

Danish Officials Arrive

The expected military officials from Denmark arrived early this morning by plane and began their visit of the A&M campus with an inspection of the ROTC program.

Arriving at 11 a.m. from New Orleans where they have been visiting Tulane University, the Danish officials are on a trip across the United States, touring Army, Air Force, and Navy ROTC installations at outstanding colleges and universities.

The purpose of the visit is "to promote international good will and to gain ideas which Denmark may use in establishing its own ROTC training units."

A full dress review of the Corps of Cadets is scheduled for 3 p.m. this afternoon. Following the review, the delegation will leave by plane for San Antonio.

Official Party

Forming part of the official group are His Excellency Erick Kindgren, Danish under-secretary of defense; Maj. Gen. S. E. Johnson, chief and inspector general of the Home Guard; Lt. Gen. Jacobson, director of personnel and organization of Danish Defense Ministry; and Maj. R. S. Anderson, chief of staff of the inspector general of infantry.

A representative of the Department of Defense who called here to discuss plans with the A&M Military Department about the Danish officials' visit said he was particularly anxious for the group to visit A&M, since he thought they had not received a fair picture of ROTC life in the US without seeing this school, said Commandant Joe E. Davis.

Acting as representative for the ROTC and ORC Affairs Department in Washington, D. C. will be Aggie-ex Lt. Col. Charles H. Jones, Jr., Colonel Jones, who is on the staff of Maj. Gen. Hugh M. Milton, executive of the ROTC and ORC Department, is scheduled to arrive today at 4 p.m.

Chest X-Ray Schedule Set For Local Area

The annual TB chest X-ray survey will be taken in the YMCA again this year, according to W. L. Penberthy, dean of men.

Dates for these X-rays are March 21, then March 24 through March 29, inclusive, from 9 a. m. to 5:30 p. m.

X-rays are free and open to anyone over the age of 15. Also, they are quickly made, it is not necessary to remove articles of clothing, and the results are confidential.

"Everyone is urged to have his chest X-rayed this year, Dean Penberthy said, "whether it was done last year or not since cases caught early are more easily treated."

Florist Schedule Talks at 8 Tonight

Three members of the design section of the Lambert Landscape Company of Dallas will speak to the Floriculture and Landscape Architecture Club, Friday, at 8 p. m. in the college greenhouse, announced Phil Huey, president.

Clarence Roy and two other members of the Dallas firm will tell their experiences in the landscape design office and will discuss the current work being done by the firm. The meeting is open to the public.

Weather Today

POSSIBLY WET

WEATHER TODAY: Cloudy to partly cloudy with expectant rainfall. The maximum temperature expected will be 70 degrees.

UT's Hart Urges Salary Hike, Removal of 'Freeze'

Austin, March 14—(AP)—Chancellor James P. Hart urged higher salaries for University of Texas teachers tonight, and called for the legislature to remove its "freeze" on courses to be taught at the university.

He outlined these and other objectives in a speech to the Austin Texas-ex club's dinner.

Hart said he recognized the purpose of the 1951 legislative ban on new departments of instruction and courses leading to new degrees was to economize by preventing needless expansion and duplication.

But, he continued, the effect of this legislation has been "to prevent the adaption of our teaching program at the university to new demands and changing conditions."

Korea Quiet After Heavy Red Shelling

Seoul, Korea, March 14—(AP)—The Korean war quieted today after the heaviest Red artillery operations in weeks, including shell bursts uncomfortably close to four American warships.

Even the air war was washed out by storm clouds, blown down from Manchuria.

Communist shore batteries opened up twice yesterday on U. S. warships besieging the east coast

of Wonsan. But the Navy said none of the American craft was damaged.

Shells from coastal guns straddled the Cruiser Manchester and Destroyer Fox. American carrier planes swept in to support the two ships in the succeeding artillery duel with the Red artillery. The sea-air attack silenced the Communist emplacements.

Shore Batteries Fire

In a separate action in the Wonsan area, shore batteries fired at the Destroyer Kyes and McGinty. "Both ships received near misses," the Navy said, "but sustained no damage."

