

# ★ Job Calls--Job Interviews ★

1. The Iowa Park Public School System of Iowa Park, Texas, has an opening for a vocational agriculture teacher. Agricultural education majors may qualify.

2. Chemical engineering and chemistry majors may qualify for vacancies with the American Smelting and Refining Company at Corpus Christi, Texas. Applicants would start either in their pilot unit on experimental work or in their Laboratory on analytical work, and will be promoted as operating jobs develop.

3. There is an opening for a mechanical engineer with the Eastern States Petroleum Company, Inc., of Houston, Texas, for refinery inspection work.

4. The Kimberly-Clark Corporation of Neenah, Wisconsin has a vacancy for a man to train as personnel understudy. No previous experience necessary. Applicants must have the ability to effectively present ideas to individuals or groups and to prepare written reports and analyses, and also the ability to speak effectively. There will be a twelve to eighteen month training, then applicant will be stationed either in Wisconsin, New York or Memphis, Tennessee.

5. The Taft Implement Company of Taft, Texas, is in need of a man that can be trained to eventually manage one of their stores or departments, which would be in Taft or Victoria. Agricultural engineers may qualify.

6. The Magnolia Petroleum Company of Dallas, Texas, has the following vacancies: Five openings in their Marketing Department for

Junior Construction Engineers for which civil or architectural construction engineering majors may qualify; Five openings in their Geophysical Department for Junior Geophysical Engineers for which physics, geology or geological engineering majors may qualify; Six openings for Sales Engineers in their Marketing Department which requires a degree in mechanical engineering and work would be going into industrial plants of prospective customers and making a study of lubricating requirements, etc.; Three openings in their Scouting Department for men to work as scouts and business administration and industrial education majors may qualify; An opening in the Comptroller Department for an accounting major who would have a two-year training period with assignments at various subordinate headquarters to become familiar with phases of accounting, then he would be located in Dallas in the Comptroller's Department; Five openings in their Natural Gas Department for Gas Engineers which requires a degree in mechanical engineering, and work would be concerned with engineering problems encountered in the operation of a gas plant which involves refrigeration and other heat transfer problems; Eight openings in their Natural Gas Department for Gas Engineers which requires a degree in chemical engineering, and duties would involve producing, transporting, processing and disposing of natural gas; and eight openings in the Natural Gas Department for Gas Engineers which requires a degree in petroleum engineering and duties would be to handle varied problems encountered in producing, transporting, and processing of natural gas to strip liquid petroleum products there from.

7. Business administration, agricultural economics and agronomy majors may qualify for the vacancy with Wonder Rice Mills of

Houston, Texas, to handle office sales of rice and rice by-products in the Houston area. There is no travel involved.

8. Horticulture and landscape architecture majors may qualify for the opening with the Texas Department of Agriculture to serve as Nursery Inspector. Headquarters will be in Houston or a small town east of Houston. Applicants must have a car and be able to stay away from headquarters for at least a week at a time. Travel expenses paid.

9. The Gulf Oil Corporation of Houston is in need of a civil engineer for construction work in Texas and Louisiana. There is some local travel involved.

10. The L. Schwartz Company of Uvalde, Texas, is enlarging their feed operations and they want to hire a man in August to work as a feed salesman. He would also help figure formulas for their mill. Animal husbandry, dairy husbandry, poultry economics majors may dry, poultry husbandry and agriculture majors may qualify.

## Red Army Troops

(Continued from Page 1)

could hear the Russian troops singing. Russian tanks, supported by infantry and the Red Zone police, were guarding crossing points from East Berlin to the Allied sectors.

West Berlin police reported that East Zone police had halted all traffic on the Autobahn between Berlin and West Germany. Unconfirmed reports from West Berlin said long columns of Russian tanks were heading along the Autobahn toward Berlin.

The rosters burned sentry boxes, hauled down Red flags, smashed a dozen government sedans, roughed up German Communist officials and shouted "Ivan, go home" in a spontaneous venting of emotions piled up through the postwar years.

A Communist "peace offensive" stunt thus had backfired in the Soviet Sector of this fourpower city, 100 miles deep inside the Russian Zone. A Communist-run parade Tuesday of 5,000 workers gently "demanding" lighter work schedules already promised by the government, set the stage for the unorganized outburst Wednesday.

