

Parties, Dances, Football, Planned for Baylor Weekend

Two thousand Aggies will invade the Bear's homecoming day Saturday as "that Old Baylor line" sags under the weight of numerous parties, dances, and dinners with a football game thrown in for good measure.

Aggies, their dates and guests will start arriving at the Waco college Friday to help spark the weekend celebration and see the A&M-Baylor game scheduled for 2 p. m. Saturday. An information booth, sponsored by the Alpha Phi Omega men's service fraternity, will be located on the first floor of the Baylor Student Union Building to direct and help all visitors.

Information Booth Will Be Open
The information booth will be open Friday from 8 a. m. to 10 p. m. and Saturday morning from 8 a. m. to 12 noon.

The Baylor Student Council will entertain Aggie Council members and yell leaders with a luncheon at noon Saturday in the north lounge of the Union Building.

Anyone in a festive mood can celebrate at one or more of the many parties scheduled after the game. The Law Wives Association is sponsoring a dance at Karem Temple, 208 N. 7th St., at 7 p. m. Prices are \$2 per couple and \$1.20 stag.

Hold Homecoming Jubilee

The Esquire Club is sponsoring a homecoming jubilee in the Colonial Ballroom of the Roosevelt Hotel beginning at 8 p. m. The Aggieband Orchestra will furnish the music. Price is \$4 per couple. Baylor homecoming activities

will start Friday at 10 a. m. with the presentation of homecoming queen nominees. Sponsored by Delta Alpha Pi, women's social club, the presentation will begin at 10 a. m.

Parade Saturday

A parade will be held at 10 a. m. Saturday followed by dinner in the Union Building Cafeteria

Shivers Calls Demo Talk 'Big Scare'

AUSTIN, Oct. 22—(AP)—Gov. Shivers derided Adlai Stevenson's campaign as "the big scare" tonight.

Speaking at a rally of Central Texas Democrats for Eisenhower, Shivers said:

"Some of the commentators are calling Mr. Truman's whistle-stop campaign a practical application of the propaganda theory known as the big lie. This means that if you say something often enough, no matter whether it's true or not, a lot of people eventually will believe it.

'Big Scare'

"Without passing judgment on that, I think we can fairly call Mr. Stevenson's campaign the big scare."

Shivers has declared for Dwight Eisenhower and against "Trumanism."

He said Stevenson, the Demo-

cratic nominee, is aiming the basic appeal of his campaign at America's fear of a depression.

"You never had it so good," Shivers quoted Stevenson as saying. "Don't let them take it away."

Then Shivers asked: "Don't let them take what away? Who never had it so good? The boys in Korea? The grafters in Washington?"

No Depression

"I don't think we need to worry about a depression, no matter who is President, so long as Mr. Truman's war goes on in Korea," Shivers continued. "Is this what they mean when they sing: 'Don't let them take it away?'"

Shivers, who declared he could not support Stevenson because the latter favored federal ownership of tidelands, said there are "only three real issues in this campaign:

- "Socialism and Communism.
- "That mess in Washington.
- "The Korean War."

"If the people of Texas and America are satisfied with the way the present administration has handled these three issues, they ought to vote for Stevenson," Shivers said.

"If they are not satisfied and want a change, they ought to vote for Eisenhower."

"Personally, my choice is clear. When the issue is Trumanism and Stevensonism versus the best interests of Texas and the United States, I'll take Texas—America—and Eisenhower."

Gun Collectors Cancel Meeting

The Texas Gun Collectors Association has cancelled their meeting scheduled for Saturday in the Memorial Student Center.

The association previously had scheduled two meeting dates for October, but decided on the date of the earlier meeting, which was held two weeks ago.

At the meeting, the group dedicated the Metzger Gun Collection to A&M.

These Aggies!

48 In a Car Wins Prize At Theatre

It could happen only at Aggieland: Forty-eight A & M students went "all-out" for a friend and helped him to win a \$100 engagement ring. But their method of doing it is something for "Believe It or Not". They all crowded into a tudor 1950 Chevrolet and won the prize offered by a local drive-in theatre to the customer who brought the most people in one car.

A certain young lady, the fiancee of Sam Guthrie, senior from Brownwood, will be getting the ring this weekend—something Sam had lacked the money to buy.

