boy's Ranch, made a trip to the ranch to plan a building program for the ranch.

Boys on the ranch are doing all of the building, with the assistance of a few paid foremen, John Rowlett, professor of architecture said.

First Unit Completed

On this second visit to the ranch the Aggies saw the first building, a housing unit, in the final phases of construction. The original plans call for several housing units, class buildings, farm buildings and an administration building. Construction is expected to extend over twenty years.

"The boys were enthusiastic about the whole project," Rowlett said after he returned from the visit.

"It's something you have to see, to understand the scope and magnitude of it," he said.

Members of the board of directors of the ranch have agreed to follow the plans for the building as closely as possible.

Jackson to Speak At Junior Banquet

Members of the Junior Class and their dates will hear Robert E. "Prof" Jackson as speaker at their class banquet prior to the Junior Prom Saturday night in Sbis Hall.

One of the best known humorists in the Southwest, "Prof" Jackson will speak on "Fun, Facts and Foolishness."

Frequent Lecturer

A frequent lecturer throughout Texas and neighboring states, Jackson's success as a toastmaster, main speaker, and commentator began early in his teaching career. "He doesn't talk on education, but his talk is an education in itself" is typical of the comments made by those who have heard him speak.

A Rotarian, "Prof" Jackson speaks on a wide range of subjects. His talks cover many fields including affairs of the home, state, nation and the world.

Film Society Show At 'Y' Tonight

"Stanley and Livingston", the first presentation of the A&M Film Society, will be shown at 7:30 tonight in the YMCA Chapel.

Spencer Tracy takes the part of Stanley, the New York Herald reporter who succeeds in finding Dr. Livingston, lost in Africa. The effect of Livingston's missionary work inspired the young reporter to carry on where Livingston left off.

This picture is the first of a series of eight that will be shown this semester. Membership cards, which entitle the holder to see the movies, may be purchased from the office of Student Activities for \$1.

Activity Groups Sponsor Open House

MSC Round-Up at 7:30 in Ballroom

The hobby clubs and committee activity groups of the MSC go on display tonight at 7:30 as they hold open house for A&M students in the MSC Ballroom.

Dubbed the Second Annual MSC Round-Up, the affair will feature talks and displays on MSC activities. It is strictly informal.

While students sip coffee and munch cookies served by the House Committee, chairmen of the committees and clubs will give a brief talk on workings of their group.

Booths Set Up

Each of the Student Center sponsored organizations will have a booth decorated to show just what the committee or club does. "Visiting students will have an opportunity to sign up for that group if he wishes, "But this doesn't mean you have to join something if you attend," MSC Council president Dan Davis explained.

"We want you to come over and find out what students do in MSC activities whether you want to join one or not," Davis said.

Interests ranging from art to radio are represented in the eleven MSC groups sponsoring the Round-Up tonight.

House Committee

The House Committee, which will serve free coffee and cookies, sponsors such activities as departmental student-prof coffees, decorating the building on special occasions and other such functions.

Along the same social entertainment line, the MSC Dance Committee sponsors the MSC dancing classes, the forthcoming "Rue Pinalle," and other dance activities.

Related to these two is the Music Committee which selects records for use in the Center, operates the Record Room and record collection, and sponsors musical entertainment.

Browsing Library

For the student interested in books, the Browsing Library Committee offers an opportunity to help select books and determine policies for the Browsing Library.

Among hobby groups, the Crafts Committee is one of the most popular. Students joining this committee have access to the completely outfitted MSC Crafts Shop for doing leather and metal works, ceramics and other handicraft.

If you are interested in art, particularly in learning to appreciate fine art, the Art Gallery Committee sponsors art classes and lecturers for students. This group is also responsible for the numerous exhibits of paintings displayed in the Center.

Heavy Fighting Opens On Korean Battle Line

Seoul, Korea, Feb. 12—(AP)—United Nations soldiers today killed 96 Reds and wounded 130 in a fight near the Mundung Valley on the eastern Korean war front—the heaviest single action in weeks.

Elements of a group of 420 Communists struck Allied positions near the valley in two places three minutes apart. In less than an hour the Allies had driven back both attacks.

150 Reds Attacked

A group of 150 Reds made the first attack. A band of 60 made the second. Part of the total 226 enemy casualties was from the balance of the Reds' original 420 men, observed earlier approaching down the Mundung Valley from the north.

The valley is just west of Heartbreak Ridge, a craggy range of mountains captured by American troops in a month-long fight last fall. West of the valley are other tall, snow-covered mountains.

