## Ever go "over the side"?

T ISN'T EASY with the roll of the transport and the clumsy sway of your heavy full field pack. And, at the foot of the landing net, the risky drop into the cold, crowded landing craft bobbing in the choppy sea.

Then, finally there's the tense, terrible run toward an angry beach and a destiny you cannot even guess.

It's all very serious and dangerous and hard. Yet thousands of American youngsters have done it—and are ready to do it again, if need be, in defense of our country and you.

But defense is your job, too. And you can do your job, in an important way, by buying U.S. Defense Bonds.

For these bonds make you and your family secure at home. They provide the economic stability that's needed behind our effective military power. And they help keep America at peace because they help make America strong...in a world where peace is only for the strong.

So, for the sake of the boys on the landing nets-and for your own family's security-invest your savings in United States Defense Bonds now!

> The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25-but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

PEACE IS FOR THE STRONG... BUY U.S. DEFENSE BONDS NOW!

The U.S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and