Along the 155 mile ground front Red artillery fired 3,155 rounds, a U.S. Army spokesman said. Most of it was on the eastern front. The U.S. 25th Infantry Division in the punchbowl sector reported it was the target of 1,390 rounds.

But the artillery fire this morning mentioned by the Eighth Army communique came from U.N. guns. Allied artillery and tank fire broke up a two hour fight between Chinese and an Allied patrol on the Western front near Yonchon. No other ground action was reported Friday morning.

Red Supply Lines Hit

In the air, fighter-bombers struck through breaks in the clouds to blast Red supply lines before the storm closed in at noon. During the night bombers attacked Red rail yards by radar.

Seniors Must Order Favors By Tomorrow

Seniors who wish to receive senior favors in time for the Senior Ring Dance must order them before tomorrow, March 15, announced Pete Hardesty, business manager of student activities.

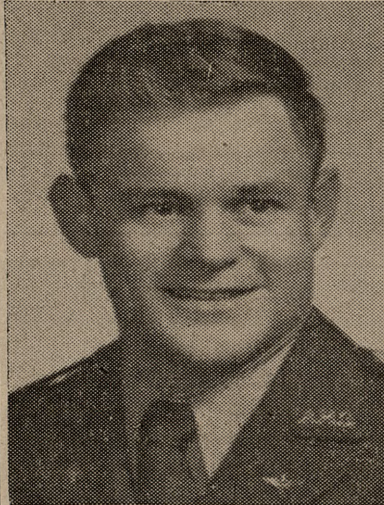

The favors may be ordered at the desk in the student activities office, second floor of Goodwin Hall.

"We cannot guarantee delivery before the dance if orders are not in by the 15th," Hardesty said.

Graduation invitations must be ordered before April 14. Three types, leather, cardboard, and french fold design, are available.

There is no limit to the amount of invitations that may be ordered, but there will be few if any extras printed, according to Hardesty.

Lippman Gets Achievement, ME Award

Glenn Lippman

Glenn Lippman, Aggie all Southwest conference back, received the Hugh Scott Cameron award for scholastic achievement Thursday night in Houston.

The award, made annually by the faculty, is a certificate which goes to the student who in their opinion is the outstanding prospect for graduate study in the field of mechanical engineering.

It is named after the late Hugh Cameron, an M. E. professor, who later became dean of men at Rice Institute.

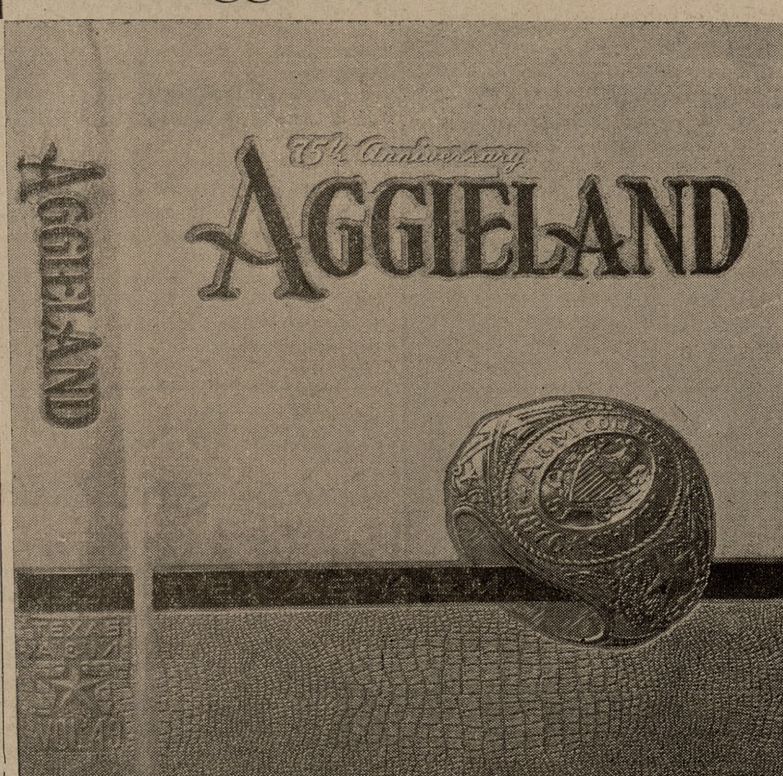

The presentation was made to the A&M grid star at the annual dinner meeting of the South Texas section of the American Society of Mechanical Engineers.

