

ALMOST COMPLETE—Herb Cabla, junior veterinary medicine major from Sinton, enters the new veterinary hospital which is rapidly nearing completion. The new hospital is located across the railroad tracks just west of the campus on the road to Easterwood Airport.

New Construction Nears Completion

A \$238,000 construction program is nearing completion here.

Approved by the board of directors in June, 1952, the program allowed first for a \$21,000 system of storm sewers which was followed by the paving and graveling of several streets at a cost of \$140,400.

The construction of the Physical Education building will necessitate wider sidewalks along Lubbock street, between the building and the upperclassmen dormitory area.

This and other sidewalks will be constructed in the future, according to T. R. Spence, manager of the A&M system physical plants.

Girders for the roof of the 7,000-seat Physical Education building are now being placed in position.

Sidewalk construction will include widening of a section of walk on the east side of the MSC, replacing a section on the west corner of the Chemistry building, the west side of Bizzell street, and an extensive system of walks in the area between the Academic building and Military walk.

The recent completion of a four-lane boulevard between the system administration building and Sulphur Springs road was the main street construction job, Spence said.

Other street construction was Throckmorton street, paved; Houston street, to be paved; and a gravelled street from the System administration building to A&M Consolidated high school.

Spence said that the gravelled streets would probably be paved in the future, after the gravel has been packed by use.

'Off Limits' Rule Blocks Outfit Flags

All the favorite places for putting outfit flags are now officially off limits to A&M cadets.

The water tower, the dome of the Academic building, the flagpole in front of the Academic building and the flagpole in front of Duncan hall are off limits effective Oct. 1.

"Unauthorized cadets caught on or near these places will be subject to military discipline," said Lt. Col. Taylor Wilkins, assistant commandant.

Matthews Joins Extension Service

R. F. Matthews, safety director at the Texarkana Red River arsenal for the past nine years, recently joined the staff of the Engineering Extension service.

Matthews has been in industrial work since 1935, when he went to work as safety engineer for the wood preserving division of the Koppers Company.

Matthews, on leave from the Koppers Company, came to A&M in 1941 as an instructor in industrial safety. He served two years in this position.

Matthew's home is in Bryan. His son is a sophomore student here.

Passing To Be Large Factor In U of Georgia-A&M Game

Aggie Rodeo To Be Held Oct. 23-24

The annual All-Aggie rodeo, sponsored by the Saddle and Siroin club, will be held Oct. 23-24 in the Aggie rodeo arena.

Performances will be held at 8 p. m. Friday and Saturday.

Stock will be furnished by Duke Gibbs, owner of the Triangle Bell rodeo ranch at Belton.

"This stock is professional, RCA-approved rodeo stock that will provide many a spill for the contestants," said Bobby Rankin, rodeo chairman.

The competitive events open to anyone enrolled in Texas A&M will include bareback bronc riding, saddle bronc riding, bull riding, steer wrestling and calf roping.

There also will be a girls barrel race.

Tickets may be purchased from any member of the Saddle and Siroin club. Advance tickets are 50 cents for students and \$1 for adults. Tickets at the gate will be 60 cents for students and \$1.20 for adults.

Services Planned For Mrs. Daum

Funeral services will be held at 10 a. m. Monday for Mrs. John Daum, formerly of College Station, who died Monday at her home in Great Neck, N. Y.

Mrs. Daum died suddenly after a cerebral hemorrhage.

She was in New York with her husband, who was doing research at New York university. He is on a one-year leave of absence from the mathematics department here.

Services will be at St. Joseph's church in Bryan. Rosary will be recited Sunday night at the Hillier Funeral Home, which is handling arrangements. Mrs. Daum will be buried at the Mt. Clavary cemetery in Bryan.

Before coming to College Station, Mrs. Daum lived in Omaha, Nebraska.

She is survived by her husband, her son, 7-year-old John A. jr.; her parents, Mr. and Mrs. John Firois; a brother, Gabe Firois; and a sister, Mrs. Simone Dittick.

Aerial Duel to Feature Bratkowski and Ellis

Over 30,000 fans may see the air filled with passes in the Cotton Bowl in Dallas Saturday night when the Aggies meet the Georgia Bulldogs in the first college football game of the season in Dallas.

Don Ellis, the nation's leading major college passer with 22 completions in 39 tosses, will match passes with Zeke Bratkowski, seventh in the nation with 13 completions in 24 attempts.

Two Ellis passes have been good for touchdowns, while Bratkowski has connected for one touchdown pass. Ellis has totaled 248 yards by air with two interceptions and Bratkowski has passed for 224 yards and one interception.

Forest Service Plans Lockout For Hotrodders

The Texas Forest service plans to uproot a group of hotrodders who have been using its runway for a racetrack.

It's going to lock the gate.

But in order to lock up, it must lease an entire airport.

Here's what happened. The Forest service has been using part of the Jackson county airport near Kirbyville to store its planes used to spot forest fires.

The Forest service reports that hot rod speedsters have been damaging the runways by racing on them. It says the runways have been made unsafe for aircraft.

But Jackson county, which owns the airport, says it can't finance the runway upkeep. The Forest service says the county will not keep the speedsters outside.

