

The Women's Story

McQuillen-Hayes Vows Read Here

Battalion Women's Editor
By PEGGY MADDOX

The Auxiliary to the Student Chapter of the American Veterinarian Medical Association, better known on the campus as the AVMA Auxiliary or the Vet wives, heard Dr. R. D. Turk discuss parasites as he showed slides last night in the MSC. There are 90 wives of veterinary medicine students at Aggieland. The wives of '54 were hostesses at a refreshment hour following Dr. Turk's discussion.

At the Industrial Education Wives Club tea last week the members voted to join the Dames Club for the program meeting each month. However, the I. E. Wives Club will have a program meeting next Tuesday night in the South Solarium of the YMCA. Col. Leslie Moore will give a leathercraft demonstration. Last night the Dames heard a talk on the political situation.

Wedding Bells Are Ringing

Miss Judy McQuillen and Lt. William (Bill) Bell Hayes III, '52, were married in the bride's home Tuesday night. The Rev. Norman Anderson, pastor of the A&M Presbyterian Church, officiated. Judy, the daughter of Mr. and Mrs. Everett E. McQuillen, is a 1951 graduate of Southern Methodist University. She has been employed in the registrar's office since that time. Bill received his degree in August from A&M. He was a chemical engineering major. The couple will live at Ft. Sill, Okla.

Margaret and Don Young, who were married last Friday, are living at 221 1/2 Roberts St. in Bryan. Don is the son of Mr. and Mrs. Don Young and Margaret is the daughter of Mr. and Mrs. W. E. Halbrook of Bryan. The best man and two groomsmen were Aggies or former students. The Rev. Robert Wimpee, a former student, was best man. The groomsmen were Joe Bob Crowley, a senior, and Norman Halbrook, A&M graduate.

Speaking Here

Mrs. Jimmy Jones, who has lived in Hawaii, will tell the Aggies Wives Circle of the First Baptist Church about her native land Tuesday night. She will review the first two chapters of "Scattered Abroad" . . . The Women-of-the-Church of the A&M Presbyterian Church heard Mrs. Jack Miller tell of the history of the Presbyterian Church in Texas. The highlight of her talk was about Daniel Baker, leader and founder of Austin College. After the missionary program Monday night Mrs. R. D. Lewis, Mrs. I. G. Adams and Mrs. Howard Hiddget were hostesses at a refreshment hour . . . Circle I of the A&M Christian Church met in the home of Mrs. J. H. Bass Monday night. The women

Talking There

brought articles for layettes for World Community Day boxes. Mrs. Van R. Davis reviewed "Before The King" from the study book. Mrs. E. B. Middleton spoke on "You Are What You Read" and introduced 12 new religious books. The circles at the A&M Methodist Church heard programs on human rights Monday night. Circle I met in the home of Mrs. A. D. Folweiler. Mrs. Ray Oden presented the devotional and Mrs. Otis Miller gave the lesson. . . The Aggies Wives Circle met with Mrs. Pat Harcastle. Mrs. J. S. Mogford gave the lesson and Mrs. J. E. Woodham the devotional. The Ruth Circle heard a study on Africa by Mrs. Catherine McAfee. The devotional was given by Mrs. Margaret Holdridge.

LEAD VETERINARY WIVES—The young women above have been selected to lead the Junior Chapter of the AVMA Auxiliary for the 1952-53 school year. Pictured here (left to right) after a planning meeting in the MSC are Messdames Hootie Benson, parliamentarian; Ovon Darter, treasurer; Jerry Bell, president-elect; Harold E. Redmond, co-sponsor; Rachel Moore, president; Laura Holt, reporter; Dollie Griffin, vice-president and Katie Graves, secretary. Mrs. A. A. Price (not pictured) is also a co-sponsor.

★ Job Interviews ★

Interviews

● Oct. 21—Dow Chemical Co. of Freeport will interview January graduates only and at all degree levels that majored in chemistry, chemical, mechanical and electrical engineering. This company has 12 plants operating throughout the country and offers an excellent opportunity for advancement in a fast-growing concern.

● Oct. 27—Industrial, electrical and mechanical engineers will be interviewed by Square D Co. on Oct. 27, 28, 29. They need design engineers for development work in Milwaukee and Detroit on distribution and control equipment; production engineers work in Milwaukee and Detroit; application engineers for Headquarters Sales Work in Detroit and Milwaukee and field engineers for assignment to strategically located sales offices throughout the Southwest and remainder of the country.

● Oct. 27—The Cameron Iron Works of Houston will interview January graduates only majoring in mechanical engineering.