How did 48 boys get into one car? "Simple," says Sam, "we just took out both the front and back seat. It was a little hard to drive," he said, "but with one boy working the pedals with his hands, another at the gear shift, and another at the wheel, we got in with the car in one piece." (By-standers claimed the tail pipe was dragging.)

Arts, Sciences Council Slates Meeting Monday

Student Arts and Sciences Council will hold its first meeting of the year in the Senate Chamber of the MSC Monday at 7:30 p. m.

Business to be transacted at the meeting includes the election of officers, action on a petition for membership from the Building Products Marketing Club, and a report from the editor of The Commentator. New business will be donated from the floor.

Representatives to the council consists of students majoring in different fields offered by the college. Charles Berger and John Hildebrand represent the preparatory medicine field; Ralph Wallingford and Patrick Wood, accounting; Jack Reynolds and Allen Holt, business.

W. G. Crane and John Steen, preparatory law; Charles Hudgins and Richard Porter, chemistry; Roy D. Wells and William Young, economics; D. J. Kallus and John

'A Field' Sign Wins

"A" Field Artillery won the \$5 first prize in last week's sign contest sponsored by Eugene Rush, life insurance salesman.

Second prize of \$2.50 was won by Squadron 21, who placed in the money twice before. Squadron 10 is the only other outfit which was placed more than once this year.

'Know One's Self Makes Better Teacher'-Brooks

Knowing one's self is the main step in becoming a better teacher, Dr. T. D. Brooks explained last night to the faculty of the School of Arts and Sciences.

Speaking on "How We Can Improve Our Teaching," the dean-emeritus of the Graduate School told the more than 200 teachers present that "reaching an understanding of what we should do" is a major step toward better teaching.

"Improve our techniques by improving our lectures," Brooks explained. "Formal or

brief comments, the lecture constitutes a major instrument in teaching. We can improve our lectures by organizing materials in large and definite units.

"This will let us do a better job of our assignments and places responsibility on the student for keeping up with the activity," he added.

An idea of progress is necessary to the student, Brooks said. Students should be taught to think through to a conclusion. "The process for arriving at a concept is more important than the conclusion," he pointed out.

Explaining students differed from teachers in a sense that each looks at material with a different slant, Brooks demanded that instructors remain patient in trying to get the pupil on his side of thought.

Being Funny Hurts

"We also can improve our lectures by quitting the idea of trying to be funny. Do what comes naturally," Brooks said. If we try to make students laugh constantly, we cannot expect them to hold our lessons in respect, he added.

"Sometimes we go stale. When we lose enthusiasm, the students do not gain any from us. We have none to give. To fight going stale," Brooks continued, "think back to why you decided to make this your life work and returning to it you will rid yourself of this staleness."

Quoting from the famed educator A. S. Bar of the University of Michigan, the dean-emeritus showed a teacher must fulfill four rolls. Brooks said:

• The teacher must remain a citizen. We must face greater and social responsibilities. Citizenship will improve teaching. An ivory tower teacher is a misfit today.

• We must work as a team. There should be no washroom criticism" of the school's policies, or of our colleagues.

• We must have the friendship of the students. It must be based on respect of personality. It is highly desirable to be as scholarly as possible, but we should not crowd out our eagerness to serve our students. Students are not in classrooms because of us; we are

None Badly Hurt When Car Flips Foreigners Think Highly Of Residents

No one was injured last night in a wreck in which the car of Michael Archer of Houston was involved. Archer, a D Battery freshman, overturned his car on a road off Old Highway 6, south of the campus, according to Fred Hickman, chief of campus security.

Three freshmen and two upperclassmen were passengers in the car besides Archer.

Foreigners Think Highly Of Residents

"My people don't know the type of people that live here or what their home life is like. This plan for United Nations helps us to learn more about your people."

This was Indian student G. S. Grewal's opinion about the United Nations Week plan being undertaken by the church and civic groups of College Station.

Their plan is to invite A&M's foreign students into College Station homes for dinner and fellowship throughout UN Week, October 18-25.

Grewal, who is enrolled in graduate agronomy, plans to return to his 1,000 acre farm in India when he completes his work at A&M. The farm, which is operated cooperatively by three families, raises wheat, sugar cane, and cotton.

When asked about Texas hospitality, Jean Sequin, a Swiss student majoring in graduate biochemistry, said, "You've got it."

Sequin said that he was amazed at the way the people around College Station are inviting foreign students into their homes even though they don't know them.

