

**NEW CHURCH FOR AREA**—Construction will begin soon on the Faith Evangelical and Reformed church on College Ave. The building will be of brick and building tile, with a sanctuary seating 220 and choir space for 30. The 119-person congregation, organized Aug. 9, is now meeting in the American Legion hall, with the Rev. R. F. Buck as minister.

### Draft Laws - 6

## Deferment Can Be Granted For Child

(Editors Note: This is the sixth in a series on 10 articles on the draft laws and how they affect persons of draft age.)  
When the draft law first started in 1948, any man who was married or got married before he was ordered into the Army, was deferred.

## MSC Remodels Record Room; Adds Player

The record playing room of the Memorial Student Center is being remodeled into three separate record playing rooms. This change was made possible through the donation of a new record player by the H. W. Hull family of Midland, in memory of their son, Lt. Robert W. Hull, '46, who was killed during World War II.  
The high fidelity installation cost approximately \$600. The rooms are equipped with a new type of louvre to allow ventilation to enter, but keeping the sound from escaping. If this louvre proves satisfactory, it may be installed throughout the MSC.  
Two of the rooms will be put into use as soon as the remodeling is finished; the third room will be left vacant.  
Bob King, chairman of the music committee, said the third room will not be available until the committee finds some means of obtaining a third record player.

### Bulletin!

Joe Crenwelge, a junior on the second group staff, who lives in 8-202, was awakened this morning about 3:50 by a sneak thief. Crenwelge leaped from his bed, turned on his light and confronted the intruder. The intruder pulled a gun on the junior and escaped.  
Another cadet, Taylor Green, who lives in room 313, dormitory S, reported money missing from his room.  
The thief did not get any of Crenwelge's cash.  
Campus security officers are investigating the matter.

Later, President Truman issued an executive order which took the deferment away from the man who had only a wife. If he had children, he was still deferred.  
Then, in 1953, President Eisenhower issued another executive order which took the deferment away from a man who had both a wife and child or children on or after Aug. 25, 1953. The man who had a child or children prior to that date, and advised the board prior to that date, was still deferred under the terms of the Eisenhower order.  
There is an exception to the order issued by President Eisenhower. If there is extreme hardship and privation to dependents, a man can still be deferred on that basis. The local board decides whether there is extreme hardship or not.  
One basis on which a board could grant a deferment based on hardship would be for a wife to be physically incapacitated, requiring the personal care of the husband. The local board would decide if that were the case or not.  
In consideration of a dependency claim, payment of allowances by the government to dependents of persons serving in the armed forces is taken into account by a local board, but factors other than financial are also considered.  
The term "child" as used in draft regulations includes a child, legitimate or illegitimate from date of conception, legally adopted child, a stepchild, a foster child, and a person who is supported in good faith by a draft registrant in a relationship similar to that of parent and child.

## Fellowships Set For Atomic Study

Seventy-five Atomic Energy Commission-sponsored graduate fellowships in radiological physics will be awarded this year to seniors majoring in chemistry, physics or engineering.  
Accredited for graduate level training leading toward an advanced degree, training requires a nine month course at one of three universities and three more months of study and field training at the co-operating AEC installation.  
Universities operating the program are the University of Rochester and Brookhaven National Laboratory, the University of Washington and the Hanford Works of the AEC and Vanderbilt University and Oak Ridge National Laboratory.  
The Oak Ridge Institute of Nuclear Studies will pay tuition and required fees for accepted seniors. Each will also receive \$1,600 a year with an allowance of \$350 if married and \$950 for each dependent child.

## Phi Kappa Phi Accepts 44 Aggie Members

The Phi Kappa Phi national honor society has selected 44 A&M students for membership.  
Electing members from all fields of higher education on the basis of scholarship, the society was organized in 1897. Sixty-three colleges and universities now have chapters.  
A&M received its chapter in 1949.  
Students selected are Richard S. Atmar, Everett D. Besch, Robert S. Berger, James R. Baird, James R. Bilhartz, Wyndem K. Brindley, Glenn J. Cook, Raymond M. Custer.  
Thomas G. Garling, James M. Davis, Guy W. Dawson, Richard M. Edmiston, Ernest A. Elmendorf, Richard W. Ewing, Charles A. Gary, John Kert Goode, William Hamilton Jr., Joe B. Harris.  
Clyde D. Henderson, Elmer J. Hickman, Robert R. Hollenbaugh, Mohammad K. Jazayeri, Herbert N. Lackschin, Roger Q. Landers Jr., Joe E. McAlister, Joel I. McGregor Jr., William S. McLaughlin.  
James S. Milligan, Mark J. Nash Jr., Richard N. Porter, Luther F. Rogers Jr., Eugene E. Rozacky, Michael R. Sliman, E. Subbaraju, Otis W. Templer, Homer L. Thornton Jr., Ide P. Trotter.  
Don P. Warden, Craig I. Wiegand, Roland L. Wilks, David W. Williams, Joe S. Williams, James E. Willis and Robert B. Willman.

