

Conference

(Continued from Page 1)

has figured as a neutral and since India already has a prime task as chairman of the prisoner of war repatriation commission.

Lodge appeared confident that India would not get a seat. But rumblings of discontent spread among a number of delegations who feel that India, as a leading Asian nation and the author of a proposal which helped bring about the armistice, should be included.

Health Officer Offers Tips On Beating Heat

AUSTIN, Texas—(Spl.) — Beat by the heat? Is this torrid weather sapping your energy from every body pore? Then State Health Officer George W. Cox has news for you.

"Observing a few simple hot weather living rules can mean relief from this sweltering heat," the doctor says. For instance:

Cut down on the amount of food eaten at any one time. Eat a few crackers or some fruit between meals if you get hungry. Many people feel better in hot weather if they eat fewer protein foods such as eggs, fish, and meat. Fruit and vegetables in season makes fine "cool comfort" diets.

Water is constantly being lost through perspiration and has to be replaced or painful heat cramps will result. Office workers probably get enough salt through ordinary eating, but laborers may need 2 or 3 extra teaspoonsful each hot day.

Children who play hard and perspire freely need a little extra salt. Salted nuts or crackers is an agreeable way for them to get it. They won't object at all.

Don't wear clothes that hinder evaporation of perspiration, because that's the way body temperatures are kept normal. Wear loose, light clothing, preferably light in color.

Suit your exercise to your strength. Swimming is unquestionably the best summer sport, since it cools rather than overheats the body.

Take a warm bath before bedtime, and get eight hours sleep regularly. An oscillating electric fan which keeps the air in motion without harmful direct drafts will make sleeping more comfortable and the next day's heat less oppressive.

Sun rays are most intense between 10 a.m. and 4 p.m., so stay out of their way during those hours if possible. If not, be sure your head is covered.

Observing these rules can make for more summertime comfort, Dr. Cox points out.

Trose rebelling against the U.S. stand insisted they would get enough votes to seat India despite American opposition. A two-thirds vote of the 60 members is required.

Lodge is known to feel that the United States got everything it desired in the long talks last week with its allies in the Korean war, which at times found them split on important points.

He was especially pleased about two resolutions sponsored by 15 of the 16 U.N. members taking part in the Korean war. Every nation which had forces in Korea for the U. N. except South Africa joined in sponsoring these resolutions.

One resolution recommended that countries participating in the conflict could take part in the conference and should act independently at the conference. The second resolution salutes the soldiers of the Republic of Korea and those assisting the republic and paid tribute to all those who died in resisting aggression.

Lodge had made known his support of a resolution by Australia and New Zealand, recommending that the Soviet Union participate in the conference, "provided the other side desires it."

Sears Roebuck Gives Grant To Ag Eco

A grant of \$250 has been made to the A&M department of agricultural economics and sociology by the Sears Roebuck Foundation, according to Dr. Tyrus R. Timm, head of the department.

The fund will be used toward paying the traveling expenses of two students doing major work in agricultural economics to Corvallis, Oregon, in August. There the students will attend meetings of the junior section of the American Farm Economics Association and participate in the debates on agricultural problems.

In announcing the grant, C. T. Johnson, Southwest Public Relations Director for the Sears Roebuck Foundation stated: "The purpose of the Foundation is to advance the interests of agriculture, particularly by assisting young people. I can think of no better means of attaining this objective than stimulating a study and discussion of questions of public agricultural policy among college students."

Andrew C. Hudson of Alpine and Don D. Thompson of Temple have been selected to attend the meeting. J. Wheeler Barger and John G. McNeely, professors of agricultural economics, will assist the students in preparing for the debates, and Professor McNeely will also attend the meetings.

TEXAN RETURNS—Pfc. Edwardo O. Deandra, one of 17 sick and disabled former prisoners of war who arrived at the Travis Air Force Base, Calif., by air, is carried from the plane to a waiting ambulance.

College View Gets New Settees

New settees are now being delivered to residents of College View Apartments. The first shipment of 20 has been received. Two hundred are on order, and will be delivered by Sept. 1.

Each student in a furnished apartment is eligible for one, but it is optional with the student whether or not he receives one.

Centerville Pays Tribute To Doctor

CENTERVILLE, Tex.—(P)—Dr. E. P. Powell of Centerville is 74 years old, but he never refuses to answer a call, regardless of where or when it is, or how bad the weather is.

To show their appreciation, the people of Centerville presented the doctor with a new "pill bag" on Aug. 11 when the chamber of commerce held its annual barbecue.

"I've had some mighty nice bags in my life, but this surely is a nice one, too," Dr. Powell said. "The first one I ever had I hung on the horn of my saddle."

Dr. Powell has been making calls at Centerville for 46 years. In the crowd that gathered to pay tribute to him were grandsons of the babies he has delivered. In all, he has delivered more than double the 1950 census of 961 in the town of Centerville—more than 2,000.

"I just wanted to help the other fellow is about as good an explanation as to why I wanted to be a doctor," he said.

Engineering Extension Praised for Police

High praise was given the Texas Engineering Extension Service by the Texas City Managers' Association for instituting and conducting the Texas Police Training School.

The schools are conducted at A&M and the next class, limited to 24 men, commences Sept. 7 and ends Oct. 2. E. L. Williams is vice-director of the TEES.

The resolution reads, "whereas, upon request of the Texas City Managers' Association, the Extension Service of the A. and M. College of Texas has, under the sponsorship of the Texas City Managers' Association, conducted members of the city and effective organization and known as School; and

Trecalek Undergoes Appendectomy

Bennie F. Trecalek, assistant accountant for the fiscal department, underwent an emergency appendectomy at the Bryan Hospital early Thursday morning.

Trecalek, who is recovering rapidly from the operation, will return to his home in Caldwell Aug. 17. He expects to return to work by Sept. 1.

Trecalek worked at the annex until it closed, and for the past three years has been in the main office on the Campus.

This is the life
LIVE
to enjoy it

Nothing like splitting the fairway with that first whistling drive of the season!
But, along with our best wishes for many par-shattering rounds this year...
when you drive your car, keep in mind this sober reminder:
Bad accidents happen in good weather, too!

BE CAREFUL- going and coming- the life you save may be your own!
