

VANITY FAIR LOVELIES—Pictured above are the six Vanity Fair winners. Top row (left to right) are Miss Nancy Jean Chancellor, Miss Shiree Daniel, and Miss Patsy Rich. Bottom row (left to right) are Mrs. D. W. Crawford, Mrs. Joe C. Wallace, and Miss Barbara Roper.

Six Vanity Fair Winners Chosen From Field of 91 Contestants

Money Mad?

Reason for Flying Told by Cadets

By BILL COPPAGE
Battalion News Staff

Opinions of AFROTC cadets showed flight pay was the main reason for taking flight training.

Every student interviewed listed money as one of the main reasons for wanting to fly, as dollar signs flashed in their eyes when asked, "Why do you want to fly?"

"Money," said Ronnie Jones, aeronautical engineering major from Sweetwater. "Flying ties in with my major, too. I can continue my education in aeronautical engineering while I am learning to fly," he said.

Mort Konig, junior industrial

technology major from Houston, said although he was not enrolled in flight operations, he might fly because of the thought chances for advancement in the Air Force were better as a pilot. "You get more money and a chance to travel and see the world, too," he said.

"If I thought the war would last, I would rather fly than anything else," said Buzz Kennedy, senior petroleum-geological engineering major from Palestine. "You get a lot more money, but I can't see staying in for four years," he said.

Edward Bane, senior accounting major from Brownwood, was another who said, "money."

Likes It Best

Money was given as the number two reason by Don Dodson, junior petroleum engineering major from Brownwood. "I just think I'd like it better than anything else. I don't like anything that's dull," he said, expressing one of the few original reasons for flying.

One other cadet interviewed, said he thought many students were going to take flight operations because of "pressure from higher up." He preferred to remain anonymous.

New Experience

Few of the students interviewed said they were going to take flight operations for patriotic reasons. Charlie Johnson, marketing major from Dallas, said, "I'm not patriotic. Don't get that idea. But you get more money if you fly."

James Plumlee, sophomore mechanical engineering major from Dallas, said he wanted to fly for the experience. "I think it would be something new in a person's experience to fly," he said.

Four Bond Issues Pass in Bryan

Bryan property owners voted \$2,999,000 in bonds Tuesday to finance expansion of the city electric, water and sewer facilities.

All four proposals before the voters carried by wide margins.

The largest proposal, \$1,754,000 for the expansion of the electric distribution system, was approved 618-443. The voters passed \$150,000 in bonds for a street light improvement program. The vote was 656 to 432.

The proposed \$1,915,000 water bond issue for the drilling of four new water wells and for increased pumping and distribution facilities was approved 703-389. The sanitary sewer issue for the extension of sewer lines to suburban areas passed 658 to 426.

Voting was held at the Bryan Carnegie Library.

Election clerks were Mrs. J. W. Batts, Jr., Mrs. Searcy Smith and Mrs. W. S. Barron.

Winners Scheduled to Be Presented At Future Senior Ring Dance May 16

Six Vanity Fair winners and six runners-up were selected last night from 91 entries.

Winners and their sponsors are as follows: Miss Shiree Daniel of Austin sponsored by Kay Graves; Miss Barbara Roper of Fort Worth, R. G. Corder; Mrs. Joe C. Wallace of San Antonio, Joe C. Wallace; Patsy Rich of TSCW, Robert Miller; Mrs. D. W. Crawford of College Station, D. W. Crawford; and Miss Nancy Jean Chancellor of San Antonio sponsored by Charles Rawlings.

Second Place

The six second place winners and sponsors include Miss Carol Nan Dahnke of NTSC, B. P. Newlin; Miss Patricia Martin of TSCW, Don L. Garey; Mrs. Bobbie Lynn Sholar of College Station, Willard C. Sholar; Miss D'Ann Pfeiffer of San Antonio, William K. Zimmerman; Miss Rosemary O'Brien of Dallas, Bill Walker, and Mrs. Detweiler of College Station, Gaston Detweiler.

Members of the judging committee which selected the 12 girls were Lt. Col. Taylor Wilkins, Dean W. L. Penberthy, Col. Joe E. Davis, W. D. (Pete) Hardesty, Mrs. A. M. Martin, and Miss Betty Bolander.

Winners must be present at the Senior Ring Dance May 16 where

Apparent Accident Proved Planned

A crowd collected around a late model car in front of Sbis Hall yesterday as a state highway patrolman made a thorough search.

Onlookers began asking each other what happened, if anyone was hurt, and similar questions. Then someone asked one of the men taking notes if he knew anything about the "accident."

"Sure," he said, "this is part of the police school we're having. We're learning how to search stolen cars."

City Council Meeting Scheduled for Tonight

College Station City Council meeting, originally set for Tuesday night, has been tentatively postponed until tonight.