"When you come to Texas, you get to know everyone immediately, and even though they don't know you they just invite you in," he said.

Manubhai C. Patel, graduate chemical engineering major from Uganda, British East Africa, said that A&M impressed him as a "fine place." He especially liked the "unity among the students that the school has."

There are 93 foreign students enrolled in A&M, representing 31 foreign countries. Mexico leads the enrollment with 24. Some of the countries represented are Indonesia, Thailand, Syria, Norway, and Turkey.

Honor Fraternity Names Delegates

Three members and the advisor of A&M's Phi Eta Sigma chapter left Wednesday for Phi Eta Sigma's national convention at Purdue University in Lafayette, Ind.

Students making the trip are Jerry Ramsey, president; Jules Vieaux, historian; and George Knipple. John R. Bertrand, dean of the Basic Division and advisor of the group, also went.

The convention is Friday and Saturday. Business meetings, a banquet, a smoker, and a tour of the Purdue Campus are included on the schedule. The delegates are traveling by college car, returning Sunday.

Phi Eta Sigma is a national honor society for freshmen. Requirement for initiation is a grade point ratio of 2.5 or better during the freshman year of college. Members are active during their sophomore year.

Baylor Ticket Sale Extended to Friday

Student tickets and student date tickets for the A&M-Baylor game will continue on sale here until Friday noon.

Baylor University authorized this extended sale of student tickets here, according to Pat Dial, assistant business manager of athletics. Dial pointed out that the supply of tickets was limited and that when the current supply was exhausted, no more tickets would be available.

Pet Show Slated At C. S. High School

Consolidated High School will hold their annual pet show Monday, Oct. 27, Walter S. Manning, chairman, said today.

The program will begin at 6 p. m. in the high school stadium and the grand parade at 7 p. m.

Prizes will be awarded to winners in five major categories. Pure bred dogs and Heinz variety dogs will be judged in four divisions. They are: large, long-haired; large, short-haired; small, long-haired; and small, short-haired. Cats will be judged in one group.

Other pets make up the fourth category, which ranges from birds to horses.

All pets are eligible for the special tricks award.

Truettner Attends Auto Engineers Meet

W. I. Truettner, professor of mechanical engineering, recently attended a meeting of the Gulf Coast Chapter of the Society of Automotive Engineers in Houston.