A. D. Martin Jr., former cadet colonel of the corps, received the award last year. Martin is doing graduate work at Carnegie Institute of Technology.

Texas University and Rice Institute each had one student at the meeting who also received the award.

President Harrington was one of the honor guests invited, as were the presidents of Rice and Texas University.

'Aggieland 1951'

Distribution of the Aggie '51 will begin early next week, and for those who don't yet know the appearance of the annual cover, here's a sneak preview. The main portion is in blue, the lettering being in red and gold.

Political Attention Shifts to Jersey

Newark, N. J. March 14—(AP)—New Jersey moved yesterday into the front line of the nation's political battleground as the site of the next—and possibly last—head-on primary contest between General Eisenhower and Senator Taft.

The impact of the state's April 15 preferential primary well could decide the GOP nominee for President, some believe.

Others point out that New Jersey, sixth ranking industrial state in the country, with a primary voting potential of more than 2,350,000 will provide a vaster testing ground of strength than New Hampshire.

Some 129,000 persons broke balloting records there Tuesday. Close to a million New Jersey's eligible voters are expected to participate in the balloting here.

Republican Candidates

Eisenhower, Taft and Harold E. Stassen are the Republican candidates. Sen. Kefauver (D-Tenn.) is the lone Democratic entry.

While the Ohio senator is entered in primaries in Wisconsin and Illinois, Eisenhower is not. Neither of the two GOP candidates yet is listed to clash in subsequent primaries.

As the din from the New Hampshire election quieted elsewhere today the Eisenhower and Taft political drums began rolling louder in New Jersey.

Supporters of the general stepped up their campaign with radio and television broadcasts. Along with this, they announced a roster of nationally known speakers will appear in the state in an effort to duplicate Eisenhower's New Hampshire victory.

'Fish' Ball Profits Total Over \$500

The Freshman Class cleared \$521.46 on the Fish Ball March 1. This sum is net profit, after taxes and all expenses of the dance were paid.

The money will go into the Class of '55 class fund, to be added to each year and to be used for the class's senior gift.

Ticket sales for the dance were 588.

Aggies Defy Rule; Announce Candidacy for Presidency

By JERRY BENNETT
Battalion Staff Writer

Despite rules prohibiting political rallies on the campus, two A&M students formed a new party and announced their candidacy for presidency before a capacity crowd in Guion Hall last night.

Although Lew Jobe, senior economics major and Eugene Nash, senior business major candidates for the Aggie Party were sincere in their announcements, they probably lack the confidence of the voters since both were hypnotized at the time.

During an exhibition of mass hypnotism conducted by Dr. Franz J. Polgar, hypnotist, both men were made to believe they were running for the office. After allowing the students to start their campaigns, Dr. Polgar jerked the soap box from under their political ambitions by awakening them from the trance.

One of Many

This was only one of the many demonstrations that amazed the audience which had gathered to watch the show.

Approximately 30 people were hypnotized by Dr. Polgar at once.

While under hypnosis they obeyed every command and suggestion he placed in their minds. While spectators roared with laughter, the subjects shivered when told the weather was cold and perspired when informed a heat wave had just struck. They were unable to lift an ordinary chair believing it weighed several thousand pounds and became embarrassed when looking through ordinary glasses which the doctor claimed had X-ray powers. Upon attempting to leave the stage, some could not move after being told one of their feet was stuck to the floor.

Demonstrated Memory

In addition to hypnotism, Dr. Polgar performed examples of mental telepathy and demonstrated his remarkable memory which he claims enables him to meet 400 people and then call them correctly by name.

