

The Women's Story

# Student's Wives Have Exams Also

By PEGGY MADDOX  
Women's News Editor

Most of the women in College Station in some way are connected with the College. If the boys think that exam week is rough for them, the woman's side should be considered. The wives of the married students have found "this week" the time when the children must be kept quiet, the coffee pot brewing, and the wives enduring long and late hours. The wives have even learned to overlook the cross things said during exam week. After all, it's the degree that counts.

Another group of women in College Station that have hardships to endure now are the professors' wives. Most professors do not enjoy exam week any more than the students. In most cases it is the "little woman" at home that has to listen to the instructor husband use his short, but forceful phrases.

### AVMA Auxiliary

Last week the AVMA Auxiliary heard Mrs. Richard Bass, president of the Women's Auxiliary to the Texas Veterinary Medical Association, and elected new officers. Mrs. Jerry Bell is the new president. The other officers are Mrs. Lo Veta Burger, president-elect; Mrs. Margaret Springer, vice-president; Mrs. Robbie Sims, secretary; Mrs. Frances Duhon, treasurer; Mrs. Joyce Seay, parliamentarian; Mrs. Da Lee Green, reporter.

### Church Women Meet

The College Station Council of Church Women met at the home of the president, Mrs. Dan Davis last week. Officers present were Mrs. Davis, Mrs. David Morgan, first vice president and program chairman; Mrs. T. H. Swygert, treasurer; and Mrs. Armstrong Price, secretary.

Committee chairmen attending were Mrs. W. E. Briles, Christian education; Mrs. Edward Madeley, radio; Mrs. E. G. Smith, state projects; Mrs. Clarence Ketch, welfare; Mrs. G. B. Workman, fellowship; and Mrs. Gordon Gay, spiritual life. Other chairmen not present were Mrs. Philip Murdoch, inter-racial; Mrs. C. C. Hedges, reporter; and Mrs. E. E. Vesey, historian.

### Past President

Mrs. D. L. Belcher, immediate past-president, outlined the national requirements of three special days, World Day of Prayer to be held on Feb. 20, May Fellowship Luncheon and World Community Day to be held in November.

State projects cover migrant workers, the leprosiarium in Louisiana, displaced persons and foreign students. Mrs. D. W. Williams is the chairman of the latter project. Local interest in the past year also included the supplying of Christmas baskets to all of the families on the county welfare list, Welcome Strangers Tea and cooperation with other organizations.

Member churches in the Council are the A&M Presbyterian Church, St. Thomas Episcopal Chapel, Our Saviour's Lutheran Church, A&M Christian Church and A&M Methodist Church.

### New Fathers

Two students in the school of Veterinary medicine became fathers Saturday. Mr. and Mrs. John Graydon Goodman of C-11-Y are the parents of an eight pound-eight ounce boy. He has been named John Graydon, Jr. Mr. and Mrs. C. L. Odom are the parents of a

girl. She has been named Rebecca.

On Saturday evening in the home of her parents, Mr. and Mrs. J. R. Saxon, Miss Patty Ruth Saxon became the bride of Elmer Cox. The groom is a graduate of A&M.

### Mrs. Melchior

Mrs. Lauritz Melchior, wife of the famous tenor who starred in "The Lauritz Melchior Show" Sunday afternoon in Guion Hall, might well consider her height, just five feet two inches, her greatest fashion asset. Everything about Mrs. Melchior, her hair (medium blonde) and her coloring, accentuate her fragile appearance and she makes the most of it.

Called "Kleinchen" by her famous husband—in Danish, Kleinchen means "little one"—Mrs. Melchior consistently follows one sound fashion rule: "Never copy any one else's style!" Particularly conscious of her tiny figure—Melchior measures 6 feet 3 1/2—Mrs. Melchior selects her clothes with originality. Her skill is attested by the fact that each season she is selected on more best dressed lists than any other woman in America!

### Mother's Club

Mrs. A. C. Magee, Mrs. O. B. Briggs and mothers of the junior students will assist Mrs. Ide P. Trotter as hostesses to the Brazos County A&M Mothers' Club at the Trotter residence at 1 p.m. Thursday.

All members are invited to attend and bring a covered dish. Bread and drinks will be provided by the hostesses.

# Job Interviews

Mechanical engineers with bachelor or master's degree are needed by the Power Generators, Ltd. of Trenton, New Jersey. Work is in the field of mechanical design and development. This organization provides an excellent opportunity for graduates to work in the field of gas and steam turbines, centrifugal and reciprocating pumps, Diesel engine Super-changes, etc. Their principal facilities are located on the outskirts of Trenton and only 30 minutes from Philadelphia.

The Waterways Experiment Station, Corps of Engineers, of Vicksburg, Mississippi, is in need of civil engineers for vacancies in their Hydraulics Division and in the Flexible Pavement Branch of their Soils Division. Duties are: Under immediate direction of supervisor, conducts hydraulic model investigations for solution of problems of various types—flood control and navigation works, etc. Appointments to these positions are under the Federal Civil Service Regulations.

