

Ag Bombardment Blasts SMU 51-43

The battling Texas Aggies rode the SMU Mustangs to a 51-43 win last night at DeWare Field House in an amazing exhibition of individual scoring.

Roy Martin, sparkling Aggie 6-8½ soph center, put up a stirring one man struggle against the Mustang five while his teammates were cold as a puppy's nose. He rang up the first 17 points scored by the Aggie quintet.

Ponies Get Lead

The Ponies took a brief lead in the first quarter, scoring four points while Martin sank one from the field, followed by a gratis toss, to give the Aggies their first three points.

Sinking two quick baskets while Martin managed for another single marker, the Mustangs then watched as he netted three fast baskets and a free toss to bring the first quarter to an exciting end with the Aggies on top, 11-9, with every Aggie point opposite Martin's name in the scorebooks.

Aggies Miss Basket

During the first quarter, Rodney Pirtle, Leroy Miksch, Bob Johnson, and Don Moon couldn't coax the ball through the goal from any distance, missing long, short, and free shots with remarkable consistency.

Martin continued his hot pace into the second quarter, scoring the next six Aggie points as the Ponies were netting four to give him a personal 17-13 lead.

Others Finally Score

With the timeclock showing three minutes and 21 seconds left in the second quarter, Miksch was fouled, stepped up to the line and sank two free throws to break the scoring ice for the other Aggie basketballers. Martin then plunked in another free toss and the first half ended with the Aggies leading 20-16, and Martin had personally accounted for 18 of them.

As the game started for the second half, a quick basket by Pirtle, closely followed by a two-pointer by Johnson, indicated that the Aggies were out to spread the scoring out a little more evenly.

Martin Sinks Another

As five minutes and 18 seconds remained in the third quarter, Martin sank still another hook shot from directly out in front of the basket to give him 20 points, and extend the Aggie lead to 26-21.

Talent Show Starts Tuesday in MSC

The MSC music committee is sponsoring the Aggie Talent Show Tuesday, Feb. 10 at 8 p. m. in the MSC Assembly Room. The best of Aggie talent will be shown to an audience of students and later to one composed of local women's and service club representatives.

Fifteen acts have been scheduled so far. They include popular, semi-classical, and hillbilly singers, hillbilly combos, barbershop quartets and instrumentalists, said Barton Raynaud, chairman of the music committee.

Admission to the program will be free, said Raynaud. Two acts will be chosen to represent A&M in the annual intercollegiate talent show scheduled here Mar. 20.

At that time, seven southwestern schools and A&M will compete for prizes, said Raynaud. North Texas State, University of Houston, SMU, Baylor, TSCW, TCU, UT, and A&M have tentatively been set as competitors in the contest.

Weather Today

CLEAR

WEATHER TODAY: Clear. The minimum this morning was 46 and the high yesterday was 76.

game for Martin and immediately hooked one in, and the Aggie lead at this point was narrowed to three points by a sudden Mustang scoring spree which left the Aggies nursing a 28-25 margin.

The Ponies never drew that close again, as Johnson swished one in from the corner, and Miksch tipped in another from in front, and followed it with still another as the third quarter ended with the Farmers out in front 34-28.

Aggies Widen Lead

The final period was hardly started when Pirtle shook the netting for two points, Miksch sank a free one and then tapped in a two pointer to give the Aggies a 38-30 spread.

Martin came back into the game to sink a free toss, shortly followed by his final two-pointer to give the Ags their greatest margin of the evening, 41-30, and left the game in short order by way of his fifth personal foul. He was given a tremendous ovation by the crowd as he trotted off the court.

The Aggies began to play a stalling game, waiting for opportunities (See BASKETBALL GAME, pp. 4)

AF Has Cure For Sore Arms

Air Force ROTC juniors who are scheduled to take vaccination shots Thursday, Feb. 12, needn't worry about how to relax their punctured arms.

"Cadets who have taken vaccination shots will not be excused from drill Thursday afternoon," said Maj. M. B. Seale, AFROTC instructor.

"Any doctor will tell you that a person who has been vaccinated should exercise his arm so the serum will be spread throughout his body," Seale commented.

Wilson, Kahn Join Oceanography Staff

The oceanography department recently added two new members to its staff.

Basil W. Wilson, a specialist in ocean wave research from Johannesburg, Union of South Africa has joined Research Project 38.

Archie M. Kahan, meteorologist and formerly director of technical operations for the American Institute of Aerological Research, at Denver, Colorado, was added as assistant oceanographer for Research Project 29.

Business Leaders To Speak Here Today

A series of speeches by men prominent in the field of large company personnel work will be held in the MSC Ballroom at 7:30 p. m., Wednesday, Feb. 11. The program is sponsored jointly by the MSC Council and Directorate and the College Placement Office.

Purpose of the meet is to enable graduates to better assume positions in the field of business. Juniors and seniors are particularly asked to be present but everyone is invited, said Carroll Phillips, in charge of the program.

