

Job Opportunities

Interviews Slated This Week

Ten major companies will be on the campus this week to interview prospective graduates for positions with their organizations. These interviews are scheduled today through Friday.

General Motors Corporation will interview graduates in the following fields today and Tuesday; mechanical engineering—design, development, or testing of diesel and aircraft engines, gas turbines, propellers, transmissions, rubber and plastic products, heating and ventilating equipment, or household appliances;

Electrical engineers — design, development or testing of various types of electrical and electronic equipment such as radios, fractional horsepower and integral motors, generators;

Industrial engineering—training in tool engineering, time and motion study, quality control work, process engineering or manufacturing supervision;

Chemical engineers—training in research and testing paints, finishes, lubricants, fuels adhesives, metals, plastics, rubber or non-productive materials. Openings also available for civil engineers, physics and math majors.

United Fruit Company

Representatives of the United Fruit Company will be on the campus to talk with agricultural and engineering majors interested in work in Central America. They also have opportunities for business majors. Due to housing conditions, they are interested in single men only at this time.

The agricultural duties consist of supervision of farm operations including relations with farm labor, making payrolls and keeping cost records and production estimates. The engineering operations consist of topographic surveys, layout and construction, generation and distribution of power, installation and operation of communication systems, etc.

A general meeting will be held in Room 2-A of the MSC at 8 tonight with individual interviews being held Tuesday.

Goodyear

The Goodyear Tire and Rubber Company will interview here today and Tuesday. They are interested

in talking with mechanical, chemical, electrical, aeronautical, industrial, and civil engineering graduates for openings in both their rubber plant and aircraft industry.

The opportunities which exist cover a broad field and consist of product and process development, research, plant engineering, machine design and production management.

The Phillips Petroleum Company will conduct interviews Tuesday and Wednesday and are interested in graduates in the following fields: mechanical, chemical, electrical, civil, industrial, and petroleum engineering. They are also interested in talking with candidates for degrees in chemistry and physics.

Representatives will be here from their refining department, gasoline department, chemical company, general engineering department, and research and development department.

A representative of the Gulf Oil Company will be here Wednesday to interview petroleum engineering graduates.

Chain Belt Company

The Chain Belt Company, manufacturers of conveying and processing equipment systems, chain belts, and similar products, will conduct interviews here Wednesday. They are interested in civil, mechanical, chemical, and industrial engineering majors for openings in the fields of design and manufacture, engineering application, and servicing of their products. They are interested in business majors for sales work.

Douglas Aircraft Company will be here Wednesday and Thursday to talk with aeronautical, mechanical, electrical, and civil engineers. Their present openings are for aerodynamics stress, flutter and vibration analysis, mechanical and structural component design, installation design of power plants and electrical equipment, missile guidance and control systems servomechanism and flight test.

International Machines

International Business Machines Corporation will interview Thursday. They now have openings in sales work for business administration majors and in customer engineering for mechanical and electrical engineering graduates.

The Goodyear Tire and Rubber Company will be here Thursday to talk with business, economics, and agricultural economics majors interested in sales work. A general meeting will be held that morning at 9 in Room 2-A of the MSC.

Carbide and Carbon Chemicals will conduct interviews here Thursday and Friday and will be interested in talking with chemistry, chemical and mechanical engineering majors. A general meeting will be held in Room 2-A of the MSC at 5 p. m. Wednesday.

Humble Oil and Refining Company will be here Friday to interview graduates in geology, civil, electrical, industrial, chemical, mechanical, and petroleum engineering; also advanced degrees in chemistry and physics.

A general meeting will be held in the Ballroom of the MSC at 7 p. m. Thursday. All appointments for interviews will be made at the general meeting.

Napier-Blanchard Wedding Performed By Candlelight

Miss Betty Napier and Second Lt. Robert Glenn Blanchard were married in the A&M Methodist Church Saturday afternoon at 4 in a candlelight service. The Rev. James Jackson performed the double ring ceremony.

The former Miss Napier is the daughter of Col. and Mrs. E. W. Napier of College Station. She attended Southern Methodist University and the University of Texas. She is a member of Delta Gamma Sorority. She was graduated from Thomas Jefferson High School in San Antonio.

Lt. Blanchard, a 1951 June graduate, was a distinguished military

student and received a regular commission in the Air Force. While at A&M, he was commander of C Squadron. He is the son of Mr. and Mrs. Lewis M. Blanchard of Wichita Falls.

The bride, given in marriage by her father, wore a princess style gown of white shantilly lace over satin. The full skirt formed a full train and the fitted bodice featured a sheer yolk with lace medallions on the neckline. The fingertip length veil of illusion fell from a crownless lace bonnet. Her bouquet was an orchid surrounded by hyacinth flowers.

Miss Nancy O'Byrne of Dallas

was maid of honor. She wore a gown of pink nylon net over pink taffeta and a half-hat of pink net. She carried a modified colonial bouquet of pink carnations.

Waldo Blanchard, Wichita Falls, was his brother's best man. The ushers were Nolan S. Sonnenberg and Donald S. Burns, Port Arthur, Doyle R. Griffin, Long View, and Lt. Dick Kelley, Bryan Air Force Base.

Jimmy Rollins, organist, played the traditional wedding marches and accompanied Lamar McNew who sang "Because" and "The Lord's Prayer".

Reception Held in MSC

A reception was held in the MSC following the ceremony.

Misses Shirley Fletcher, Norma Lee Baxter, San Antonio; Jan McKinney, Baytown; Jan Gartman, Dallas; Sonja Gladbach, Groesbeck; Mrs. Howard W. Barlow, Mrs. John P. Abbott, and Miss Ann Hickerson, College Station, were in the house party. Piano music was played throughout the hour by Miss Deanie Parker, Pickton.

The tea table was centered with an epergne with snapdragons, stock, and bells of Ireland cascading to the table which was covered with a white nylon cloth. The bride cut the first piece of the three tiered cake with her father's sabre.

Out-of-Town Guests

Out of town guests were Mr. and Mrs. Lewis M. Blanchard, parents of the groom and Mr. and Mrs. Ben F. McCormick, Wichita Falls; Mr. and Mrs. James O. Elliott, grandparents of the bride, Miss Joan Elliott, Miss Eva Mae Jones, Mrs. Jessie M. Fletcher, Mrs. Hurley Brown, Miss Elaine Suttie, and Mr. and Mrs. H. Lee Jones, San Antonio.

The couple will make their home in Panama City, Florida where the groom is stationed at Tyndall Air Force Base.

HKB RELAYS GIVEN

Two HKB relays have been given to the Electrical Engineering Department, Texas A&M College. The gifts are from the Westinghouse Electric Corporation.