Enemy troops east of the valley are North Koreans. Chinese Reds hold the area to the west.

Koreans or Chinese?

An Eighth Army communique gave no indication whether the attacks were by North Koreans or Chinese.

Allied casualties were not announced.

The officer described Monday's ground fighting this way:

"There were some probing actions, with the enemy coming toward U.N. positions, advancing and firing at some scattered points along the front, and withdrawing before close contact could be established."

Fifth Air Force warplanes flew 585 missions Monday. Pilots said they cut rails in 87 places and destroyed 56 supply buildings, one road bridge, 20 box cars, two locomotives, eight warehouses, 50 trucks and one gun position.

Bad Flying Weather

Bad flying weather limited Monday night's air action. B-29 superforts hit the Suncheon rail bridge in northwest Korea and B-26 light bombers attacked Communist road traffic. Pilots reported 15 trucks destroyed.

Marine planes bombed troop centers, rail lines, roadways and Communist-occupied buildings.

U.N. warships were active along both coasts.

Cafe Rue Pinalle Opens Here Friday

By BERT WELLER
Battalion Staff Writer

Voulez-vous d'ancer? Voulez-vous observer la neut vie de France?

In plain English, "Would you like to dance?" "Would you like to see French night life?" Cafe Rue Pinalle is the answer to both of your problems.

Beginning at 8:30 Friday night, the MSC will sponsor an authentic reproduction of a French night club in the games area. Besides dancing and just talking around

candle-lit tables, Cafe Rue Pinalle will feature two floor shows nightly.

The French menus may pose some problems in ordering, but sandwiches, popcorn, and cold drinks will be served. Attempts have been made to secure a small combo to provide music.

Cafe Rue Pinalle will become a regular part of the Friday night activities at the MSC. At the present time only students with dates and a limited number of stags will be admitted. Tickets are available at 50 cents per person.

Reservations Available

Reservations for this Friday night should be made with Mrs. Elaine Lester in the bowling area or with Miss Betty Bolander in the Directorate office of the MSC. Tables may be reserved by phone but tickets should be picked up before Friday night.

An interesting and unusual floorshow is planned for each night at Cafe Rue Pinalle. Entertainment will begin at 9:30 and 11, with closing time set for midnight.

Special Lights

Due to the extensive preparations necessary in the opening of Cafe Rue Pinalle, the table tennis area will not be open from Thursday night on. Backgrounds showing French night life will be erected around the walls of the games area.

The atmosphere of the cafe will be as authentically French as possible. People who have visited the Parisian night clubs have been enlisted as technical advisers to help make this possible. Every effort is being made by the members of the MSC Dance Committee to insure a different, yet interesting evening's entertainment for all, said Miss Bolander.

MSC Council OK's Spending For Rue Pinalle

A spending of \$887 out of the revolving fund was approved by the MSC Council last night for use by the Cafe Rue Pinalle. The project, sponsored by the dance committee, is expected to be a "break-even" proposition.

At a meeting of the council at the end of the past semester, they received approval to start spending \$6,000 in a permanent revolving fund. This fund is not to be enlarged by extra appropriations by the MSC Board.

Money spent out of the fund is expected to be replaced by the activity using the money. The first allotment of money out of the revolving fund was an expenditure of \$237 by the dance committee for dance lessons. Of this original amount, \$230 has been collected (See MSC PLANS, Page 2)

Noted Painter Talks At MSC Tomorrow

Ramon Froman, prominent painter of Dallas and Chicago, will present a one-man show and demonstration lecture in the MSC Assembly Room Wednesday evening at 7:30.

This exhibition and demonstration is one of our most important of the season, Charles Stiefel, MSC Art Gallery Committee chairman, said this morning in making the announcement.

From his audience Froman will select a model for portrait painting. While doing a portrait of the subject, the artist will present an informal discussion of painting, according to Mrs. Ralph Terry, advisor and instructor for the Art Committee.

Born in Texas, Froman moved to Illinois at an early age and completed most of his study in that state. After art study at Bradley University and the University of Illinois, Froman did further work at the American Academy of Art.

"He has won many portraiture 'firsts' in the east and in Texas," Mrs. Terry said.

Anyone interested in seeing Froman's work and demonstration has been extended a cordial invitation to attend the meeting by the Art Gallery Committee.

Ag Experimenters Get \$11,000 Grant-in-Aid

A grant-in-aid of \$11,000 from the Rio Grande Valley Farm Bureau Federation has been received by the Texas Agricultural Experiment Station to further its research work with cotton in the Lower Rio Grande Valley.