The Texas Company of Dallas, Texas, is in need of a man with a mechanical or electrical engineering degree, to put in training for a sales position. After six months training course, employee would be assigned as an Industrial Salesman in a city calling on prospects and customers. They also need an employee with a degree in civil or architectural engineering. This man would be used as a Construction Engineer in their Division overseeing construction of service stations, wholesale plants, etc.

Chemical, mechanical and electrical engineers are needed by Aluminum Company of America for work in their production Department. They require men not only well qualified academically with a strong background in lab and shop practice, but who also have exhibited marked campus

leadership and who have considerable management potential.

Eastman Kodak Company of Rochester, New York has openings for mechanical and industrial engineers with bachelor or master's degrees. The Hawk-Eye Works can use mechanical engineers and the work consists of tool designing and the controlling of the sequence and techniques of manufacturing. They need industrial engineers for their Industrial Engineering Division of Kodak Park where films, papers and other photographic materials are manufactured from a variety of raw materials.

Bailey Meter Company of Cleveland, Ohio, is interested in students who are interested in a career in industrial advertising. They prefer someone with background experience as a writer on school publications, college courses in English grammar and composition, etc. Chemical, mechanical, electrical and industrial engineering, industrial education, journalism and business administration students may qualify. There is a nine month training course after which employee will be involved in the sale of Bailey Meters and Controls to the world's industries.

The Ryan Aeronautical Com-

pany of San Diego, California has openings for engineering and accounting graduates. Their diversified manufacturing program includes production of highspeed pilotless jet airplanes, rocket motors, jet engine afterburners and other major airframe and engine components.

Electrical engineering graduates, bachelor's or master degrees, are needed by the University of Tennessee. They have two openings for electrical engineers with a bachelor's degree for work in the field of radiation and propagation, both theoretical work and work in the field. They must be interested in taking graduate work in electrical engineering.

The Continental Can Company, Inc. has trainee openings for mechanical and industrial engineers in their Production Dept.; mechanical engineers in their Equipment Development Dept.; and chemical and mechanical engineers in their Research Department. These openings are all in middle west.

All majors may qualify for the vacancy with the Gulf, Colorado & Santa Fe Company. They need someone to operate their chemical weed spray train that covers the whole Santa Fe System.

# CHS Students Receive Vision-Testing Program

"Parents should know about their children's vision," said Dr. Walter Alvarez, of the Mayo Clinic, writing recently in The Houston Post. "Fortunately, in some communities, parents are volunteer workers in the vision-testing program and are giving tele-binecular tests to each child," he said.

The Mothers and Dads Club of College Station is now in its second year of a health program which offers such a service.

### Group Chairman

The Vision group, headed by Mrs. Joe C. Davis, has trained some twenty workers this year and has completed the screening tests through the elementary grades 2 to 5, junior high, and senior high school.

### March of Dimes Holds Benefit Dance Saturday

A benefit dance for the March of Dimes campaign will be held at the Finfeather Club in Bryan, Saturday from 9 p. m.-1 a. m., said Jack Lester.

Guests and members are invited, he said.

The committee is now working at the Lincoln school. First graders will be checked in February.

Last year 783 pupils in the Consolidated school received vision tests and 325 in the Lincoln school. This year's follow-up program tested 223 new students and gave 33 re-checks for those having some visual difficulty.

### Tests Checked

All difficult tests are confirmed by two more tests and then parents are advised about the pupil's test record and an effort is made to correct the condition.

