

Coed Issue Upsets Former Students '53 Budget Balance

The Former Students Association has spent \$1,079.69 more than its income during the first four months of 1953, said L. B. (Lonnie) Locke '22 of College Station, assistant executive secretary of the FSA.

"This amount is in excess of the \$13,616.66, the one-third income mark of the \$40,850 budget, with only \$13,325.49 income shown this year.

The budget however, should balance out before the year is up, he said. The notable increase of individual expenses over those estimated was with telephone and telegraph.

The \$334.10 spent, as compared to the estimated \$116.66, was contributed to the Sen. Moore-Coed Resolution which was introduced this spring. An increase of \$549.40 spent for postage also was blamed on the coed issue.

I was madder than a rabid chihuahua. I was shaking myself trying to get dry, when one of the boys I was with kicked me for gettin' more water on him. I sunk my teeth into the seat of his britches and then ran like a greyhound.

T'was Good Bull

When he quit chasing me, I went over and lay down under a tree and watched to see what happened. The guys that threw the water on us laughed and muttered something 'bout it being good bull. It seemed the guys I was with were friends

More money for you!

NOW YOUR MATURING SERIES E BONDS CAN EARN INTEREST TEN YEARS LONGER—AT 3%!

Have you given any thought to what you'll do with those maturing Series E Savings Bonds you patriotically invested in ten years ago? Well, here's real good news for you. You won't have to do a thing with them and they'll continue to earn interest for ten years longer at 3% interest, compounded semiannually! Just hold on to your Bonds as you have been doing and allow them to go on earning!

Of course, if the necessity arises, you may still redeem any Series E Bond at any time after you've held it for two months. But the wise thing to do is to hold your Bonds, just as it's wise to hold on to savings in any form. And to go on saving with more!

So why not start now—join the millions of thrifty Americans who are investing in United States Savings Bonds regularly through the Payroll Savings Plan. Millions who say it's the one sure way to save.

The sum you set aside each week may be as little as 25c—or as much as \$275. If you can save \$3.75 a week regularly through the Plan, in five years you will have \$1,025.95! In 9 years and 8 months you'll have \$2,137.30 . . . in 19 years and 8 months, \$5,153.72!

No matter how small your income, you can't afford not to put something aside for yourself. So join the Payroll Savings Plan where you work today. Strengthen your own future and that of your country by saving your money through U. S. Savings Bonds.

If you want to be paid your interest as current income, invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

NOW EVEN BETTER! INVEST MORE IN SAVINGS BONDS!
