What Price Loyalty?

IN THE LAST few years the people of the United States have aroused themselves to meet the challenge of communism, whether open or secret. Outraged by the attacks on their society, they have risen to repel the danger. The same alertness, the same moral courage, the same effctive counter-attack by publicity and legal process are now required to answer the arrogant challenge of the criminal underworld. If any doubt of this necessity existed, it has been removed by recent outrages designed to silence citizens who have dared aid the law.

The bomb slaying of Mr. and Mrs. Homer Wright in New Haven is only the latest of these attacks on citizens who express their loyalty in active, courageous support of the Kefauver Expects To Win law. Mr. Wright had thwarted a holdup and was to be the chief witness. The accused had been released on bail, and had tried to suppress Mr. Wright's testimony by bribery. In Wisconsin Primary Vote

While only one day of them is clearly connected with a crime syndicate the challenge is wide enough and arrogant enough to demand an awakened and vigorous counterattack. Necessary specific defense measures will be found when the community becomes adequately aroused. Greater public appreciation for citizens who aid the law and tangible rewards can be more effective than any amount of unapplied indignation aganist

But the first step is a sharper awareness that here is an attack on the very roots of a just society—the citizens' active loyalty to law. The next stop, as in the defense against communism's attack, is a vigorous counteroffensive against -Christian Science Monitor.