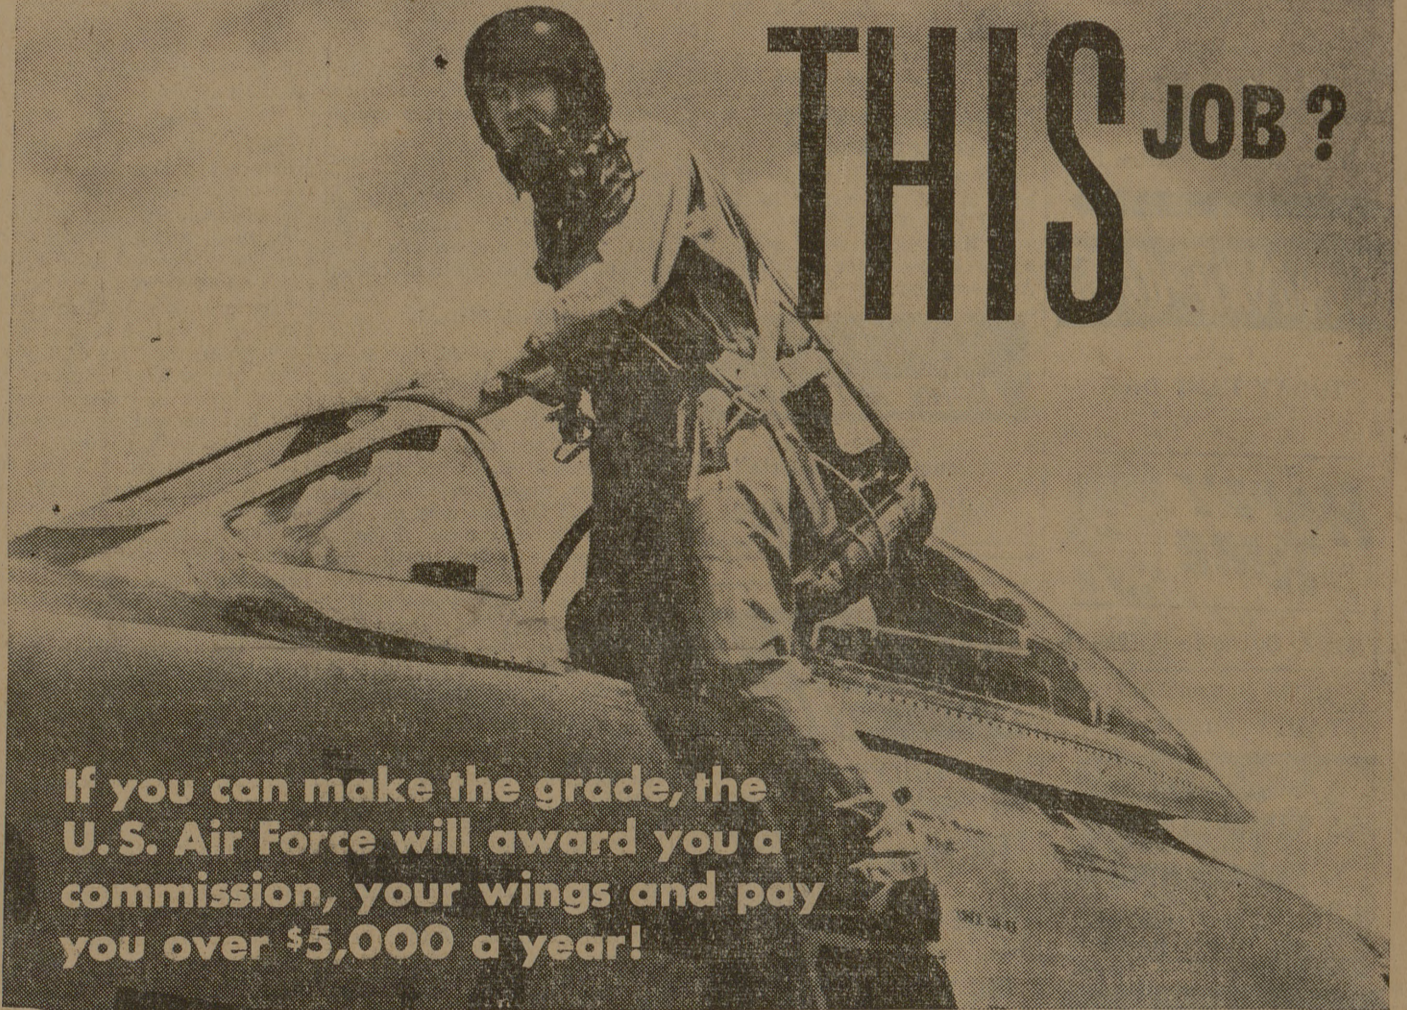

Because of the cost involved in mailing reports to each parent, it is not possible to report on each child unless some deviation is found.

Members of the Vision group include Mesdames W. G. Brezeale, R. L. Elkins, Jack Lewis, U. D. Thompson, Ray Gorge, N. Burkhalter, Harrison Heirth, Eugene Rush, B. B. Hamner, C. G. White, Walter Varel, Fred Farrar, Henderson Shuffler, Mike Krenitsky.

Dr. A. J. Kingston of the Basic Division of the college serves as consultant in the vision-testing program.

## ARE YOU TOUGH ENOUGH FOR

# THIS JOB?

If you can make the grade, the U. S. Air Force will award you a commission, your wings and pay you over \$5,000 a year!

CAN YOU "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can—then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the beginning—

your opportunities for advancement are unlimited.

### ARE YOU ELIGIBLE?

To qualify as an Aviation Cadet, you must have completed at least two years of college. This is a minimum requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26 1/2 years, unmarried, and in good physical condition.

### YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER

If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

## New Aviation Cadet Training Classes Begin Every Few Weeks!

### HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination.
3. Next, you will be given a written and manual aptitude test.
4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

Where to get more details: Visit your nearest Air Force Base or Air Force Recruiting Officer. OR WRITE TO: AVIATION CADET HEADQUARTERS, U. S. AIR FORCE, WASHINGTON 25, D. C.

### SPECIAL NOTICE

**STUDENTS (and other Aggies):**  
A school-wide bowling tournament will be held in the Memorial Student Center Bowling Alley beginning the first week of the spring semester. Get ready for it. Tell your friends about it. Read the sports page of The Battalion published next semester for complete details.

### Official Notice

**Probation Students**  
All students who are on scholastic probation for the fall semester, 1952, and all students passing less than 12 hours or making less than 12 grade points at the end of the fall semester must secure approval of their respective deans to register for the spring semester 1953. The several deans or their representatives will interview such students in their offices on Friday, Jan. 30, 1953.
