

# George Presents Talk To Beaumont Club

A belief that the limited substitution rule would help the A&M football team next year was expressed by Head Coach Ray George at the annual schoolboy football recognition banquet in Beaumont recently before more than 500 members of the Beaumont A&M club.

"The rule came as a surprise to me as it did a majority of the coaches," George said.

"It will create new problems from the coaching standpoint, and we will just have to start making players both offensive and defensive in caliber."

**'Need More Time'**

"It's going to be a big job and we will probably need more spring training time, at least initially, to change our old squadmen to double duty."

The quiet-spoken George, a former Southern California All-American, congratulated the players of the four all-district teams present and their coaches and in-

Jarrin' John Kimbrough, great Aggie All-American fullback of 1940, now a Haskell, Texas farmer and rancher, was the colorful figure at the affair. Not only did he see many of his classmates of a decade ago, but he was sought by one delegation after another of the schoolboy all-district groups to meet and shake hands.

**Kimbrough Speaks**

Kimbrough addressed the group briefly, but directed his remarks principally to the high school football players who were the honorees of the occasion.

"A college education is growing in importance and today is more important than when I finished school," Kimbrough said.

"There is only time to complete your education and that is when you are young. And during your days of schooling, your education is the most important thing while in school."

"There will be 7000 more individuals having breakfast for the first time today. That adds up to 49,000 persons being added to the population each week. There is just so much land and from that, there must be increased yield."

"It will be the challenge to you, as it is to me, to acquire knowledge that makes this increased yield possible and to leave that heritage of accomplishment to our children," he said.

**Presents Certificates**

John Newton called the district players to the rostrum where Coach George presented the certificates of membership on the A&M dream teams. All-district elevens were honored from Districts 8-4A, 6-3A, 28-AA and Catholic District 1.

Also five old time Aggies were

## A&M Tankmen Swim Feb. 6

Coach Art Adamson's swimmers engage Florida State in a dual meet at the P. L. Downs, Jr., natatorium here Feb. 6.

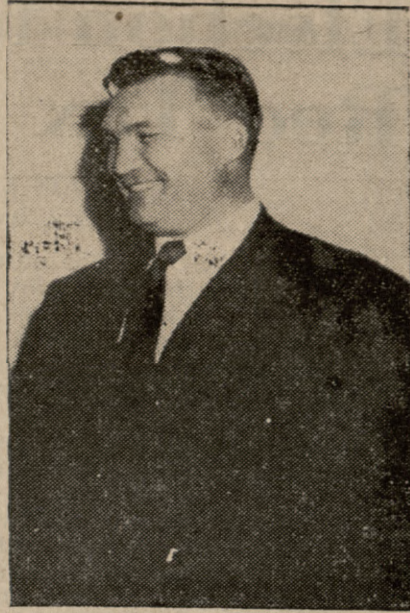

In addition the tankmen have six other events during February.

Feb. 13—Oklahoma University here.

Feb. 21—Rice here. (Also frosh)

Feb. 24—Texas at Austin. (Also frosh)

Feb. 27—Northwestern State of Louisiana here.

Coach George Loses half platoon

## Last of Strike Workers Return to Atomic Plant

OAK RIDGE, Tenn.—(AP)—The last of the striking construction workers at the huge atomic plant were ordered by their union to report back to their jobs today.

## CHS Announces 1953 Grid Schedule

The A&M Consolidated High School Tiger football schedule for 1953 has been completed. The Tigers will play in District 25-A next fall.

The schedule is as follows:

Sept. 11—Bremont—Here  
Sept. 18—Madisonville—There

Sept. 25—Navasota—There  
Oct. 2—Hempstead—There

Oct. 9—Cypress—Fairbanks—Here  
Oct. 16—Waller—Here  
Oct. 23—Katy—There  
Oct. 30—Sealy—There

Nov. 6—Open  
Nov. 13—Bellville—There  
Nov. 20—Tomball—Here

## Houston Group Inquires About Cardinal Purchase

NEW YORK, Jan. 29—(AP)—A Houston group has made inquiries about buying the St. Louis Cardinals, it was learned tonight from a high baseball authority. The source declined to give names.

**Talk Deal**

The Texas group was understood to have asked whether it should try to negotiate a deal directly

## Aggie Fish Meet Wharton Feb. 3

The Aggie Fish, losers of six straight frosh cage games this year, journey to Wharton Tuesday (Feb. 3) for a game with Wharton Junior College.

Coach Larry Hayes takes his frosh to Wharton the same night the varsity entertains Southern Methodist in a Southwest conference game at DeWare fieldhouse here.

No action is on tap this week. It's the layoff between semesters at A&M.

with Fred Saigh, Cardinal owner, or talk business with the National League. Saigh was sentenced to 15 months in prison and fined \$15,000 today for federal tax evasion. With May 4 set as a deadline for Saigh to clear up his personal affairs, and Saigh already on record as saying, "I will have to dispose of the Cardinals," there is not too much time to spare.

The source said it would be practically impossible to move the franchise in 1953, if the club were sold to an outside group.

**No Application**

In Cincinnati, President Warren Giles of the National League said he had received no application from Saigh for a transfer of ownership of the Cardinals.

Saigh and the late Robert Hannegan, former postmaster general, bought the cards in 1947 from Sam Breadon for \$4,060,800 without using a cent of their own money, according to a statement by Saigh July 6. He said their only cash outlay, \$60,800, was borrowed from a St. Louis bank.

Spring Training

visited them to visit the Aggie training sessions at College Station which start the last week in February and continue into March.

He gave a rundown of the probable team the Aggies would have next season, stating that the backs would be good runners and the line would be fast.

**Face Tough Schedule**

George pointed out the stiff schedule the Aggies were to face and declared that their club would be young and aggressive and would play their best.

Charley Babcock, master of ceremonies, followed Coach George's remarks with the statement that A&M had played the last season with only a platoon and a half and would lose only a half a platoon by the new ruling against the two-platoon system.

W. C. SCHOOLFIELD, A. E., Massachusetts Institute of Technology, Chief of Aerodynamics Section, Chance Vought Aircraft, will interview graduates of the class of '53 in the Placement Office, FEBRUARY 12 and 13. Mr. Schoolfield is looking forward to the opportunity of discussing with you...

# Your Future as a Chance Vought...

# engineer

Chance Vought Aircraft, a designer and builder of military aircraft for 35 years, offers the graduating engineer and scientist an opportunity to join in the design and manufacture of fighter aircraft and guided missiles.

The design of fighter aircraft is constantly being improved as new materials and more powerful engines become available. Guided missile design is in the pioneering stage and progress up to this point, in our opinion, can be compared to the period of development of piloted aircraft prior to World War I. Imaginative thinking as well as sound engineering is an important part of these programs. The young engineer through his creative thinking can rapidly assume a position of engineering responsibility in the Chance Vought organization.

Almost every type of academic specialization can be utilized in some phase of the design, development and test of a jet fighter or guided missile. Technical assignments are available in the design and analysis of specialized electronic components, structural and hydraulic testing, structural and mechanical design, applied aerodynamics, power plant analysis and testing, stress and vibration analysis and flight testing.

If you are receiving a degree in Aeronautical Engineering, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mathematics or Physics, Chance Vought invites you to discuss your future in these fighter aircraft and guided missile programs. Contact your Placement Director for an appointment with the Chance Vought Aircraft representative.
