

To Take Office Jan. 1

# Kiwanians Elect Hervey President

J. B. (Dick) Hervey was elected yesterday president of the College Station Kiwanis club.

Others elected at the meeting were Bob Cherry, first vice president; Isaac Peters, second vice president; Jim Baty, W. S. Manning, John Sperry, L. G. Jones and Dan Russell, directors.

The new officers will take over their duties Jan. 1.

Hervey, who is executive secretary of the Former Students Association, has been a member of the Kiwanis club five years. He has lived here since 1947.

Graduated from A&M in 1942, Hervey served four years in the air

force. When he was discharged, he held the rank of major. Hervey is now a lieutenant colonel in the air force reserve.

Originally from Greenville, Hervey worked as special agent for Aetna Casualty and Surety company in Dallas. He is now responsible for the administration of the former students' program.

"I always thought I'd like to work and live around College Station, so I took the job when it was offered me," Hervey said.

Club's Board

He is second vice president of the Kiwanis club this year, and has served on the club's board of directors for the last three years. He has also been commanding officer of the local air force reserve and president of the Brazos County Chapter of the Reserve Officers Association.

The program for the Kiwanis meeting yesterday was given by the "Dorm 16 Four," a group of freshmen. They sang and played several songs.

Also with the group and acting as master of ceremonies for the program was Jerry Schepp. Schepp performed magic tricks, including the cutting and restoring of the tie of Kiwanian J. Wayne Stark.

Members of the musical group were Bobby Cargile, Walter Miers, Stanford Kinnard and Lynn Pixley.

'T-BONE' FORMATION—These 11 entries in the State Fair of Texas junior steer show fall in line with the football season as they assemble in this "T" formation, complete with beefy linemen. The steers were entered by 4-H club boys from Big Spring.

## Job Interviews

● Oct. 29-30—Monsanto Chemical Co. of Texas City will interview January and June graduates in mechanical and chemical engineering, and chemistry at all degree levels.

Mechanical engineers will be interviewed for work in either design or maintenance and construction; chemical engineers will be interviewed for work in process engineering; and chemistry majors will be interviewed for analytical work, production or research.

● Oct. 29-30—Boeing Airplane Co. will interview January and June graduates in civil, aeronautical, chemical, mechanical and industrial engineering, physics and mathematics for employment at either their Seattle or Wichita plants. Work will be in design, development, research and production.

● Oct. 30—Texas Employers' Insurance association will interview January graduates at all degree levels in architecture, chemical, civil, electrical, industrial, mechanical and petroleum engineering and industrial education for safety engineering work. To qualify you must be 25 years of age or older.

● Nov. 4—Sperry Gyroscope Co., a division of the Sperry Corp., will interview mid-term graduates at all degree levels in mechanical, aeronautical, electrical, and industrial engineering, physics and mathematics.

neering; and chemistry majors will be interviewed for analytical work, production or research.

● Nov. 4—The Arkansas-Louisiana Gas Co. of Shreveport, will interview January and June graduates at all degree levels in mechanical, chemical, electrical, civil, petroleum and industrial engineering and geology.

● Nov. 6—Black, Sivalls and Bryan, Inc. will interview January and June graduates at all degree levels in electrical, mechanical, petroleum and industrial engineering and geology for employment as development and design engineers.

● Nov. 6—Carbide and Carbon Chemicals Co. will interview January and June graduates at all degree levels in chemical and mechanical engineering and chemistry who may be interested in jobs in production, research, development, engineering design, construction, maintenance, utilities or technical sales.

industrial engineering, physics and mathematics for positions in production, engineering, field engineering, and as physicists and mathematicians.

● Nov. 6—Black, Sivalls and Bryan, Inc. will interview January and June graduates at all degree levels in electrical, mechanical, petroleum and industrial engineering and geology for employment as development and design engineers.

● Nov. 6—Carbide and Carbon Chemicals Co. will interview January and June graduates at all degree levels in chemical and mechanical engineering and chemistry who may be interested in jobs in production, research, development, engineering design, construction, maintenance, utilities or technical sales.

● Nov. 6—Carbide and Carbon Chemicals Co. will interview January and June graduates at all degree levels in chemical and mechanical engineering and chemistry who may be interested in jobs in production, research, development, engineering design, construction, maintenance, utilities or technical sales.

## Tuesday Is Last Day for Who's Who

Tuesday, Nov. 10, is the last day for the student body to submit names of Who's Who candidates.

Names should be submitted to the office of student activities. The Who's Who Selection committee will meet Dec. 14 to choose A&M's member of "Who's Who Among Students in American Colleges and Universities."

A total of 26 students will be selected this year.

Candidates must have a grade point ratio of 1.5 or above, and must be outstanding in popularity, leadership and student activities.

The selection committee members are military representatives T. B. Fields, chairman; Carroll Phillips; Billy Reed; Bill Roland; Fred Mitchell; Jerry Ramsey and Pat Wood.