The Forest service asked the board of directors Saturday to let it lease the airport from the county.

The board approved.

Business Society Elects Officers

The Business society elected J. M. (Mitch) Spadachene president Thursday night.

Other officers elected were Bill Utzman, vice president; Allen (Bootsie) Hohl, senior representative to the Arts and Sciences council; Glenn Langford, junior representative to the A&M council; Richard (Red) Harris, reporter; Clancy Woliver, chairman of the membership committee; and Dale Topperwien, athletic director.

Student Senate To Review Seating Plan

Discussions on what to do about settling seating problems at football games and who should take care of Reveille took up much of the debate at the student senate meeting last night.

Andrew Gary, vice president of the senate, took over chairmanship of the group in the absence of President Ide Trotter.

The question of whether or not to allow seniority to prevail in the selection of Student Senate committees was discussed at length and defeated.

Ideas Vary
Suggestions for easing misunderstandings in the Kyle Field seating plan were sent to the seating committee.

Ideas varied from the use of ropes to mark off sections to the wearing of different colored cards by non-military students to separate them by academic classes.

The Senate discussed the problem of whose responsibility it was to take care of Reveille. Last spring, when another discussion was held concerning A&M's mascot, the Senate recommended that the band take care of the dog.

Senators who were here for school last summer said Reveille wandered around the campus, lost a lot of weight and was missing once for several days.

She was also hit by a car and was taken to the small animal clinic of the veterinary hospital for treatment.

Reveille Fund
To remedy the situation, senators passed a motion setting up a committee to investigate what should be done and authorizing a Reveille fund to be set up to take care of the dog's needs during the school year, during the summer and between semesters.

Announcement of the fund drive will be made Tuesday at noon in the two mess halls. Waiters will collect contributions at the evening meal Tuesday.

Concerning the problem of non-military students who eat in Duncan hall interfering with corps meal and retreat formations, one of the non-military senators explained that a schedule has been set up which will prevent interruptions.

The non-military students will go to breakfast after the corps has finished and will eat lunch before the corps is formed.

A committee was set up to investigate the possibility of having a public telephone put in every dormitory.

Tuesday Pass-By Results Announced

Squadrons 2 and 13 tied for first place in the 1st wing at the pass-by Thursday night. B infantry, A armor and B armor tied for first in the 1st regiment.

Other places in the 1st wing were squadron 14, third; squadrons 11 and 6, fourth; squadrons 7 and 5, sixth; squadron 3, eighth; squadron 4 ninth, squadrons 10 and 15, 10th; and squadron 9, 12th.

Other 1st regiment places were A anti-aircraft, A chemical corps and A quartermaster corps, fourth; A infantry, A engineers, A field artillery, B field artillery and A army security agency, seventh; and A transportation corps, A signal corps and A ordnance, 12th.

Mayo Gives Talk On European Trip

"Europe Revisited" was the title of a speech given by Dr. Thomas F. Mayo of the English department at a meeting of the Hillel foundation Wednesday.

"I had heard," said Mayo, "that Americans are disliked in European countries, but I found things quite to the contrary. People went out of their way to be friendly."

During his tour Mayo visited with several authors whose books he had read. He said he also had a chance to discuss with them the outline of a book he is planning to write.

Shifting Clay Causes Sinking Of Building

Shrinking and swelling of the blue clay level that building foundations in this area rest upon has caused four college buildings to sink slightly, necessitating deeper foundations for them.

According to T. R. Spence, manager of A&M system physical plants, the present foundations of these buildings are around 10 feet deep. The new foundations will go to a depth of 20 feet.

The buildings needing deeper foundations are the Academic building, College hospital, Library, and Exchange store.

The new foundations will still rest on clay, but at this depth the clay is less liable to shrink and swell with rains, Spence said.

The geological formations under this are made up of clay and sand for considerable depth, according to S. A. Lynch, head of the geology department.

Economics Club Elects Martin

J. N. Martin of Athens was elected president of the Economics club Tuesday.

Also elected at the organizational meeting were J. T. Roberts, Winnsboro, vice president; E. A. Fernandez, Sherman, senior representative to the Arts and Sciences council; and J. S. Williams, Austin, social secretary.

The fourth Tuesday of each month was selected as the regular meeting date for the club.

Weather Today

POSSIBLE SHOWERS

Cloudy with possible light showers. Low this morning 71. High today 94. Low tonight 64.

Gig 'em, Aggies

Local Den Mothers Selected Last Night

Den mothers were selected last night for College Station Cub Scout Pack 102.

This year's pack has 116 boys in it, making it the largest in the state. It had about the same number last year.

"We still need a den mother for the den in the Oak Terrace-College View area," said Capt. Charles L. Byrd, packmaster.

There are about seven to nine boys in each den. Members in each den are selected from their geographical location.

Den mothers selected last night were Mesdames I. G. Adams, Richard Balrauf, Jack Fugate, John H. Pruitt, George W. Reynolds, J. Wayne Stark, J. K. Riggs and George L. Huebner.

The next pack meeting, which will have an Indian theme, will be Oct. 29. The dens meet each week.