Dr. Polgar was able to find his check for the night's performance, which was concealed in a spectator's camera while the mentalist was out of the room. He explained the thought waves of the audience enabled him to make the discovery.

Arriving on the campus at 4 yesterday afternoon, he held his first phenomenal exhibition by driving around the campus blindfolded. Later he performed for the cadets in Duncan Mess Hall by giving a sample of what was to follow the Guion Hall show.

Called "America's greatest one-man show" by the Saturday Evening Post, Dr. Polgar has been the

Ag Coop Managers Set Short Course

A short course for Agricultural Cooperative Managers will be held from 6 p. m. March 30 until April 4, in the MSC, announced L. P. Gabbard, head of the Agriculture Economics and Sociology Department.

Registration will be conducted in the MSC beginning at 8 a. m., March 31. Meetings will be conducted in room 2B, A, B, C, and D, of the MSC.

Luncheons will be held daily at 12:15 p. m. from March 31, through April 4. A dinner will be held at 6:30 p. m. in rooms 2C-D of the MSC, April 4.

Senate Debates Revision Plans

By JOHN WHITMORE
Battalion Editor

In a stormy sparsely attended meeting of the Student Senate, groundwork was laid for the revision of the student senate organization and constitution. Twenty-four senators were on hand for the roll-call; there are 43 in the senate.

A special committee of seven men was established to study the student body constitution and recommend changes on the constitution for the next meeting. The proposal was made by Vice-President Don Young.

Following on the heels of the proposal for revision was a plan for the establishment of an electoral commission as outlined by Dan Davis, president of the MSC Council.

Davis proposed electoral commission would have five members of student senate, and four members of each of the three upperclasses—sophomore, junior, and senior.

This commission was proposed to have the duty of making certain there was secret balloting at all elections, and was to take charge of all elections, and serve an appellate organization for disputed elections.

Young gave the report to the senate of the action of the Academic Council on the recent senate constitutional amendment. The amendment was to allow the senate to vote whether or not to keep men who were moved out of the dormitory they represented.

The Academic Council tabled the proposed amendment with the understanding that the amendment would be revised by the senate. Complying with this request the senate changed the amendment to read—the senate would vote on whether or not to retain a senator on the senate who had been removed against his will and was still in good standing with the college.

The A. S. Bedell award for outstanding service to an area went to W. S. Maley, chief chemist, Fort Worth.

The A. H. Ullrich of Austin was elected chairman of the Texas Section of the Federation of Sewage and Industrial Wastes Association.

A. C. Brayn of the sewer division, Houston, was elected vice-chairman and Ehlers and Goodwin were elected to the posts of secretary and assistant secretary-treasurer.

Upon the recommendation of the hospital committee, the senate backed a plan to type the blood of all students in the college and recommended that a special blank be put on the physical form filled out by entering students.

Nominations for the Aggie Mother of the Year will be accepted at Student Activities until April 15. Nominations will also be turned in by hometown clubs. Members of the social committee will screen the candidates and bring five nominations to the senate.

Wessendorf Chosen to Head Texas W&SMA

Alfred Wessendorf of Fredericksburg was elected president of the Texas Water and Sewage Works Association at the closing sessions of the short school held here Thursday. He is water superintendent of the City of Fredericksburg.

J. E. Williams, San Angelo; J. R. Bryan, McKinney; R. H. Tate, Post and V. M. Black, Greens Bayou, water superintendents of their cities, were elected vice-presidents.

V. M. Ehlers of the State Departments of Health, was re-elected secretary; Mrs. Earl H. Goodwin, Austin, assistant secretary-treasurer and Clayton Billings, administrative assistant, Austin, were re-elected.

The A. S. Bedell award for outstanding service to an area went to W. S. Maley, chief chemist, Fort Worth.

The A. H. Ullrich of Austin was elected chairman of the Texas Section of the Federation of Sewage and Industrial Wastes Association.

A. C. Brayn of the sewer division, Houston, was elected vice-chairman and Ehlers and Goodwin were elected to the posts of secretary and assistant secretary-treasurer.

