

Whose Little Boy Are You?

Accent on Offense

Undefeated Farmers Face Border Favorite

Voted least likely to succeed in preseason football polls, undefeated A&M goes after its third win of the season against Texas Tech in Lubbock at 8 p. m. Saturday.

The Red Raiders have been rated as the title favorites in the Border conference.

Possibly the largest crowd ever to see a football game in west Texas will fill 30,000 seat Jones stadium for the A&M-Tech game. All tickets in Lubbock had been sold out Wednesday morning but more were sent from A&M.

A 37 man squad left by plane at 2 p. m. today. The Aggies will loosen up under the lights in Jones stadium tonight. Yesterday the Cadets had an offensive and defensive drill with little contact work and worked on kicking.

A&M's starting backfield will be Don Ellis, quarterback; Elwood Kettler and Billy Pete Huddleston,

halfbacks; and Bob Easley, fullback.

Fullback Don Kachtik is still slowed by a hip injury. Thursday Coach Ray George did not know if he would be ready by Saturday night.

Joe Boring, Joe Schero, Charley Hall, Cooper Robbins and Donald Robbins definitely will not play.

The starting line will be Bill Schroeder and Bennie Sinclair, ends; Larry Winkler and Darwood Scott, tackles; Sid Theriot and Marvin Tate, guards; and Fred Broussard, center.

"We're going to have to play our top game if we want to win," said George. "Tech has what their coach calls their best team in a long time."

Ellis, Cavazos Duell

Ellis and Tech's Bobby Cavazos are expected to provide the offensive fire-works.

The slender Cadet signal-caller is second nationally in passing and fifth in total offense and leads the SWC in both departments. He has gained 376 yards on 101 running and passing plays and has completed 29 of 57 passes for 324 yards and three touchdowns.

Cavazos, a top contender for all-America honors before the start

of the season, showed signs of hitting his stride last week. He gained 68 yards in 10 carries against Oklahoma A&M. An all-Border conference and honorable mention all-America in 1952, Cavazos picked up 674 yards and 10 touchdowns.

Johnson Set Record

Tech quarterback Jerry Johnson set a school record in total offense in '52 with 1,027 yards. He rushed for 325 yards and gained 702 yards passing.

The Aggies, described by some as a team which would be lucky to win over two games all season, have won two and tied one of their three starts by a total margin of three points.

Now a team sparked by a hard-hitting line, the passing, quarterbacking and defensive play of Ellis and the running of some unheralded backs has opened the eyes of the region's football fans.

A Tech team which has won its first three games of the season and is 12th nationally in rushing is picked an even bet against the Aggies by most sportswriters. Their easy 27-13 win over Oklahoma A&M after the Aggies had beaten Arkansas has given the Raiders added stature in the eyes of the forecasters. Arkansas defeated TCU, 13-6 last week.

The Raiders have rolled up 805 yards rushing for a 268.3 yard average per game. The Aggies are second in the SWC in defense, giving up an average of 198.6 yards per game.

Lawrence E. Layman

Layman Named To Baptist Church

Lawrence E. Layman is the new Minister of music and education at the First Baptist church of College Station.

During the past year Layman served with the Second Baptist church of Fayetteville, Ark., as was associate pastor.

Layman has served in a number of churches as an evangelistic singer and music director. He was recently ordained to the ministry.

Dorm Flooders May Get Fined, Suspended

New Marching Route Planned For Fish Area

A new route of march will go into effect Tuesday for the weekly pass-by in the freshman area.

Many of the complications and complaints created by the old pass-by route will be eliminated by the new plan, said Phil Jacobs, sixth group commander and originator of the plan.

The new route was given clearance by Vic Kennedy, first composite regimental commander.

Under the new plan the route of march will be out Henderson street, up Jones street in front of the president's home, turning left past prexy's fish pond, and going into Sbisla hall through the middle door.

Graders will be stationed across the street from the president's home, and the fish band will be on Houston street by the side of the fish pond.

The main difficulty before has been the limitation of space. Cadet Lt. Col. Phil Jacobs said many unit commanders found it almost impossible to give all the commands required in such a short distance.