Joseph B. Collerain, senior placement counselor for Humble Oil and Refining Co. in Houston will speak on "Desirable Information to be Developed in the Interview."

Dr. J. A. Shanks, of the personnel division at E. I. Du Pont de Nemours Co. in Wilmington, Del., will tell how technical graduates can obtain positions with the company.

Rev. Darwall Talks To Kiwanis Club

The Rev. Robert L. Darwall, rector of St. Thomas Episcopal Chapel, spoke to the Kiwanis Club yesterday on "The Church and the College Campus."

He said the main purpose of a college church was "to help the student cope with emphasis on training for earning a living, and to provide a home away from home."

Next week's program will feature a talk by Captain Rox of the Netherlands Air Force, a Bryan AFB Liaison officer,

NEW DIRECTOR—Appointed as director of the A&M System Tuesday is Harold Dunn of Houston who is also vice-president of the Former Students Association. He is president of the Shamrock Oil and Gas Corporation of Amarillo.

Semester Student Loans Top \$32,000

The Student Labor and Loan Office made 2065 loans last semester totaling \$32,016.24, said George Long, manager.

The loans were made from five funds which are under the operation of Long's office. They are the Ernestine Gaber Loan Fund, Davis Buck Loan Fund, Allsup and Ramsey Loan Fund, College Loan Fund, and the Lucy Jane Breazeale Loan Fund.

Gaber Fund

Loans from the Gaber Fund totaled 686 and amounted to \$11,457.11. The College Fund supplied \$10,533.38 for 620 loans. Loans from the Davis Fund amounted to \$4,290.40. There were 330 loans made from this fund.

The Breazeale Fund provided \$5,281.10 for 363 loans. Loans from the Allsup and Ramsey totaled 66. They amounted to \$434.25.

The Ernestine Gaber Loan Fund was started by the Hillel Found-

ation and was turned over to the college in 1944 by Mrs. J. J. Taubenhau of the foundation. The Davis Fund began in 1943. It was started by W. K. Davis '16 with a five dollar donation. This fund now totals \$904.04.

The Breazeale Fund was started by W. G. Breazeale in 1935 in memory of his mother. The fund began with \$403.92 and now totals \$1,099.07. Keith E. Allsup '50 and Patrick Ramsey '48 started the loan fund which bears their names. Each contributed \$30 to the fund which now holds \$100.96. The College Fund began in 1950 with \$2500 borrowed from various loan funds of the Fiscal Office. It now contains \$2,873.86.

These funds are increased by unit donations from coke machine profits, individual contributions, and auctions of articles collected by the lost and found department.

Long said he has little trouble with students not paying their debts. He said the Loan Office seldom loses money. Loans are made on a "no questions asked basis" and no interest is charged. The maximum amount a student can borrow at one time is \$50. Long asks students to repay it within 30 days.

Hipp, Roper Named Editors of BSU Paper

Paul Roper and Joe Hipp have been named co-editors of The Link, Baptist Student paper, Cliff Harris, BSU secretary, said.

Roper is a junior BA major from Dallas. Hipp is a journalism major.

Brings New Ideas, New Text

Stapp Says, 'Glad to be Back'

By FRANK HINES
Battalion News Staff

With a new textbook to show for his seven months of temporary duty at the Air University, Lt. Col. C. R. Stapp is once again back at his job as head of Sophomore Air Science.

"Sure glad to be back," he said. "I didn't know that I would miss this place so much until I had been away for awhile." When asked what it was that made him so glad to be back, he replied that it was the friendly atmosphere of the place, plus seeing all his old friends and associates again.

A&M to Use Book

The new text is entitled "Leadership Training Guide," and will replace the present Leadership, Drill, and exercise of command manual now in use by the ROTC. Going into effect this fall, the

book presents an entirely new concept of teaching leadership in the ROTC. The text puts into effect Col. Stapp's theory that a student can learn to lead only through actual practice of leading.

A native Texan, Col. Stapp was born near Georgetown, and graduated from Southwest Texas State Teachers College in 1939 with a major in mathematics.

First Teaching Job

His first teaching job came soon after graduating from college when he became an instructor at the Texas State School for the Blind at Austin, Texas. Soon after WWII began, he was drafted into the service of Uncle Sam.

After completing Aviation Cadet School, he was sent to the Middle East, where he flew 300 combat missions, and in 1943 was returned to the states. The period 1943-48 Col. Stapp

Doherty, Dunn, Finney Named A&M Directors

By JOEL AUSTIN
Battalion Co-Editor

Three new members were appointed to the A&M System Board of Directors Tuesday by Gov. Allan Shivers. Filling the three expired terms are W. T. (Doc) Doherty of Houston, Harold Dunn of Amarillo, and R. H. (Jack) Finney, Jr. of Greenville.

All three men expressed an eagerness to tackle the new assignment which places them in the directorship of all colleges and divisions of the A&M System.

Final approval of the directors must be made by the Senate before appointments become in effect.

The new board members are all former students of A&M.