Irvin Says Coeds Help Get Athletes

Recruiting athletes for A&M would be easier if the school was co-educational, Athletic Director Barlow (Bones) Irvin told the American Association of University Professors last night.

Explaining the "Major Problems in the Administration of College Athletics," Irvin said: "The younger people of today want to stay closer together now, more so than in my time."

He told the 19 members of the AAUP present that college ath-

they will be presented. They must also have a picture made for The Aggeland at the Aggeland Studios located at the North Gate. Sponsors of the 6 runners-up must send pictures of their candidates to The Aggeland.

All students who submitted pictures in the Vanity Fair contest may pick them up Thursday in the Office of Student Activities, said Harvey (Spider) Miller, co-editor of The Aggeland.

Seven Army Cadets Apply For Flight Ops

Seven Army ROTC students have received permission from Col. Shelly P. Myers, PMS&T, to apply for transfer to AF flight operations said Col. John A. Way, PAS&T.

They will be given the flight operations physical soon, he said.

If the students are physically able to fly and Myers officially releases them, their names will be sent to Fourth Army Headquarters and AFROTC Headquarters for formal transfer to Air Force, Way said.

These men have only expressed the desire to fly, Myers said. Before they are given permission to take flight operations, the applicant must pass a flight physical and be approved by Army and Air Force ROTC Headquarters, he said. Myers said it would be some time before any actual transfer could be made.

Students who are being considered for transfer are William A. Sterling, field artillery senior; E. D. Francis, W. O. Cowley and B. G. Hill, infantry seniors; Ansall W. Outlaw, infantry sophomore; Marshall A. Woodruff, ASA sophomore and Charles L. Hall, armor junior.

Final decision on transfer of the two sophomores will be made by Way and Myers, since transfers only of contract students must be approved by AFROTC and Fourth Army Headquarters.

Irvin Says Coeds Help Get Athletes

Recruiting athletes for A&M would be easier if the school was co-educational, Athletic Director Barlow (Bones) Irvin told the American Association of University Professors last night.

Explaining the "Major Problems in the Administration of College Athletics," Irvin said: "The younger people of today want to stay closer together now, more so than in my time."

He told the 19 members of the AAUP present that college ath-

tics today is big business and to operate successfully, a large budget must be maintained. The athletic director said 85 per cent of last year's \$524,000 budget was obtained through football game receipts. The rest was accumulated through radio and television rights, grants from the Aggie Club and other sports gate receipts.

"Football supports the sports program here as it does in the other Southwest Conference schools," he said. Basketball could be promoted to a paying proposition with completion of the new field house, Irvin continued.

"A&M's athletic department has been lucky to remain financially self-supporting," the former Aggie athlete added.

Academic Standards Explaining the academic standards demanded by the conference, Irvin said A&M has remained within the limits.

An instructor interrupted to say that in his 17-year stay here he had never been pressured by the department to help an athlete's grades.

The bigness of college sports was caused through the newspapers' sports pages, Irvin maintained. He said this made the nation more sports minded and brought about the terrific pressure which caused the cribbing and bribing scandals.

A new proposed constitution for the chapter to replace the one which was lost was presented by Dr. A. Morgner of the economics department. Further action on the constitution was postponed until a later meeting to allow more study on the matter.

Talent Show Students Picked From 5 Schools

Professional-like talent was sought last week at five Southwestern schools by the auditioning committee for the Second annual A&M Intercollegiate Talent Show, said Miss Betty Bolander, MSC program consultant.

"The show proved successful last year and we recently have auditioned acts resembling professional talent," said Miss Bolander. The show will be held March 20 in Guion Hall. The MSC Music Committee is the sponsor.

Through arrangements with school officials the committee listened to auditions at Baylor University, TCU, North Texas State Teachers College, SMU, and TSCW.

Selected entertainers will be compensated for their performance by an all-expense paid trip to A&M for the weekend of the show, Mrs. Bolander said.

Two Aggies to Help Sail Research Boat

Two A&M students will help sail the "Atlantic," the A&M Research Foundation's new yacht to the Gulf Coast, said Dr. Dale F. Leipper, head of the oceanography department.

The students, Walter Lang and Don Wray will leave in March for Milwaukee, Wis., where the ship is now located.

In addition to Lang and Wray, the crew will be composed of Captain Homer Hadley, Henry Lovon der Hofen, ship builder and designer, and Franklin E. Dorsett, engineer. Hadley is employed by the A&M Research Foundation and Dorsett was formerly with the fish and wildlife research ship.

Marine Technician

Lang has a degree in mathematics and will act as marine technician in charge of observational work at sea. Wray, an oceanography graduate, is assistant to the executive director of the A&M Foundation.

The trip will be made as soon as weather permits, Leipper said. Ports are normally open March 27, he said.

The "Atlantic" will sail from Lake Michigan down the Chicago, Illinois and Mississippi rivers and enter the Gulf of Mexico at New Orleans. At present two docks are available, one at Galveston and one at Freeport.

