

MSC Plans Housing For Art Students

Guest rooms are being reserved in the MSC for out-of-town artists wishing to attend the Xavier Gonzales School of Painting to be held in the student center Feb. 16-28.

Sponsored by the MSC Art Gallery Committee, the school will be open for a limited number of beginners in addition to advanced painters.

Gonzales is widely known as a painter and teacher. Born in Almeria, Spain, he taught art at Tulane University in New Orleans and the Brooklyn Museum Art School after coming to this country. Maintaining a permanent studio in New York City, he has also taught at a summer Art School at Wellfleet, Cape Cod, Mass.

Won Awards

In addition to his teaching background, Gonzales has won several awards of national importance for his paintings. He holds the Inter-

national Mural Competition award, the Los Angeles Arts and Sciences Award, and two Pepsi-Cola awards for the painting of the year.

He won the John Singer Sargent Award in Boston in water color and the Dawson Medal at the Philadelphia International Water Color Show in 1946. After winning the Guggenheim Fellowship in 1947, he won mention in the Carnegie Exhibition and won the Dana Medal in the Philadelphia show in 1948. His most recent honor was the award of the American Institute of Arts and Letters of 1951.

No Questions Asked

The two week's course will cost \$80 for painters and \$40 for non-painters who will be allowed to attend the lectures. Non-painters will not be permitted to ask questions or disrupt classes in any way, said Mrs. Emalita Newton Terry, Art Gallery committee advisor. They will attend classes for art appreciation only, she said.

Persons interested in taking the course may register at the Art Studio on the third floor of the MSC.

Spring Term Meeting Dates Stay Unchanged

Rules concerning organizational meetings will remain the same as in the fall semester, said W. D. (Pete) Hardesty, business manager of student activities.

Under Student Life regulations, clubs are required to hold meetings according to the following schedule: Monday; honorary societies, school councils, and home town clubs; Tuesday; technical and departmental clubs and societies; Wednesday; religious activities; Thursday; all other clubs and societies; and Fridays are reserved for called meetings.

All clubs are required to deposit money received, such as dues and contributions, with the Office of Student Activities, Hardesty said. Deposit slips will be given to the club treasurer when money is brought to the office.

Withdrawals of money from the accounts are in check form. Requests for withdrawals should be made one day in advance of the desired receipt of the check. Books in the Office of Student Activities are always open for inspection by qualified club members.

What's Cooking

Wednesday

7:15 p. m.—Canterbury Club, St. Thomas Chapel, election of officers, presentation of program for the semester, refreshments.

Aggie Christian Fellowship, YMCA, Cabinet Room, topic of discussion is "The Normal Christian Life—What is it?"

Thursday

Noon—Officers Wives Luncheon Club, The Oaks, Mrs. R. Henderson Shuffler will give a book review.

7:30 p. m.—Knights of Columbus, basement of St. Mary's Chapel emergency meeting.

Film Club to Show 'Spoilers' Feb. 5

John Wayne and Randolph Scott will slug it out in one of the longest fist fights ever filmed during "The Spoilers", the A&M Film Society's next presentation.

The movie will be shown at 7:30 Thursday in the MSC Ballroom.

"The Spoilers" is based on the Rex Beach novel of the same name. The story concerns violent happenings during the Alaskan gold strike near the turn of the century.

Admission price is 25 cents for persons not having a season's pass.

Dean Trotter Welcomes Latin Americans to A&M

Dr. Ide P. Trotter, dean of Graduate School, spoke yesterday to a group of Latin American home economists on the opportunities for males from their countries at A&M.

Nearly 20 South and Central American home economists arrived here Sunday to study American customs and standard of living and to receive training in their work.

A four-month institute has been planned for the women to provide opportunity for them to study in Texas, Oklahoma, Washington, D. C., and Puerto Rico, said G. G. Gibson, director of the Agricultural Extension Service.

Miss Kate Adele Hill, a training specialist for the Extension Service, will assist the Latin American women while they are on the campus and will help them when they go on inspection tours of county home demonstration agent sections in six Texas areas.

The women will receive technical training here and at TSCW before going to Oklahoma for a similar workshop.

The group will spend a week in Washington and five weeks in Puerto Rico, studying and evaluating the institute and the Extension Service program before returning to their respective countries.

Nations represented at the meeting include Bolivia, Brazil, Cuba, Ecuador, Nicaragua, Peru, Costa Rica, El Salvador, Paraguay, Chile, Uruguay, Mexico, and Venezuela.

Local Girl Graduates

Iva Jean Armour Shearer, of College Station received her bachelor's degree from Southwest Texas State Teachers College at the graduation exercises at San Marcos on Sunday, Jan. 25.

pass in the end zone killed the threat with only one play left in the half.

To open the second half, A QMC received, running back the kick to their 25. Their first play from scrimmage clicked for 17 yards, as the short man in a single wing faked a handoff and went up the middle for 17 yards.

A pitchout was fumbled, then the same play worked again for 21 yards to the Sq. 6 33 yard line. Two more running plays gained 18, then a penalty put the ball on the 10.

On the next play Bill Roland swept right end behind nice line blocking to the one. A ground play lost, then Roland cut outside right end again for the touchdown. The conversion was booted and A QMC led, 7-0.

Later in the half a Sq. 6 25 yard pass to the A QMC 40 was just off the finger tips of its receiver. Another long gain, this one for 15 yards on an end sweep was nullified by a penalty, giving A QMC possession of the ball.

A series of line plays killed valuable time, with Sq. 6 unable to get the ball until three plays from the end of the game.

Basketball Game

(Continued from Page 1)

to go in for the close shots. The strategy resulted in a process of trading baskets and the final buzzer found the Aggies still protecting a 51-43 lead.

