'Stalin's Hoax'

is determined by rigid rules. Worst of all, it is a tyranny since the Constitution provides for no checks on the government or redress against government actions.

The reason Stalin took this course is not difficult to understand. It was the only way to keep the Bolshevik Party. which never represented more than a fraction of the Russian people, in power. What may seem puzzling, however, is that the Communists-Russian as well as foreign-have not turned against Stalin. The puzzle's solution is that Stalin, whenever he took a step away from the Communist program, ex-

plained the shift as a step on a detour toward communism.

He used Marx's uptopian promises of freedom, abundance, leisure, and equality for all to lure the people into his gigantic labor camp.

In springing his hoax on the Communists, Stalin has received unexpected help from the free world. By blaming the detestable methods of his regime on communism, the free world actually has been playing into Stalin's hands.

Stalin has retained hardly anything of communism except the name and the dubious promise of the "glorious future" to which it would lead. But the free world's failure to distinguish between communism which Stalin threw out because it would not work and Sovietism which he put into the saddle, has allowed him to represent any attack on the Soviet system as an attack on the ideals for which the Soviet masses have been paying so heavily.