Upon the recommendation of the hospital committee, the senate backed a plan to type the blood of all students in the college and recommended that a special blank be put on the physical form filled out by entering students.

Nominations for the Aggie Mother of the Year will be accepted at Student Activities until April 15. Nominations will also be turned in by hometown clubs. Members of the social committee will screen the candidates and bring five nominations to the senate.

Air Force Band Gives Concert Here, Tuesday

The Air Force Band of the West, under the direction of Chief Warrant Officer Samuel Kurtz, will give a concert at 7:30 in Guion Hall on Tuesday March 18. Admission is free.

Ranking next to the official Air Force Band of Bolling Air Force Base at Washington, D. C., this musical aggregation was developed and expanded under Brig. Gen. Wycliffe E. Steele, commandant of Lackland.

Comprising a total of 80 airmen, with individual bands operating with 40 musicians each, the Band of the West can be converted into several versatile musical units, including a symphonic concert ensemble and several dance combos. Today there are two permanent dance outfits, and a show band.

Recently formed by Kurtz is a Symphonette, the concert band plus stringed instruments and a harp. Newest unit of the band is 40 instrumentalists who double in brass as the "Singing Airmen."

In radio TV and appearances with the San Antonio Symphony, this choral group has won wide critical acclaim. Assisting Kurtz in directing the Singing Airmen is Cpl. Charles Beall, baritone soloist of Enid, Okla.

Other key personnel include Sgt. William T. Doyle, King City, Calif., the marching band's drum major, and Sgt. William E. Harder, Elmwood Park, Ill., who writes and produces the radio and television shows which the band appears. Master Sgt. Albert Milne, Roundup, Mont. and Sgt. Gerald M. Pit-senbarger, Davenport, Iowa, share administrative duties.

Brazos Bottom Boogie Busters

Faculty Band to Let Hair Down

Faculty members will let their hair down tonight in an effort to prove that profs are human beings.

The occasion will be the re-opening of Cafe Rue Pinalle, the MSC version of the typical French left-bank night club.

Their method? A nine piece Dixieland band composed of the faculty and local businessmen and under the direction of Howard Barlow, dean of the School of Engineering.

These men, all members of Bud Barlow's Larger Brazos Bottom Boogie Busters, have all played professionally and semi-professionally with dance bands during and after their undergraduate days in college.

Newt Hielscher, a former mem-

ber of the Engineering Drawing department, will play the bass as he used to do when playing with Harry James, the Beaumont trumpeteer. Accompanying him on the saxophone will be Carl Hartman of the English department. Hartman will also double on the guitar as he did while playing with Louie Prima.

Doing the banjo honors for the evening will be Col. E. F. Sauers, a former member of Louie's Hungry Five at the University of Indiana. Clarinetist R. B. Alexander of the chemistry department, ex-member of Jack Reams orchestra and Dr. Earl Kirk, former trumpet man for Les Brown's Band of Renown, will add their talents to the aggregation.

The remainder of the band is composed of drummer Barlow, of Lew Weiner's Black and Gold Aces of Purdue University; trombonist Bob Fletcher of the mechanical engineering department, from the Campus Owls of Pennsylvania State College; piano player H. E. Curtiss of the mathematics department, from the University of Oklahoma; and accordionist Ralph Lee of the chemistry department from the Memphis State College band.

To illustrate the confidence of the band members, Boyce Holmes, manager of Cafe Rue Pinalle, asked if the band would need music stands. Said Barlow in return, "Man, we don't play by music, we just play."

The girl vocalist for the floor-show, beginning at 9:30 p. m., will be Miss Mary Ellen Fussell, a senior at Bryan High School. Miss Fussell has sung and played the piano at the Bryan school's annual talent shows for the past few years.

To add comedy to the whole show will be those acrobats of basketball halftime fame, Bud Matthews and Harold Turner.

"Reservations are still available at the directorate offices and at the main desk of the bowling alley," promised Allen Pengelly, the headwaiter. "Tickets will also be on sale at the door however, to insure a place for your party, it's safer to make reservations ahead of time."