Martin, whose 23 points were not only tops for the game, but tops for any Aggie player this season, also had a very good night under the baskets drawing in the rebounds. He snatched 13 off the backboards, while Miksch controlled the rebound 15 times and was second high scorer for the night with 11 points.

Charles Galey led Mustang scoring with 10 markers.

The Aggies, in spite of their dismal marksmanship in the first half, hit on 32 per cent of their field goal tries, while SMU hit for only 20 per cent. The Farmers parted the nets 17 times in 52 tries, while the Ponies racked up 12 goals in 58 attempts.

A Baylor 60-59 squeeze win over Texas last night in Waco moved the Bears into a first place confer-

ence tie with TCU with a record of four wins and two defeats. Texas dropped from first to a third place tie with Rice at three wins and two losses, while the Aggies moved up into sole possession of the fifth spot with their three and three record. Arkansas is sixth with two wins and three losses, and SMU is the cellarite with a zero and five conference mark.

The Ag basketballers, who next meet Baylor at DeWane Field House Saturday night, are in a position to move right back into the conference race if they can bag a win over the surging Bears.

A&M (51)		SMU (43)

played as well defensively as we are capable of doing, and we've been stressing this more in practice lately."

To those who accuse the Aggies of playing a slow-moving game with little offense, James urges, "Look at the number of shots we take in each game. We make enough points to win any game we play, if we can just hold down the other team." A&M has a season scoring average of 50.5 and has bucketed 221 field goals of 680 attempts.

Officers Wives to Hear Book Review Thursday

Mrs. R. Henderson Shuffler will give a book review following a luncheon of the Officers Wives Luncheon Club at The Oaks Thursday, said Mrs. Dale Honeycutt, president.

... the letters start. Then from all over the free world come such comments as these from readers of THE CHRISTIAN SCIENCE MONITOR, an international daily newspaper:

"The Monitor is most reading for straight-thinking people..."

"I returned to school after a lapse of 18 years. I will get my degree from the college, but my education comes from the Monitor..."

"The Monitor gives me ideas for my work..."

"I truly enjoy its company..."

You, too, will find the Monitor informative, with complete world news. You will discover a constructive viewpoint in every news story.

IF YOU CAN WIN THESE WINGS YOU CAN EARN OVER \$5,000 A YEAR AFTER GRADUATION

Important facts about the opportunities for YOU as a Commissioned Officer—Pilot or Aircraft Observer—in the United States Air Force

Must I be a college graduate to be a Pilot?
No. But you must have completed a minimum of 60 semester hours or 90 quarter hours toward a degree. In addition, under the new Aviation Cadet Pilot training program, you must be between the ages of 19 and 26 1/2 years, unmarried, and in good physical condition—with high requirements for eyes, ears, heart and teeth.

Do Aircraft Observers get flying training, too?
Yes. Aircraft Observer Cadets receive approximately 200 hours of "in the air" instruction. The primary phase of Aircraft Observer training is the same for all branches (navigation, bombardment, etc.). The basic and advanced phase of training varies, depending on the specific course you wish to pursue.

What kind of ships will I fly?
You will fly jets. The Pilot Cadet takes his first instructions in a light, civilian-type plane of approximately 100 horsepower, then graduates to the 600 horsepower T-6 "Texan" before receiving transition training in jets. You then advance gradually until you are flying such famous first-line aircraft as F-86 Sabre, F-49 Scorpion, B-47 Stratojet, B-50 Superfortress. Observer Cadets take flight instructions in the C-47 Dakota, the T-29 Convair, and the TB-Superfortress before advancing to first-line aircraft such as the F-89 Scorpion, B-47 Stratojet or TB-50 Superfortress.

Will my commission be in the Regular Air Force or Reserve?
Aviation Cadet graduates, both Pilots and Aircraft Observers get Reserve commissions as 2nd Lieutenants. Some outstanding graduates in both programs will be offered Regular commissions.

How long must I remain in Service?
After graduation as an Aviation Cadet, you are tendered an indefinite appointment in the United States Air Force Reserve and are called to active duty with the United States Air Force for a period of three years.

What recreation and leisure time will I have as a Cadet?
Discipline will be rigid—especially for the first few weeks. However, it is not all work. You'll find swimming pools, handball courts, movies and other forms of recreation on the post. After your first 4 months, your commandant may allow you to apply for overnight passes.

Where will I be stationed when I get my commission?
You may be stationed anywhere in the world... Hawaii, Far East, Europe, Puerto Rico, elsewhere. During your tour of duty, you will be in close touch with the latest developments in new flying techniques. You will continue to build up your flying experience and later, should have no difficulty securing a CAA commercial pilot rating.

What pay do I get as an Aviation Cadet? And after?
As an Aviation Cadet you draw \$109.20 a month pay. In addition, you get summer and winter uniforms, flight clothes, equipment, food, housing, medical and dental care and insurance... all free. After you are commissioned a 2nd Lieutenant you will be earning \$5,300.00 a year—with unlimited opportunities for advancement.

Are all Aviation Cadets trained to be Pilots?
No. You can choose between becoming a Pilot or an Aircraft Observer. Men who choose the latter will become commissioned officers in Navigation, Bombardment, Radar Operation, or Aircraft Performance Engineering.

Your future is assured if you can qualify! Here's what to do:

- 1 Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
- 2 If application is accepted, the Air Force will arrange for you to take a physical examination at government expense.
- 3 Next, you will be given a written and manual aptitude test.
- 4 If you pass your physical and other tests, you will be scheduled for an Aviation Cadet training class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

WHERE TO GET MORE DETAILS
Visit your nearest Air Force Base or Air Force Recruiting Officer. Or write to:
AVIATION CADET, HEADQUARTERS, U. S. AIR FORCE
Washington 25, D. C.
