

National Workshop

(Continued from Page 1)
 There will be a dinner for the members at 6:30 Wednesday evening in the Main Ball Room of the MSC. Guest speaker will be Earl Berkley, Director, Spinning and Fiber Laboratory, Anderson-Clayton Company, Houston, Texas. His topic will be, "Recent Developments in Merchandising Cotton."
 The Thursday morning session will feature a talk by Shelby Roberts, Jr., Division of Marketing and Transportation Research Bureau of Agricultural Economics, USDA. His subject will be, "Measuring and Developing Market Potentials."

Tour of The College
 Thursday afternoon there will be a tour of college livestock facilities and the Texas Planting Seed Association. After the tour, the Association will give a barbecue to the Workshop members.

At the Friday morning session, W. H. Nicholls, Professor of Agricultural Economics, Vanderbilt University will talk on "Conflicts Between Economic and Legal Approaches to Monopoly."

Members of the committee who developed the Workshop Program include: W. E. Paulson, Professor, Department of Agricultural Economics and Sociology, A&M, who was chairman of the committee. He introduced all the members of the Workshop at the opening last Friday, and is participating in the work group on Kinds and Degrees of Competition; E. R. Glover, Assistant Administrator for Marketing, PMA, USDA, Washington, D.C.; S. K. Seaver, Associate Professor, Agricultural Economics, University of Connecticut.

G. S. Shepherd, Professor, Department of Agricultural Economics, Iowa State College; F. V. Waugh, Assistant Chief, BAE, USDA, who spoke at the opening session Friday; Bernard Joy, Assistant Administrator, Agricultural Research Administrator, USDA, who serves as secretary of the committee, executive secretary of the Workshop, is a member of the work group on Governmental Participation in Pricing, and who gave a talk at the opening session on "Plans For Work Groups," and

Lewis Delivers Address
 R. D. Lewis, Head of the TAES, addressed the members at the dinner last Friday evening in the MSC. His subject was, "Views on Marketing Research."

Other speakers include: A. L. Larson, Professor of Agricultural Economics, Oklahoma A&M, who spoke Saturday on, "Appraisal of Current Research in Pricing Trade;" W. W. Cochrane, Professor of Agricultural Economics, University of Minnesota, who spoke Saturday on, "A Theoretical Scaffolding for Considering Governmental Pricing Policies in Agriculture," and D. Gale Johnson, University of Chicago, who spoke this morning on, "Price Stability"—an appraisal from the standpoint of producer, consumer and marketing agencies.

C. N. Sheppardson, Dean of the School of Agriculture, attended the opening session last Friday.

Watson Is Making Texas Turf Tour

Dr. Jones R. Watson, Jr. assistant professor of agronomy left College Station July 7 on a two-week Turf Tour of South Texas. He is accompanied by A. W. Crane of the Goldthwaite Texas Turf Co. They are scheduled to visit golf courses, football fields, and parks at a variety of spots in south Texas in an effort to determine which cultural practices should be recommended to improve the turf.

The tour is sponsored by the Texas Turf Association.

F. E. McFarland Receives Fellowship For Study at Columbia University

Frank E. McFarland, of the basic division staff, has been granted leave of absence by the college and appointed a faculty fellow at Columbia University to work toward his Ph.D.

Dean John R. Bertrand expects

Old Ad Building Being Remodeled

The old Administration building, which is now the administration building for the entire Texas A&M College System, is now being remodeled.

The building upon completion will house the administration offices of the A&M System as well as the Extension Service and Agriculture Experiment Station administration and staff.

Sixty-four thousand dollars has been allotted by the board of directors for complete remodeling of the old horse barn, located north east of the new area. This building will be used for the editorial and publication departments of both the experiment station and extension service.

The Military Department's offices will be moved to the offices left vacant by this change. A minimum of six months will be required before remodeling and moving can be completed.

Dr. Goodrich To Be Main RE Speaker

Dr. Robert E. Goodrich, Jr. pastor, First Methodist Church, Dallas, will be the main speaker featured during Religious Emphasis Week, beginning February 15, of the coming year.

Dr. Goodrich has been a frequent preacher on other college campuses throughout the state. And almost every summer he preaches at one or more of the Cowboy Camp Meetings in New Mexico and other western states.

Born in Cleburn, Texas, 1909, Dr. Goodrich is the son of a distinguished Methodist minister, Dr. Robert E. Goodrich (pastor of such churches as, First Methodist, Houston, Shreveport and Birmingham). He is following in his father's footsteps as a well known feature in the Methodist Church.

Dr. Goodrich attended high schools in Waco, Texas and Shreveport, Louisiana, graduating from the Centenary Academy in Shreveport. He entered Centenary College and after two years he quit to enter the retail radio business.