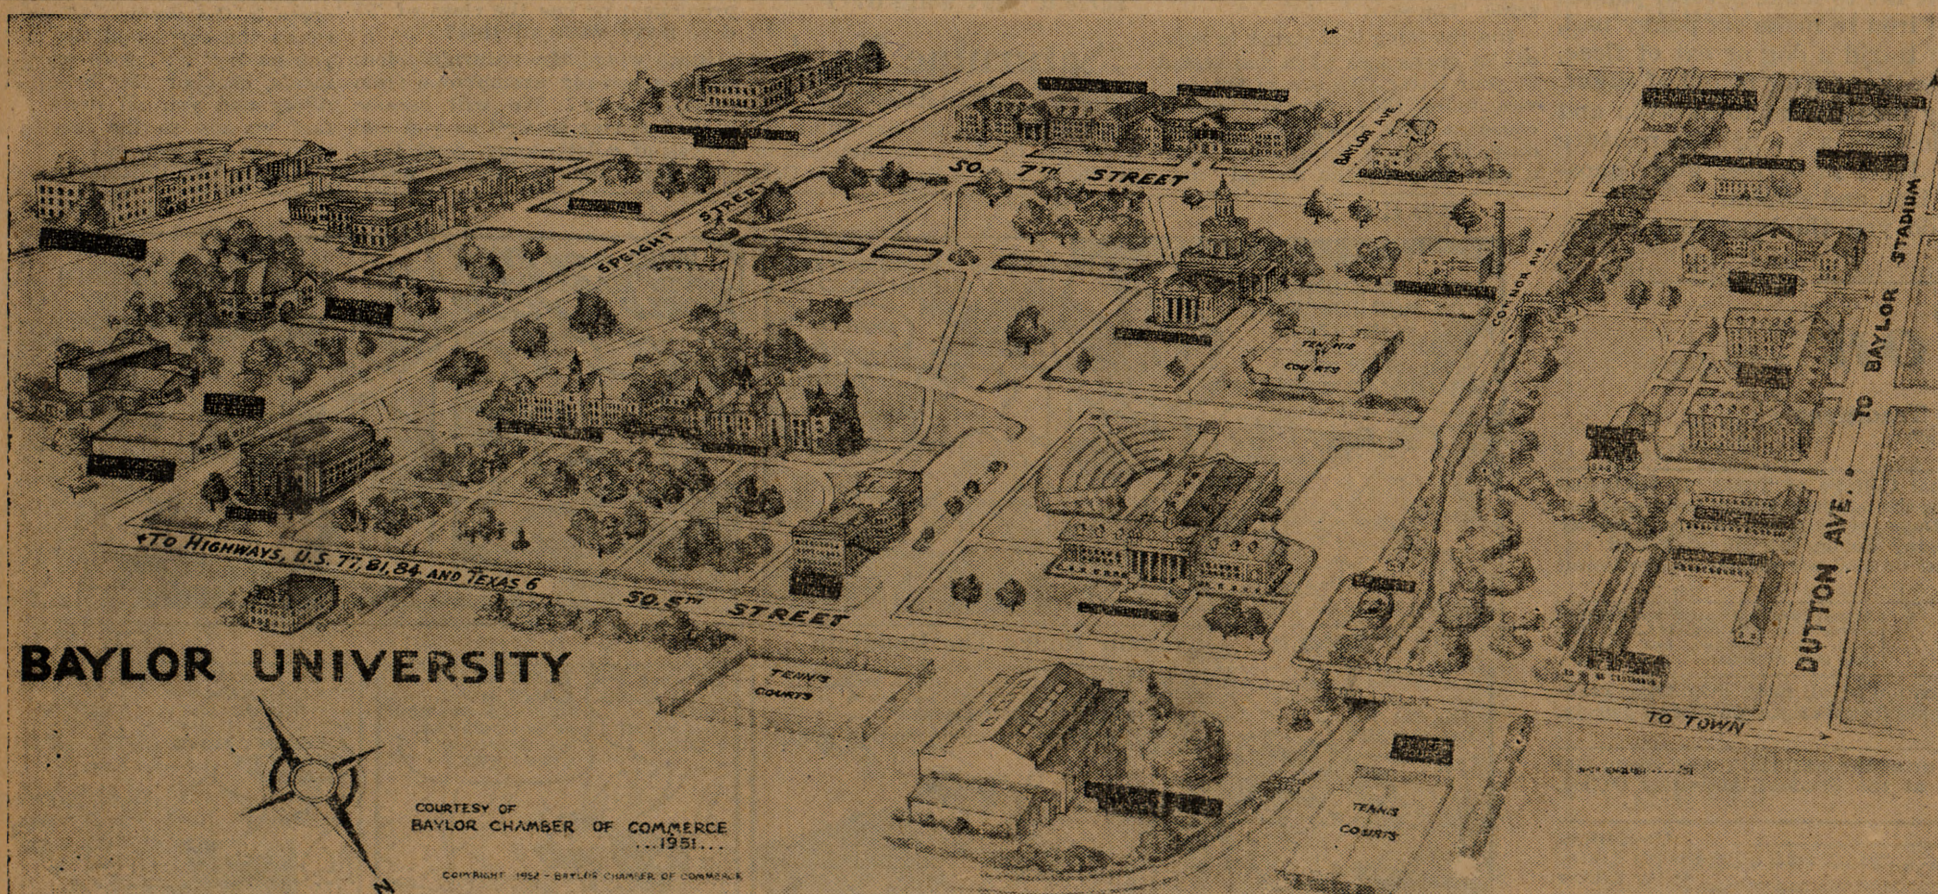

Sid Shannon of Boeing Aircraft Corp. was the main speaker. He spoke on the Boeing Gas Turbine.

Weather Today

CLEAR

WEATHER TODAY: Clear with very light wind. The high yesterday was 73 and the low 45.

Baylor University Campus--Open to Aggies This Weekend

This is a map of the Baylor University Campus, published to familiarize A&M students with the buildings and location of points of interest at the Waco school. More than 2,000 students purchased tickets to the Baylor-A&M game which pits the Aggies against the Bears Saturday. This

map is furnished through the courtesy of the Baylor Chamber of Commerce and printed in accordance with Southwest Conference Sportsmanship Committee recommendations which ask the visiting school to acquaint its students with the host school campus.
