# Grid Opener Back To Lights

A change in the A&M football schedule for 1953 has been announced by Director of Athletics Barlow Irvin. The Aggie-University of Houston game in College Station Sept. 26 has been changed again to a night contest. The game originally was set for 8 p. m. but construction of a new stadium addition to Kyle Field caused A&M officials to move the game to daytime because of the possible delay in the construction. However, Irvin announced that construction of an additional 2,500 seats and a new press box is running ahead of schedule and he has been assured that the light poles will be back in place by Sept. 26.

## Softball Team Champions

Giles Shannon pitched a no-hitter and beat Texas 6-3 in the finals as the Aggie softball team won the Intercollegiate Softball tourney at Texas Saturday. Shannon tossed a 19-0 curve against Concordia Lutheran of Austin for his first win. With only one hour's rest he took a close game from Texas in the finals. A&M trailed Texas 3-0 going in to the sixth frame. Ralph Bledsoe, the Aggie catcher, lashed a home run over the left fielder with two mates aboard to tie the score. The Cadets tallied three more runs to cinch the win.

## Golfers Beat Rice In Season Finale

Aggie golfers beat Rice 4-2 Friday at the Brae Burn Country Club in a conference meet. The Cadets won three singles and one doubles match. Rice took one singles and one doubles match. Homer Calloway defeated Don Jackson, 3 and 2, Malcolm Douglas downed Larry Bryson 5 and 4, and Bob Briggs romped over Dean Small 8 and 7 for the Aggie singles wins. Harold Standish of the Owls beat Aggie John Barrett 1 up. In doubles play, Douglas and Briggs beat Bryson and Small 5 and 3 for the Farmers. Standish and Jackson teamed to give Rice a split with a 3 and 2 win over Barrett and Calloway.

**All the roads lead to Kankakee**

Some routes, naturally, are longer than others. But if there is less traffic on them, they might get you to Kankakee faster.

The same holds true of your Long Distance calls. When circuits are temporarily busy on the most direct route for your call, a new electronic brain in the telephone office automatically selects alternate routes. They may be hundreds of miles longer, but the detour saves you time.

And the entire operation of selection and rerouting is done in a split second!

The Bell System people who perfected, maintain and operate this electronic switching system have one goal: to make the best telephone service in the world even better. Would you like to join this competent, aggressive team?

There are many opportunities in the Bell System—in engineering, business administration, accounting, and other fields. Your Placement Officer can give you the details.