Doherty, who graduated in 1922 in chemical engineering, is president of the Mound Company and vice-president of the Fidelity Oil and Royalty Company. He is noted as a prominent oilman in the Houston area.

Finney, who heads a bread firm operating throughout the north Texas area, graduated already established as a part of the college's family. Harold Dunn is vice-president of the Former Students Association. He graduated with a degree in mechanical engineering in 1925 and received a professional degree in that field in 1937.

City Council OKs Recreation Board

In a special meeting last Friday, the College Station City Council passed an ordinance creating a City Recreation Board, rescinding their original action to have a referendum vote on a tax levy for recreational purposes.

The five man Recreation Board will submit a budget to the City Council each year. Funds will be allocated from city funds on terms of the total budget.

"No tax of any kind will be levied for recreation," said Mayor Ernest Langford.

The five man board is to be appointed by the mayor, with the approval of the City Council. Duties of the board, as specified in the ordinance, are to "operate parks, playgrounds, and other city

recreation program for all residents of the city, especially young people."

Langford said the board would probably be appointed at the next meeting of the City Council, Tuesday, Feb. 24. The present Recreation Council will be asked to suggest people to be members of the board.

"We saw no point in having an election about the recreation board," Langford said. "The City Council is empowered by the charter to create and maintain a recreational program."

Passed Unanimously

The ordinance was passed unanimously.

In order to create as much interest in recreation as possible, the Recreation Board was authorized to create a Recreation Advisory Board. This board may have any number of people.

"The Recreation Council as such will continue to exist," said Donald D. Burchard, chairman. "This Board will probably be a part of the Council."

Burchard estimated that by 1954 the recreation program would cost \$5,000 dollars, with half to come from the city. The rest would come from donations and fees.

"This is an estimate for full operation," Burchard said. "It is based on previous experience."

This year the Recreation Council got \$600 from the city.

Members of the City Recreation Board, which will have status equal to the city's other boards, will receive no compensation. They must be qualified voters of the city. City Manager Ran Boswell will be an ex officio member.

Members of the board are to be appointed in April for three year terms. Of the original appointees, one will be chosen for a one year term, two for a two year term, and two for a three year term.

The Board will hold regular monthly meetings. A chairman, vice-chairman, and secretary will be elected.

Tech Outjudges A&M

A&M finished sixth behind Texens Tech in the intercollegiate meat judging contest yesterday at the Southwestern Exposition in Ft. Worth. Oklahoma A&M finished first.

in 1938 in agricultural administration.

"I hardly know what to say about my appointment," said Finney when asked for comment. "I am looking forward to serving with great pleasure and hope I can do a good job." He indicated there are three loves near to his heart—his family, church, and A&M.

Dunn plans a visit to the campus Feb. 10 to discuss his new job with certain college officials. He also hopes to hold a meeting of the Former Student's Association Chapel Committee, of which he is chairman.

"A Pleasure to Serve"

"I hope to be able to be of maximum service to the college and its vast system through this connection," said Dunn who serves as president of the Shamrock Oil and Gas Corporation in business life. "I am sure I will get much pleasure and satisfaction from working with the board of directors."

A classmate of President M. T. Harrington, Doherty has served as a member of the executive board of the Former Students Association.

"Maintained Contact"

"I accepted this job with humble pride and will do my best to be a good director," said Doherty. "I have tried to maintain contact with the college through the years since graduating in 1922 and will already be familiar with some of the problems facing the board of directors," he added.

While a student Doherty was a member of the Ross Volunteers and lettered in baseball for two years. Finney was a member of D Troop Cavalry while a student and Dunn was in Company E Infantry.

The men will fill the expired terms of C. C. Krueger of San Antonio, Tyree Bell of Dallas, and Rufus Peebles of Tehuacana.

AF Vaccination Schedule Released

Schedules for Air Force vaccinations were released yesterday by Capt. J. N. Hoffman, AFROTC Adjutant.

Vaccinations will be given on the following dates: Feb. 12, typhoid and tetanus; Feb. 19, typhoid and small pox; Feb. 26, typhoid and read smallpox; Mar. 5, second tetanus.

Students receiving vaccinations will be scheduled by options as follows: 1:10 p. m. administration and logistics; 1:30 p. m. flight operations; 1:50 p. m., air installation; 2:05 p. m., armament; 3:20 p. m. communications; and 3:25 p. m. maintenance.

Capt. Hoffman emphasized that students should report to the hospital at the proper time.

"Anyone who has had a smallpox vaccination or the typhoid and tetanus series within the last six months, should bring their record with them when they report," said Col. J. B. Way, PAS&T.

Dance Classes Filled for Spring

Beginning and intermediate dancing classes are filled to overflowing, said Miss Betty Bolander, MSC program consultant yesterday.

There is room in the Latin American classes, exhibition and square dance classes, she said. The exhibition class will concentrate on dance routines for use in shows, Miss Bolander explained.

Sponsored by the dance committee of the Center, the classes cost those enrolled \$2.50 for ten consecutive lessons spread over ten weeks.