## Phillips Petroleum Gives Grant-In-Aid

A grant-in-aid of \$1500 has been made available to the Texas Agricultural Experiment Station by the Phillips Petroleum Company of Bartlesville, Okla. The grant will be used in "extending their support of cotton defoliation studies for the 1953 season," Director R. D. Lewis says.

The studies are under the supervision of Dr. W. C. Hall of the Department of Plant Physiology and Pathology.

## Art Gallery Holds Special Course

A special course of theory and practice in the philosophy of painting is now being conducted in the MSC art gallery.

The course deals with perspective and composition of paintings and is under the supervision of Mrs. Emalita Terry, advisor to the MSC art committee.

Approximately 15 students are enrolled in this course and it is in the second of a scheduled three-week run.

## MSC Features Texas Paintings

The Texas Water Color Society now has on display in the cases of the MSC promenade 25 water color finite or creative paintings representing the work of some of the artists of Texas.

With the exception of three of these paintings, all are purchase award winners and represent the top paintings of the society. "New Structure," a painting by Robert MacD. Graham of Austin, received an award of \$200, the highest for any painting in this particular class.

These paintings were brought to A&M through the efforts of the MSC Art Gallery Committee of which Jules Vieaux is president and Mrs. Emalita Terry is advisor. According to Mrs. Terry, these paintings will be on display for another ten days.

The Texas Water Color Society is an organization of Texas artists and has its headquarters in San Antonio. Robert K. Reed of that city is president of the society.

## Wives Bridge Club Seeks New Members

The Aggie Wives Bridge Club has elected officers for the summer term.

Mary Ann Edmondson was elected president, Mary Mackin vice-president and reporter, and Helen Jacobs secretary and treasurer.

President Edmondson cordially invites new members to attend the meetings which are held in the MSC, rooms 2B and 2C, on Thursday at 7:45 p. m.

## Dr. Morgan To Be Program Advisor

Dr. David H. Horgan, dean, A&M, will be the consultant of a panel to discuss problems in administration, at 1:30 p. m. Monday, June 22 at a meeting of the Texas School Administration Conference, to be held at A&M, June 22-24.

Panel members will be A. R. Downing, assistant superintendent, Waco public schools; Ross Wimbish, superintendent Arlington public schools; Thomas Justiss, superintendent Paris public schools.

## Production Credit To Hold Meet Here

The Production Credit Association of Texas will hold a statewide meeting at A&M August 9-12. Seventy-five persons are expected to attend.

"The meeting will be sponsored jointly by the School of Agriculture of A&M, the 36 Production Credit Associations of the state and the Houston Production Credit Corporation," Dean C. N. Shephardson of A&M's School of Agriculture, said today.

*Road of Harmony*

This road leads to a picnic. It extends through a beautiful countryside, where the trees, meadows, and streams all contribute to the contentment and pleasure of this happy family.

But it leads further than the picnic site. It is the first few miles of a road that winds through the years of family harmony, love, and understanding. And it is over this road that children must travel if they are to grow into successful, happy adults.

For this is a picture of American youth in its proper setting—with loving parents, who have found enough time to enjoy their children and to devote their moments of leisure and recreation to them.

We need never worry about children such as these. They are taken to Church on Sundays, and are taught the principles of Christian living. They are cared for, loved, and respected.

Give your children the same opportunities to make the most of their lives. Start them on their way down the road to the fulfillment of a Christian life of service and security.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every parent should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Sunday	Book	Chapter	Verses
Ruth	1	14-18	
Monday	Matthew	22	34-40
Tuesday	Luke	24	13-32
Wednesday	II Samuel	18	24-33

## Official Notice

"Applications for degrees are now being accepted in the Office of the Dean of the Graduate School from students expecting to complete requirements for their degree by the end of the current term. Applications must be filed by July 1, 1953.

IDE P. TROTTER, Dean"

Applications for degrees are now being accepted at the Registrar's Office from all students who expect to graduate at the end of the summer session (August), according to H. L. Heaton, registrar. Students who are expecting to complete the requirements for either a Baccalaureate or Master's Degree during the summer session, should call by the office of the registrar no later than July 1, 1953 and file formal application for their degree.
