It's the size of the FIGHT in the man!

That's right! In the U. S. Air Force, it's not the size of the man in the fight—it's the size of the FIGHT IN THE MAN! And Aviation Cadets must have plenty of it. For Cadet training is rugged. If you're good enough . . . tough enough . . . smart enough . . . if you can take it while you're learning to dish it out, you can have one of the most fascinating careers in the world. You'll be equipped to fly the latest, hottest planes. You'll be prepared to take your position as an executive, both in military and commercial aviation as well as in industry. And while you're helping yourself you'll be helping your country.

WIN YOUR WINGS! It takes little over a year to win your wings as a Pilot or Aircraft Observer (Navigator, Bombardier, Radar Operator or Aircraft Performance Engineer). But at the end of your training you graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year.

ARE YOU ELIGIBLE? To qualify as an Aviation Cadet, you must have completed at least two years of college. This is a minimum requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26½ years, unmarried, and in good physical condition.

New Aviation Cadet Training Classes Begin Every Few Weeks!

HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will give you a physical examination.
3. Next, you take a written and manual aptitude test.

4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet training class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

WHERE TO GET MORE DETAILS:
Visit your nearest Air Force Base, Air Force Recruiting Officer, or your nearest Air Force ROTC unit. Or write to: Aviation Cadet, Headquarters, U. S. Air Force, Washington 25, D. C.