The \$150,000 yacht was donated to the Research Foundation by Erwin C. and Robert A. Uihlein, president and vice president respectively of the Joseph Schlitz Brewing Co. of Milwaukee.

Field Trips

The "Atlantic" will be available for field trips by oceanography students. Research projects will also be carried on by the Foundation for individuals, industry and government agencies. Expense for sailing is estimated to be nearly \$700 a day, with an expected 150 sailing days a year, Leipper said.

Prom Tickets To Be Sold At Dance

Tickets for the Junior Prom may be purchased at the dance, said W. D. (Pete) Hardesty, business manager of student activities.

Prom tickets are now being sold for \$2 each at the Office of Student Activities and in dormitories. Banquet tickets have already gone off sale.

The dance will be held in Sbis Hall, Saturday. The banquet will begin at 6:30 p. m. and the dance will follow at 9 p. m.

C. K. Esten, assistant professor of English, will be principal speaker at the banquet, and the Aggeland Orchestra will provide music for the dance.

Chairman for the banquet and dance are as follows: Carroll Phillips, banquet; Roland Bahlmann, program; Clarence Woliver, dance; Bill Reed, sweetheart; Bill Young, guest and Pete Wright, tickets.

College Station Plans Public Schools Week

By HARRI BAKER
Battalion City Editor

An open house, radio programs, and service club programs have scheduled for the observance of Public Schools Week, March 1-7, in College Station.

A&M Consolidated high and junior high schools will have an open house Thursday, March 5. Ten minute classes will be held from 5:30 to 6 that afternoon, with students and parents attending. A program will be held in the gymnasium at 6:30, with a supper following.

A series of radio programs, written and produced by students, will be given on radio station WTAW, one every morning of that week.

The school will present programs at the meetings of the Lions

and Kiwanis clubs Monday and Tuesday.

Parents will participate in an evaluation program at Consolidated Elementary School.

Lincoln High School for Negroes will have an open house March 5 from 7 p. m. to 9 p. m.

Mayor Ernest Langford has issued a proclamation officially designating the week as Public Schools Week in the city.

In the proclamation, Langford urged every citizen to visit the school "in order that all may become personally acquainted with the programs and accomplishments of our educational system."

Ring Dance Favor Sale Begins Soon

Seniors can order Senior Ring Dance favors beginning Tuesday said W. D. (Pete) Hardesty, business manager of Student Activities, March 31 is the closing day.

Seniors also may place their orders for June graduation announcements, he said.

The senior favors are a replica of the senior ring in pin form, in a favorite gift for dates, wives, or mothers, he said. The price this year is \$3 and \$4.25 with safety chain and numeral, he added.

Abram Attends AVJ Meeting in Washington

Dr. Morris Abrams, associate professor of agricultural education, flew to Washington Saturday to attend a meeting of the American Vocational Journal. He is in the magazine's editorial board.

BEAUTY EXPERTS—Choosing the six Vanity Fair beauties Monday night were (left to right) W. L. Penberthy, dean of men, Miss Betty Bolander, program consultant of the MSC, W. D. (Pete) Hardesty, business manager of Student Activities, Mrs. A. M. Martin, Aggeland Studios, Lt. Col. Taylor Wilkins, assistant commandant, and Col. Joe Davis, commandant.

Student Rating Demonstrates Faculty Failure

Failure to stimulate critical and independent thinking is the biggest fault students find in A&M professors.

Dean of the College David H. Morgan yesterday released the results of the faculty rating taken Jan. 7. He pointed out that seven of the nine places averaged in the number one bracket, the highest possible score.

The only other big fault discovered in the poll was that professors cannot interest the students. In the median of 428 which Dean Morgan computed, 91 professors scored a one on the stimulation of thinking, and 117 got first place with their ability to interest students.

The instructors' best quality is their knowledge of the subject, according to the students. Their second best point is personal appearance. The professors got 343 first places for knowledge and 339 for neatness.

Scholarship also is one of the poorest attributes of some professors, as well as tolerance and liberality. Seven last places, the number five position, were registered for both these deficiencies.

"It is gratifying to find that the faculty at A&M is considered so highly by the student body," said Dean Morgan.

Although the number receiving a low rating is not statistically significant, the rating for the individual is very significant, he said.

FFA to Hold Judging Contest Here April 18

The Area III FFA Judging Contest will be held here April 18 said Henry Ross, chairman of the judging contest committee.

Between 800 and 900 students, representatives of 65 high schools, will participate in the contest, Ross said. The nine highest teams will represent the area in the State FFA Judging Contest.

Weather Today

POSSIBLY COLDER WEATHER TODAY: Light rains and possibly lower temperatures late tonight or early tomorrow. The low this morning was 39 and the high yesterday 45.