Also, the fact that the band was playing immediately to the right of the units as they passed the reviewing stand caused the eyes right to be hardly audible.

"It should prove to be advantageous and a great improvement over the old route," Jacobs said.

Methodist Women Hear Dan Russell

Christ's feeding of the multitude was the theme of the program at the meeting of the Women's Society of Christian Service of the A&M Methodist church Monday at the home of Mrs. Kenneth Baily, 1006 Dexter St.

The devotional was given by Mrs. Paul Andrews.

Dan Russell, district chairman of Christian Rural Overseas program, gave an account of his recent trip to Germany with a shipload of food and heifers donated by the people of Texas.

Special guests were Mesdames Eula Mae Hughes, Dolly Hyde, Earlene Couger and Marchell Hines, representatives from the local beauticians organization, who recently went to the Methodist home in Waco where they gave free hair cuts to over a hundred girls.

Following the business meeting, conducted by Mrs. J. S. Mogford, refreshments were served by the hostess, Mrs. T. E. McAfee.

College Rules Require Dismissal

By JERRY BENNETT
Battalion Co-Editor

Suspension from school and fines for damages may be awaiting vandals who flooded dormitories 2 and 6, if they are caught.

Assistant Dean of Men Bennie Zinn said he thought students involved in flooding dormitories should be suspended from school. He also said he thought they should have to pay for damages.

Zinn's penalty would be lighter than that proposed in College Regulations. The college rules state that "wanton destruction of property" will be punished by dismissal from school.

Group to Meet To Study SLC, Student Senate

A committee of six will meet at 4 p. m. Monday to discuss and study the objectives of the Student Life committee and the student senate.

Dean of Men W. L. Penberthy said he has asked the committee to get together to study the objectives of the two organizations and "be sure the lines of authority are clear."

The meeting will be held in Penberthy's office and is a "part of the self-evaluation program," he said.

Dr. Walter H. Delaplane, Joe Sorrells and Ide P. Trotter jr. will be on the committee.

Bennie Zinn, assistant dean of men, and W. D. (Pete) Hardesty, business manager of student activities, will be at the meeting to participate in the discussion.

Hardesty is taking the place of C. G. (Spike) White, manager of student activities and secretary of the SLC, who cannot be at the meeting.

Removal of Ross Hall Set for Near Future

Ross Hall, which formerly housed the military department, is to be torn down in the near future.

The material is to be sold to the highest bidder and removed from the campus.

The date for the removal has not been set, but it is to be done in the next two or three month said W. H. Badgett, manager, physical plants.

If a student is dismissed, he can never return to A&M. Students who are suspended can return at a later semester.

"We have a lot of disgruntled students," Zinn said. He explained dormitories living in the flooded dormitories had lost sleep and time in addition to having some of their property damaged.

Zinn said he was worried that these students might retaliate if they thought they knew who flooded their dormitories. He thinks this might lead to other floods.

Dormitory 2 is one of two former cadet dormitories which was opened this fall to non-military students. Dormitory 6 houses corps students.

Used by Cadets

Dormitory 4 and half of dormitory 5 house non-military students. The other nine dormitories in the new area are used by cadets.

Zinn said he knew no reason for friction between corps and non-military students in that area unless the non-military students caused it themselves.

He explained these students had been warned not to interfere with corps formations or activities.

Zinn said he had received no reports of "severe agitation" against non-military students by cadets.

The college official said he had been told relations between the two groups were running smoothly.

Fearful Trouble

However, Zinn said, some cadets and college officials had been against opening dormitories 2 and 4 to non-military students because they feared trouble between them and cadets.

The college official said he knew of no instance when students involved in flooding dormitories had been caught.

The crowded conditions in non-military housing made it necessary to open corps dormitories to civilian students, Zinn explained.

Dormitory 2 was flooded early Wednesday morning by vandals who removed the flush valves from 10 toilets on the fourth floor.

Water Flowed

Water flowed to the other three floors, standing three to four inches deep in some places.

Six flush valves were removed on the fourth floor of dormitory 6 early yesterday morning. The flowing water was discovered before it had time to do much damage. Water was between two and three inches deep on the fourth floor.

