Dance Classes to Hold Formal Dec. 1 in MSC

Students of the Memorial Student Center dancing classes will get to put into practice what they have learned at a formal dance Tuesday at the MSC.

Registration for the classes is held at the beginning of each school semester and is limited to Aggies and local girls who wish to learn to dance.

The girls come from Bryan, College Station and surrounding areas such as Caldwell, Navasota and Hearne.

The classes are held each Tuesday in the ballroom on the assembly room of the MSC and are directed by Manning Smith of College Station.

There are about 300 Aggies in the classes. Because of this large number they are divided into five groups. Each has a different time for instruction. The girls attend all five sessions.

The classes first began in 1950 and include instructions in all types of dance steps.

In addition to the regular Tuesday classes, two dances are scheduled each semester. Class members attended a Halloween costume ball. The second will be the formal dance next Tuesday.

OPPORTUNITIES FOR FUTURE ENGINEERS

Graduate engineers are much in demand. But, as your placement bureau will verify, certain types of engineering aptitudes are in considerably greater demand than others.

For example, when more than 450 leading companies throughout the country contacted a leading engineering college for prospects, six different engineering specialties were frequently mentioned—mechanical, chemical, electrical, industrial, civil and metallurgical. But the specialty most in demand was mentioned four times as often as the least.

LATEST COLLEGE SURVEY SHOWS LUCKIES LEAD AGAIN

Last year a survey of leading colleges throughout the country showed that smokers in those colleges preferred Luckies to any other cigarette.

This year another nation-wide survey — based on thousands of actual student interviews, and representative of all students in regular colleges — shows that Luckies lead again over all brands, regular or king size... and by a wide margin! The No. 1 reason: Luckies taste better.

Smoking enjoyment is all a matter of taste, and the fact of the matter is Luckies taste better — for 2 reasons. L.S./M.F.T. — Lucky Strike means fine tobacco. And Luckies are made better to taste better. So, Be Happy—Go Lucky!

When I relax for just a sec,
A Lucky Strike I light.
I find its mildness, better taste
Make smoking a delight!