After two years in business he became program director for radio station KTBS, Shreveport. One

Pecan Growers Meet Ends Here

More than 60 persons attended the 31st Annual Convention of the Texas Pecan Growers Association, held at A&M July 9-10.

Members attending the full two-day session heard 18 talks on subjects ranging from "Market News Service for Pecans," through "The Profile of a Good Pecan Soil," to "Which Varieties Where?" Talks included growers' practices, culling, thinning the grove and insects which attack trees.

Harry Cross of Greenville, president of TPGA, called the convention to order and presided throughout. G. G. Gibson, director of the Texas Agricultural Extension Service, welcomed the group to the A&M campus.

McFarland to complete his work and return to his position as assistant director of remedial reading in September.

McFarland entered the Army in 1941 and was released in 1946, having advanced from private to first lieutenant and command of a combat machine gun platoon. A part of the wave of veterans that swept across the nation's colleges after the war, he enrolled in Baylor in 1946.

He joined the staff of the basic division in 1950 as a dormitory counselor, and for the past year has worked as a personal and vocational counselor.

Junction Aggies Give Variety Show

By JACK THURMAN
 Junction Adjunct Reporter

A variety show was presented to the A&M Adjunct Aggies July 1 with talent taken from the students and professors at the Adjunct near Junction.

The first part of the program was given by a Dixieland jazz band. Jack Crawford, Geology

Dr. Allen Stockdale, Noted Speaker Lectures In MSC

By T. D. BRADY

"A college education that casts us in a mold is worthless! Education is only useful if it enables us to project our personalities and ideas with force and imagination," declared Dr. Allen A. Stockdale in a lecture given in the MSC ballroom Thursday morning.

Stockdale, a ruddy-faced, dynamic man whose years have left few marks on him, made two sparkling addresses to the students of the School of Business Administration Thursday morning.

Speaking from the platform of the MSC ballroom on human relations in business and the power of education he kept his audience alternating between a pin-dropping quiet and gales of laughter.

Stresses Honesty
 In the first address, dealing with the importance of honest, Christian human relations between management and labor, Stockdale stated that "80 percent of the problems of production in industry are due to human factors," and that in industry "the trend is to more understanding of human beings."

In the second address, entitled "Education is Power," Stockdale warned that our form of government, our ideals, our very freedom, is endangered by communism, and told his audience it was their right and duty to be effective champions of our system of government.

Language Barriers
 He pointed out that the language barriers existing in the industrial cities of the East have offered a fertile field to the communists, who have talked to each man in his own language, and stated that America must do the same to fire the minds of our newer citizens with the ideals and traditions we hold dear.

"When a dog gets porcupine quills in his nose, he's an unhappy dog until someone pulls them out. Management and labor both are continually being stuck by barbs of suspicion, misinformation, and resentment. I try to act as a quill puller." Thus Dr. Stockdale describes his work as "Dean of Speakers" for the National Association of Manufacturers.

Worked Way Through College
 Stockdale found out early in life that he had something to say and that he could get people to listen. He managed to make his way through college on money he picked up as an entertainer and impersonator. An early experience here made a profound impression on him.

A professional entertainer whom he called on for advice gave him an arm-long list of "do" and "don'ts" that young Stockdale

thought to be stuffy nonsense. He deliberately violated most of them during his first employment and rocketed to local popularity!

Some Advice
 Fifty-seven years later he still says: "Don't believe everything people tell you—the man who can be original—who can find a new way to do or say something—will be a successful man!"

Who's Who in America shows that after graduating from Taylor University (Indiana) he attended Boston University School of Theology and was ordained a Congregational minister in 1904. He was an Oxford student in 1922 and 1923. His degrees include a D.D. from Berea, and an LL.D. from Marietta (Ohio) College. Almost 35 years in the ministry were spent in only four cities—Boston, Chicago, Toledo, and Washington—ample evidence that Stockdale had something to say.

At the age of 60, when most men are thinking of retirement, Stockdale left the pulpit and took to the road for the NAM. He is still preaching Christian service and human understanding—but to an audience of hundreds of thousands of people—industrial America.

Now an amazingly young 77 he still lives by the basic law he learned early in life:

"Seek ye the truth; and the truth shall make ye free."

Experiment Station Receives 2 Grants

Grants-in-aid to the amount of \$6,000 have been made available to the Texas Agricultural Experiment Station, Dr. R. D. Lewis, director, has announced.

A \$2,500 grant-in-aid from S. B. Penick and Company of New York, will be used in support of studies on antibiotics, vitamins and other factors in the growth and health of swine.

A \$3,500 grant-in-aid is from Dr. Hess and Clark Inc., of Ashland, Ohio. It will be used in studies of the feeding value of nitrofurazone in turkey rations.