## TAX DISCRIMINATION

HARRISBURG, Pa.—(AP)—There is discrimination between sexes under the new Pennsylvania sales tax. If a woman buys a garter belt for herself, it's exempt from the tax. But if a man buys garters for himself, he must pay the one per cent levy.

## Weather Today

**CLOUDY**  
Cloudy to partly cloudy with occasional light rain showers. Cloudy with possible rain, drizzle, and fog tomorrow. High yesterday 65. Low this morning 53.

# Coach Prospects Narrowed To Seven by Athletic Council

## Mechanical Meet Main Speaker Set

Howard N. King of the Inter-type Corporation, will be main speaker for the Fifth Annual Newspaper Mechanical conference Feb. 20 in the Memorial Student Center.  
Since the main emphasis of the conference this year will be on typography and typographical problems, King will speak on the use of type in makeup and advertising, modern makeup at low cost and best makeup possible with existing type supplies.

The conference, sponsored jointly by the Texas Press association and the A&M Journalism department, will also feature in its morning program, R. F. Bruckart, time and motion expert and Roy Craig, publisher of The Stamford Times.  
The best utilization of time and motion in the newspaper shop will be explained by Bruckart, who is associate professor of industrial engineering at A&M. Bruckart has made several studies in the newspaper shop field and believes he can save publishers money by helping them end excess motion in the shop.  
The conference will probably mark the first time in Texas that scientific principles have been applied to the newspaper business by an industrial engineer, said D. E. Newsom, conference director and assistant professor of journalism.  
For conferees who desire more traditional methods of saving time and effort in the shop, Craig will talk on "Shop Kinks," new and unusual practices being used by shop men to speed up production and save time.  
E. L. Williams, a veteran printer and presently director of the Texas Engineering Extension service, will be moderator for a panel discussion featuring mechanical department employees from state newspapers.  
The panel will answer backshop questions submitted earlier by other conference members.  
In response to requests at previous conferences, a discussion of stereotyping will be held, said Newsom.  
Metal temperatures, the proper height for castings, broken mats and other phases of stereotyping will be discussed, he said.  
About 140 representatives from 85 weekly and small daily Texas newspapers are expected to attend.

## FSA Group Will Meet Here Today in MSC

The eighth annual club officers' and class agents' conference of the Association of Former Students will be held in the Memorial Student Center today through Sunday.  
The bylaws amendment committee will meet in the senate chamber today at 2:30 p. m. Registration will be from 9 a. m. to 2 p. m. the tomorrow.  
The general club officers' and class agents conference will also be held tomorrow.  
At 5 p. m. the association employ award committee will meet in the association offices.  
The conference will continue Sunday and at 10 a. m. the nomination committee for the association council will meet in the association offices.  
The purpose of the conference is for the outgoing officers to offer any information to the new officers that might help them in their jobs, said J. E. (Dick) Hervey, secretary of the association.

## 29 Discussed For Football Job

Seven prospects for the head coach position at A&M reached the finals out of a total of 29 names mentioned at the eight hour session of the athletic council held Thursday in the MSC.  
The reduced list includes Jim Tatum, Maryland; Mike Brumbelow, Texas Western; Johnny Vaught, University of Mississippi; J. V. (Siki) Sikes, formerly of University of Kansas; H. N. (Rusty) Russell, Schreiner Institute; Mike Michalske, A&M line coach; and Dick Todd, SMU backfield coach.  
Speaking for the council, W. L. Penberthy, chairman, said the council thoroughly discussed the basketball situation during the session.

## BAFB Major Sets 'Record' Unofficially

A major at Bryan air force base has "unofficially" broken a few speed records.  
He flew a T-33 jet trainer from Waco to Washington D. C. in two hours and two minutes. The distance is 1,265 miles, making his ground speed 615 miles an hour.  
The recent record making flight from across the nation in a F-86 Sabre jet averaged 610 miles an hour.  
But the major, base operations officer Sam Malone, cheated. He had what he called "a terrific" tail wind at 39,000 feet, boosting the airplane's normal cruising speed.  
So his "record" is unofficial.

### BULLETIN

The A&M Board of Directors was meeting today to discuss recommendations for a new head coach. The meeting adjourned at 12:45 p. m. for lunch. A press conference was planned for some time this afternoon to explain what had been done or any future actions planned on the coaching situation.

Also contacted for the coach's job were Earl Blaik of Army and Paul Bryant of Kentucky. Both said they were not interested and asked not to be considered.  
Penberthy said the new head coach would be given free rein in the selection of assistants.  
Subject of salary was not discussed during the entire session, Penberthy said, and salary was not mentioned in the talks with Tatum, but that Tatum intimated he was interested in a 10 year contract.