Royer to Address Chemical Society

Dr. George L. Royer of the American Cyanamid Company, Bound Brook New Jersey, will address the local section of the American Chemical Society on the Chemistry," at 8:15 p. m. Tuesday in the lecture room of the Chemistry building.

Weather Today

CLEAR

Mild days and cool nights are forecast for the weekend. High yesterday 80. Low this morning 47. High today 82. Expected low tonight 50.

Six Students Attend SWCSC Meet Monday

Six A&M students will discuss plans for Southwest Conference Sportsmanship week Monday at the fall meeting of the SWC Sportsmanship committee at Baylor university.

The students are Ide Trotter, student senate president; V. M. (Monty) Montgomery, head yell leader; Jerry Robinett, athletic representative; Ed Holder and Jerry Bennett, Battalion co-editors.

Harri Baker, A&M student who is executive secretary of the Sportsmanship committee, will also attend the meeting.

The conference-wide Sportsmanship week will start Monday and continue to Saturday. All schools in the conference will be observing it with special programs on their campuses and at next Saturday's games.

The Sportsmanship committee is composed of each conference school's student body president, head yell leader, an athletic representative, and student newspaper editor.

The organization's executive secretary is always an A&M student, since the committee's permanent records are kept here.

The committee awards the annual Sportsmanship Trophy each year at the Cotton Bowl.

News Briefs

Boswell Goes to GE Meeting

RAN BOSWELL, College Station city manager, went to Wimbler yesterday for a General Electric company meeting. The purpose of the meeting was to explain various metering devices. L. P. Dulaney, director of public utilities, and W. J. Coney, head of electric department, accompanied Boswell.

ROGER W. SHERMAN, former A&M student from San Antonio, has qualified for aviation cadet training as an aircraft observer. He is the son of Mr. and Mrs. E. F. Sherman.

LT. COL. MORRIS W. Pettit '40, of Bloomberg has been appointed deputy chief of staff for the central command in Tokyo. He is the son of Mr. and Mrs. H. L. Pettit.

THE TEXAS Dehydrators conference will be held in the Assembly room of the Memorial Student Center Oct. 12, with 50 people attending. Dr. J. R. Couch is chairman of the conference which is sponsored by the departments of biochemistry and nutrition, animal husbandry, dairy husbandry and poultry husbandry.

ATOMIC ENERGY won the war, but its main value now is in replacing our natural resources, said Dr. R. V. Andrews, chemical engineering department, in speaking to a joint meeting of the engineering societies Tuesday. Attending the regular energy speech were members of the ASME, SAS, ASH & VE and AFS.

SENIOR AND GRADUATE students majoring in physical sciences will receive free a new magazine, Industrial Science and Engineering. The Industrial Laboratories Publishing Co. will mail the monthly magazine starting January.

DISCUSSION PROGRAMS instead of lecture programs will be the new training program of the 9807th Volunteer Air Reserve Training unit here. A troop carrier wing will be activated for training purposes, according to Lt. Col. W. S. McCulley, commanding officer.

Phones Available For Dormitories

Telephones are now available for any dormitory in which the students request one.

Any dormitory, military or non-military, can obtain a phone by agreeing to pay the monthly cost of the phone. They also must accept the responsibility of caring for the phone. The coke funds of the dormitories can be used to take care of the cost.

In case of any damage to the instrument, the financial responsibility will be shared equally by each unit or person in the dormitory.

Phones can be obtained by submitting a letter to Bennie Zinn, assistant dean of men. This letter must state that the students in the dormitory are willing to accept the conditions of cost and responsibility.

This letter, signed by the unit commanders, authorizes the Office of Student Activities to pay the bills out of unit funds or the dormitory coke funds.

Brazilian Student To Attend A&M

A Brazilian student will attend A&M this year under a scholarship program created by the Cordell Hull Foundation.

The program will enable five Latin American students to attend various American universities.

Andre Mauricio de Andrade Ribeiro will study chemical and petroleum engineering here. On completion of his studies he will return to his position with Brazil's National Petroleum council, the government agency charged with the country's entire petroleum development program.
