

Langford Named to Two Committees

Ernest Langford, head of the A&M Department of Architecture, has been named to two national committees.

He has been named to the Committee on Education of The American Institute of Architects and to the Study Committee on Architectural Education of the Southern Regional Education of the Southern Regional Education Board.

The duties of the Committee on Education of the AIA are to formulate and recommend plans whereby the aesthetic and the scientific qualifications of the profession and the public appreciation of the arts and design will be forwarded; to maintain collaborative contact with the National Architectural Accrediting Board, the National Council of Architectural Registration Boards and the Association of Collegiate Schools of Architecture and in collaboration with other committees to consider the general aspects and trends of the educational programs and curricula of the schools of architecture; to carry out the purposes of the Waid Educational Fund according to plans approved by exercise general supervision of the carrying out of the purposes of such income gifts to the educational program as are designated by the board, according to plans approved by the board; to perform other duties consistent with the general duties stated above which are assigned to the committee by the board—to investigate sub-professional and pre-professional training in colleges, junior colleges, technical institutes, vocational high schools, also education of laymen regarding architecture, in schools and colleges.

Pecan Growers Hold Conference

More than 145 are due to attend the Texas Pecan Growers Association Conference to be held at A&M today. Sessions will be held in the Memorial Student Center.

John E. Hutchison of the Horticulture Department will chair the conference.

Poultry Breeders' School Set for MSC July 15-16

The Annual Poultry Breeders' School will be held in the Memorial Student Center, July 15-16, J. H. Quisenberry, poultry department head has announced.

Two out-of-state speakers will be featured on the program. J. I. Taggart of Chickmaster Incubator Company, Cleveland, Ohio, will discuss "Incubator Hygiene". Discussion topics scheduled for Dr. C. W. Upp, head of Louisiana State University Poultry Department, are "Will the Meat Bird of Tomorrow be a Cross or a Standardbred?" and "Specialization of and in the Poultry Industry".

Panel discussion, "Turkey Hatchability", will be led by George Draper, turkey supervisor of the National Turkey Improvement Association. Bill Moore, Extension poultryman, will serve as chairman of a second panel discussion, "Trends in the National Plans".

Faculty members appearing on the program are Quisenberry; W. E. Briles, professor of poultry husbandry; E. D. Parnell, professor of

poultry husbandry, R. R. Shrode, professor of genetics.

The number pre-registering for the breeders' school has been small but approximately 200 are expected to attend the Poultry Disease Clinic on Friday, following adjournment of the earlier meeting. No women are registered for the school, but some wives will probably attend the clinic, Quisenberry said.

Department of Poultry Husbandry and School of Veterinary Medicine are jointly sponsoring Friday's meeting which will be in session from 9:00 a.m. to 4:15 p.m. in the ballroom of the Memorial Student Center.

A. H. Students Visit Bryan Cattle Sale

A.H. 406 students, accompanied by Professor F. I. Dahlberg of the animal husbandry department, attended the Bryan Cattle Auction Tuesday afternoon.

The students conducted a study of the procedures followed by the Bryan Auction Company. Among the activities studied were facilities furnished, number of buyers, prices, kind of cattle sold, and weighing facilities at the auction barn.

Congress Asked For Hiway Funds

The 83rd session of Congress should not go into history without taking favorable action on a bill to provide approximately \$200 million of Federal funds for highway construction, J. H. Kultgen of Waco, President of the Texas Good Roads Association, has advised Texas members.

In a letter addressed to Senator Lyndon B. Johnson, Senator Price Daniel and Representative Sam Rayburn, Kultgen urged every effort to bring about passage of road assistance under either the Dempsey or the Dondero bill.

Gen. Ike Ashburn, Executive Vice President of the Texas Good Roads Association, last week appeared before the House Subcommittee of the Public Works Committee in Washington. He told the committee members Texas economy is dependent upon more money for highways.

Under the present formula, based on highway mileage and motor fuel tax payments, Texas would get from \$16 to \$25 million additional Federal funds for interstate highways.

70,000 Chinese Attack

(Continued from Page 1)

other United States adviser to the South Koreans.

"Our men have been at it five hours now and they are still holding well," he said.

The Eighth Army said the attacks apparently were in two major sections. Up to 35,000 men were striking between Kumhwa and Kumsong, northeast of the old Sniper Ridge battle scene.

The second Chinese force with about 5,000 men was striking west of the Pukham River.

All along the line, however, the Allies fought back with counterattacks and artillery fire that matched or surpassed the Reds in volume.

By 4 a.m. Tuesday the battle appeared to be developing as a major thrust—but still a limited Red offensive.

Unless the action suddenly widens or deepens it seemed likely to Army sources that the Reds were striking only to flatten out the Kumsong bulge as a display of power.

The battle dwarfed any action the front has seen since the truce talks began two years ago.

"The enemy artillery is extraordinary," said Maj. Ralph Cowan of Elmira, N.Y., a United States adviser at the front. "This is a big battle—not just another out-post battle."

A steady rain began to fall in the western half of Korea early Tuesday. If extended to the east, it might slow the Chinese effort.

Carpenters Repair Windows of Mitchell

Carpenters have been repairing the windows and screens of Mitchell Dorm. The carpenters have put in new windows, window-panes, screen wire, and screen frames where needed.

The wood work on the outside will be painted when the wood work is completed, said the carpenters.

The water is cold. Line fire snaps overhead and a demolition charge has gone off—spattering dirt and debris on mud-soaked trainees. Combat training like this presents all of the discomfort and much of the danger of the real thing. It's part of the tough job these men are doing well—to protect the future of America.

painlessly and surely through the Plan where you work.

For a happier future for yourself, and your country, invest more—start in United States Savings Bonds.

Operation "Mud Pie"

Perhaps you've asked yourself, "What can I do to help?" The answer is, you are helping—in a very vital way—by investing in United States Savings Bonds. Doing a good job of maintaining our country's economic strength, just as these men are maintaining her military strength. And you aren't alone—because 43 million other Americans now own Bonds! Building a fortress of peace—when peace is only for the strong.

Remember—every time you invest in Bonds, you are strengthening your own financial security, too! So plan now to save more—to save regularly—with Bonds. You can do this

Here's how E Bonds now earn more money for you. Now Series E Bonds pay an even higher return than ever before—starting at 3% compounded semiannually. 1. Now every Series E Bond you own earns interest after only 6 months. 2. Every Series E Bond you own earns interest for 10 more years—it reaches the original maturity date. 3. All maturing E Bonds automatically invest at the new, higher rate (averaged) compounded semiannually. Start now! Invest more savings in paying Series E Bonds—through the roll Savings Plan where you work.

Peace is for the strong! For peace and prosperity invest in U.S. Savings Bonds.