Non-military members are Doyle Lowrie, chairman; Wallace Birkes; Bill Henderson and Ed Holder.

Smith of Blanks, La.; Vernon Frost of Houston, Givins Parr of Alice and Oliver Flowers of Menard.

Present officers are Hudgins; Cecil Boyt of Devers, vice-president; Paul Cornelius of Coleville, Calif., second vice-president; Harry Gayden, executive secretary; Mrs. Margaret Sunda, recording secretary and Dr. Lloyd Clyburn, publicity director, all of Houston.

Members will vote on the candidates selected by the nominating committee during the February meeting, Hudgins said.

The ABBA has approximately 2,100 members representing almost 250,000 cattle registered since the association's founding in 1924. It has registrations in 47 of the 48 states and in 28 foreign countries, Hudgins said.

### Lucky Thirteen

VALHALLA, S.C. — (AP)—Mrs. Rod Turnbull, born on a Dec. 13, has no fear of 13's.

She was born in the 13th year of her parents' marriage and was the 13th grandchild in her generation. There are 13 letters in her maiden name and her 13th birthday came on a Friday the 13th.

She never plans things for her lucky day, the 13th, so avoided being married on that date.

## ABBA Directors Attend Quarterly Meeting Here

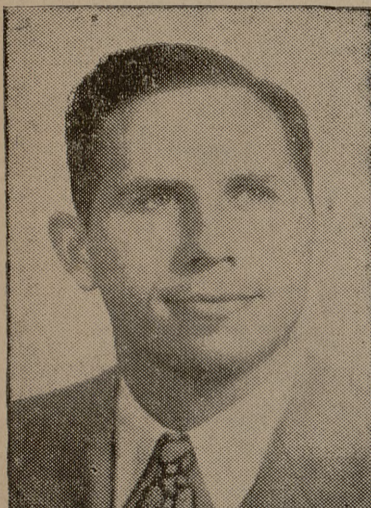

Directors of the American Brahman Breeders association took no action on requests for affiliation by an Australian and several South American associations.

The recording organization meeting here discussed the requests but did not act on them, said Edgar Hudgins, president from Hungerford.

Approximately 40 directors attended the quarterly meeting from Texas, Louisiana, Arkansas, Florida and Cuba.

The directors laid plans for the annual meeting of the total membership to be held in Houston during February, discussed standardization of show cattle, and chose a nominating committee to select candidates for all offices and seven new directorships.

Committee chairman is Henry O. Partin of Kissimmee, Fla., past president of the association; A. N.

## Exchange Store Profits

(Continued from Page 1)

lations and how to distribute the surplus profits.

All actions of the board are subject to the approval of Dr. D. H. Morgan, president of the College.

In other action, the board voted not to support the dormitory athletic equipment fund with contributions from the Exchange store.

A majority of the board members felt that the units already had enough equipment in the backlogs and in the personal possession of individual cadets in the units.

The present student activities fee, which is not compulsory, is blamed for the lack of support for the dormitory athletic equipment fund.

White said the committee which decided on beneficiaries from the fund approved only those which would limit participation to those students who had paid activity fees.

Included in this are all the student publications, Town Hall and athletic tickets.

Other organizations were dropped. These included the MSC, the swimming pool and intramural athletics, which were formerly paid for under the compulsory student activity fee law.

The Exchange store has lost money so far this year in comparison to last year, revealed Carl Birdwell, manager of the store.

He attributes the loss to several factors. During the month of September, the store lost money in three departments.

"Furnishings" lost \$3,500. This was explained by the fact that many freshmen had signed up for golf and swimming. The \$18 physical education uniform is not required for these two courses.

In "sundries", the Exchange store lost \$14,000 during September.

ber. The reason for this, Birdwell said, is freshmen don't take the basic slide rule course until spring this year, where formerly they took it both semesters.

"Novelties" is losing money, said Birdwell, because the Exchange store no longer has use of its display windows. Both the large windows are boarded up because of the work being done on the foundation at the front of the store.

"Books" and "drug sundries" earned more money this September, than last said Birdwell.

The book department gained because the store had more used books on hand than ever before. Birdwell went on a used book buying trip this summer to used book wholesalers in cities around the country.

As a result, less customers were lost for "out of stock" reasons. In the drug sundries department, Birdwell said sales increases were caused by a more attractive display and by a more complete line of merchandise.

Also, he said alarm clocks, which have been in short supply since World War II, have become more plentiful and increased sales in that line alone would almost account for the increase in drug sundries.

The board recommended that any surplus funds left after all allocations have been made, be turned back into the store for operating funds.

Those present at yesterday's meeting were C. A. Roeber, chairman; Dr. Fred W. Jensen, Dr. E. C. Klipple, Ernest Langford, A. A. Young, and C. G. White, all of whom are faculty members.

Student members present were Ben (Buddy) Vance, Larry Kennedy, and Ted Uptmore. Three student members were absent from the meeting. They were Leonard Stoltz, W. R. (Dusty) Canon and Jan Broderick.
