## ★ Job Calls ★

• The Tri-State Chemical Company of El Paso, is interested in employing a man for work during the summer. They are specifically interested in an advanced or graduate student who has some knowledge of entomology. Employment would be in the Pecos area.

• There are openings for five or six mechanical and chemical engineering students this summer with the Celanese Corporation of America at Bishop.

• The Missouri-Pacific Lines has openings for four instrument men. Civil engineering majors may qualify.

• The City Public Service Board of San Antonio has several openings for undergraduate engineering students for summer work. The majority of the positions are in the distribution division of their electric department. Work will consist of relieving in various sections of this division during summer vacation period. They prefer students who have completed two years of pre-engineering subjects and whose homes are in or around the San Antonio area, if possible.

• Sverdrup & Parcel, Inc., operating division, successor of Aro, Inc., employ a limited number of junior college students enrolled in mechanical, aeronautical and electrical engineering. This company will pay each hired student's travel expenses from place of hire to the Arnold Engineering Development Center, in Tennessee, and return them to place of origin.

### JOB CALLS

• The Yandell, Cowan & Love Engineering Co. of Fort Worth needs a mechanical engineer, preferably one with a background in heating, ventilating and air conditioning. They would like to have someone recently out of service or one with no military commitments.

• There is an opening with the Lederle Laboratories in Dallas, for a sales representative in the Houston area. Work would be contacting feed stores, veterinary supply

stores, veterinarians and farmers. They furnish salesmen with a car. They prefer someone between the age of 25 and 30. All agricultural majors may qualify.

• Business administration, (See JOB CALLS, Page 5)

## Air Force

(Continued from Page 2)

Approximately 700 officers and 450 airmen from the 209 AFROTC detachments will take part in the summer program. Camp assignments as close as possible to their respective institutions are now being made for detachment officers and airmen.

Many of the students will be sent to camps near their own colleges, but because of the geographical location of the camps, with about half of the bases in the south, an overflow of approximately 2,000 students from New England will be sent to the southern camps.

Some cadets in the Great Lakes and midwest areas will also train in the south while many students in the northwest travel to California, as will cadets from Hawaii. Students from Puerto Rico will take their training in Florida.

Project Officer for the summer camp program is Lt. Col. Charles F. Densford of AFROTC headquarters.

### 61 Bases

The 61 Air Force bases at which camps will be located are:

Alabama: Brookley, Craig, Maxwell; Arizona: Luke, Williams; California: Castle, George, Hamilton, Long Beach Municipal, March Mather, McClellan; Colorado: Lowry; Florida: Elgin, MacDill, Tyndall.

Georgia: Lawson, Moody, Robins, Turner; Illinois: Chanute, Scott; Louisiana: Alexandria, Barksdale; Massachusetts: Otis, Westover; Michigan: Selfridge; Mississippi: Greenville, Keesler; Nevada: Nellis; New Jersey: McGuire; New Mexico: Walker; New York: Griffiss, Mitchel, Stewart; Ohio: Wright-Patterson; Oklahoma: Vance; South Carolina: Donaldson, Shaw; Tennessee: Sewart.

Texas: Biggs, Bryan, James Connally, Ellington, Foster, Goodfellow, Harlingen, Kelly, Laredo, Perrin, Randolph, Reese, San Marcos, Sheppard, Webb; Utah, Hill; Vermont: Ethan Allen; Virginia: Langley; Washington: Fairchild, Larson, McChord.

## NEW FACE

# Kyle Field Gets Seating Addition

Kyle Field, is undergoing an extensive facelifting.

Construction is underway on a new 2,500-seat addition to the west stands of the stadium. This new section will boost the total capacity in the concrete stands to 35,000. Five thousand bleacher seats will raise the capacity to 40,000 for overflow crowds.

The addition, which will be between the 30-yard lines, will be ready for use at A&M's opening home game next fall against the University of Houston, Sept. 26. Construction officials have assured A&M athletic officials that the new seats and new, modern press box will be completed by that time.

The press box will be one of the nation's finest. With three levels, the press box will be in similar exterior design to Baylor's new plant while the top photographer's deck will be similar to the Cotton Bowl in Dallas.

The bottom floor will accommodate some 120 writers and wall

house a soft drink and foods bar, rest rooms and other facilities found in today's up-to-date press boxes.

The second level will have four radio booths, two photographer's booths and the coaches' booths with phones to the playing bench on the field.

There will be 20 photography stations on the third deck with complete dark room equipment and wirephoto facilities. An elevator will lift the fourth estate people to the new press box.

Twenty-year options are being sold to the public in the new stadium. Some 1,500 of these \$50 options—which entitle the purchaser to buy a ticket between the 30-yard lines for the next 20 years—have already been sold.

The remaining 1,000 seats are still available to future option buyers.

Rambo Construction Company of Fort Worth was awarded the contract on the stadium expansion at a cost of \$350,000.