Some of the candidates were contacted by A&M officials and others applied for the job.  
Tatum, Todd, Michalske and Russell were interviewed, while Vaught, Sikes and Brumbelow were contacted by phone.  
Penberthy emphasized that Brumbelow is being considered, but is not an applicant for the job.  
Milburn (Catfish) Smith, former East Texas State mentor, Wednesday signed as head coach at Longview high school. Smith was considered one of the leading candidates for the Aggie position.

Members of the council present were Penberthy, chairman; J. P. Abbott, dean of the college; Tyrus R. Timm, agricultural economics department; E. D. Parnell, poultry husbandry; H. C. Dillingham, electrical engineering; G. W. Schlesselman, geography; W. W. Armistead, veterinary medicine; and Bill Brucks and Dick Harris, student members.

## Senate Requests Exemption Return

The student senate wants the exemption system reinstated.  
A majority of the senate voted last night to ask its representatives to the student life committee to bring up the matter of exemptions at the next SLC meeting.  
The representatives would ask the student life committee to make a recommendation to the academic council, asking them to reconsider their action in abolishing the system of exemptions from final examinations.  
A committee was appointed to investigate the possibility of installing a "student locator" file in the Memorial Student Center similar to the one now operating in the Housing office.

## 'Marriage' Tops Preference List

"Preparation for a Successful Marriage" was voted first choice of topics for discussion during Religious Emphasis week by corps students. Religious Emphasis week will be Feb. 15-19.  
The choice was taken from the interest locaters that were distributed to all corps students. Seventy per cent of the interest locaters were returned.  
This is the highest percentage of interest locaters returned since the idea was started four years ago, said J. Gordon Gay, YMCA secretary.  
Second highest on the list was "Men-Women Relationships".

Others, in order of preference, were "What is a Successful Life", "Moral and Religious Problems in an All-Male Society", "Does A&M Strength or Weaken Religious Faith", "Do Science and Religion Conflict", and "What is Sin: What Principles Should I Consider in Deciding Right from Wrong."

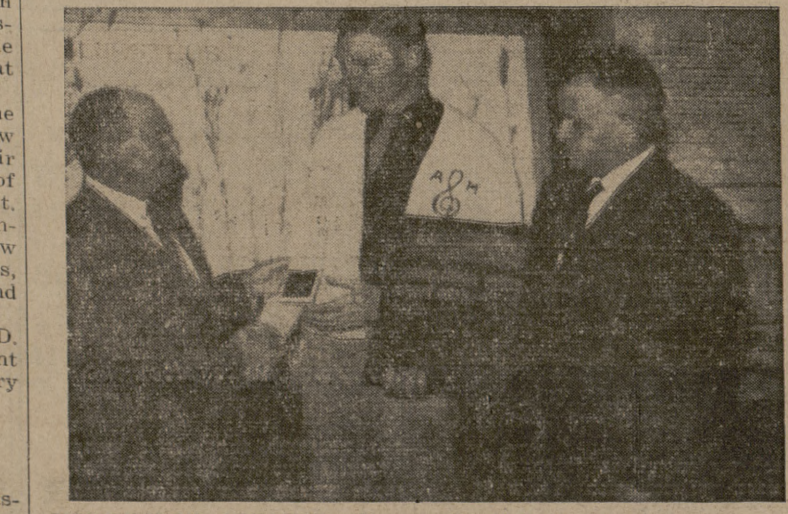

These topics will be discussed in the dormitories by the discussion leaders and students.  
Besides being compiled together, the interest locaters were also compiled by dormitories. Each discussion leader has been sent a list of his dormitory's preferences.  
Special interest locaters were distributed to married students and faculty. These groups will also have discussion leaders during Religious Emphasis week.

## PH Students Will Aid Houston Show

Several students majoring in poultry husbandry will work as assistant superintendents of the poultry show at the Houston Fat Stock show, Feb. 1-12.  
"The knowledge gained by the students while working at the show will be helpful to them in their chosen field," said E. D. Parnell of the poultry husbandry department.  
Working as assistant superintendents of the market poultry show are Alton Fuchs, Monroe Fuchs, Donald Portie, Eugene Rozacky and Jimmie Tyree.  
David W. Taylor and John D. Williams will work as assistant superintendents of the poultry breeding show.

## LINCOLN QUESTION

SPRINGFIELD, Ill.—(AP)—Custodian George Cashman Abraham Lincoln's tomb lists as the most common question of the thousands of annual visitors: "Is Lincoln really buried here?"  
The answer is yes. Lincoln's body is in a hermetically sealed casket enclosed in a 27-ton concrete vault of 10 feet below the tomb's floor.

**RECEIVES AWARD**—Roger Q. (Jake) Landers Jr., center, is shown receiving an award as outstanding range and forestry student at A&M from H. M. Bell, president of the Texas section of the American Society of Range Management. Vernon A. Young, head of the range and forestry department, is shown with the plaque awarded by the ASRM to the outstanding range and forestry school in the state. This is the second year in a row that the A&M department has received the plaque.