● Oct. 27—U. S. General Accounting Offices of Washington, D. C. is interested in accounting majors to work in their Division of Audit. They have 20 regional offices—one being located in Dallas.

● Oct. 28—The Bell Telephone System will have representatives from Bell Laboratories, Western Electric, Sandia Corporation and Southwestern Bell. They are interested in talking with seniors and graduate students in electrical, mechanical, industrial, civil, chemical engineering, business administration and physics.

● Oct. 29—Chemistry, physics and petroleum engineering majors will be interviewed by Carter Oil Co. of Tulsa, Okla.

● Oct. 29—The Texas Employers Insurance Association will interview all engineering majors except agricultural and also interested in talking with industrial education majors. The work will be safety engineering work.

● Oct. 30—Hughes Tool Co. of Houston, a large manufacturer of a large variety of oil well drilling tools, will interview January graduates only majoring in mechanical engineering. The job is for junior engineers with assignment to a practical engineering training program involving on-the-job training in successive phases of product design and manufacture. Permanent assignment of jobs where greatest phases of product design and manufacture. Permanent assignment of jobs where greatest ability and interest lie.

● Oct. 30—The Dallas Power and Light Co. is interested in talking with January and June graduates in mechanical and electrical engineering. The job title is an engineer, student. They are sponsored by the personnel department for purposes of orientation but not permanently assigned to any department. They are transferred from one department to another in order that they learn specific duties in each, thus acquiring an understanding of the interrelation of the several phases of company operation. Later they are reclassified and permanently assigned to the department where mechanical or electrical engineering work best fits apparent capabilities.

● The Sabine Steel and Construction Co. of Port Arthur is interested in hiring engineers to work on a pipe line construction job. These engineers must have some engineering background and must read blue prints, keep time, etc.

● Business administration graduates with majors in accounting that would be interested in traveling seventy-five to eighty-five per cent of their time, should contact the Texas Education Agency of Austin. These jobs involve extensive travel over the state auditing the records of local public and vocational schools. The main office is in Austin but most of the time is spent in traveling.

● The General Motors Corporation, Allison Division, Indianapolis, Ind. have vacancies in the development, design and experimental test sections of their aircraft engine engineering sections. They are developing and producing turbojet and turbo-prop engines for both Air Force and Navy. They are interested in mechanical, aeronautical, industrial and electrical engineers.

Job Calls

● The Sabine Steel and Construction Co. of Port Arthur is

Wives Bridge Club To Meet Thursday

The Aggie Wives Bridge Club will meet Thursday at 7:30 p. m. in the Assembly Room of the MSC. Mrs. Tracy Richmond and Mrs. Ella Frances Spears won the high score prize and second high prize respectively in the regular group last week. High score winner for the intermediates was Mrs. Ellen Crawford. Mrs. Jane Rouse and Mrs. Pat Morley were hostesses to six tables of regular players, three tables of intermediates, 10 tables of beginners and two teachers.

Brooks Speech

(Continued from Page 1)
there because of them. The student is the "end-all," and the motivation of the program.
● We must be a mediator between student and subject matter. Present and organize material in such a fashion it will serve the student and help him find interest and value.

Teacher's Chief Headache

The chief headache of teachers, Brooks said, is "testing and grading." These are administrative duties salient to teaching.
"If teaching was more effective and students zealous to learn, the headache could be omitted. Circumstances force these upon us and disclose to the student what he has not learned and to the teacher what must be retaught."
Brooks pointed out that to acquire good teacher and student relations, the instructor must find a formula to apply equally to all groups. "Nothing can cripple a student more than to think he has been treated unfairly," he added.
For improving ourselves, continued Brooks, we should answer

these four questions:
● "What am I trying to do? Education should look into the future quite more than in the past."
● "What are the marks of an educated man?"
● "Are we putting the instruments to best use?"
● "What are peculiar of the needs of the student I serve?"
"Answer these questions and we can become better teachers," he said.

Dean J. P. Abbott was the chairman. Dr. J. M. Vance of the history department was elected by acclamation as the new secretary to the group. Both Dr. T. F. Mayo of the English department and Dr. Walter L. Porter of the mathematics department were honored with the presentation of a letter from the group complimenting each on his fine work heading his respective department last year. Both Mayo and Porter are on modified service. Dr. J. Q. Hays of the English department read the commendation.

What's Cooking

Thursday
7:30 p. m.—Rio Grande Valley Club, Room 2D, MSC, Emergency meeting.
Brush Country Club, Room 2A, MSC.
