## SOMEBODY'S BOYS...

The iron-barred doors of a prison are about to close on these two lads whose misdeeds have gotten them into serious trouble.

Their names and offenses are matters of minor importance. The important fact is that they are somebody's boys whose feet have strayed into wrong paths and who must now pay the penalty of crime.

A few years ago these lads were the pride of their parents and the joy of two households. Today they are objects of shame, as they climb the steps of the jail to a waiting prison cell.

What can be done about the great curse of delinquency that has fallen upon our youth? There is but one answer—an awakening of the parenthood of America.

Parents must go back to the Church, back to the Bible, back to God—if they would save their children from the evil that is so prevalent in modern life.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**Official Notice**

The Engineering Drawing Department will offer a new survey course in engineering graphics, E.D. 302, beginning with the Spring Semester 1954. This course has been set up as a technical elective for engineering and science majors who have had E.D. 105 and E.D. 106, or the equivalent, and who wish to expand their ability to apply the graphical method of attack in solving scientific problems. This course will give the student a background knowledge so that he may select the most economical approach, either algebraic or graphical, in solving his technological problems.

Students who are interested in enrolling for this course should leave their names at the Engineering Drawing Office, Room C, Anchor Hall.

W. E. Street  
Engineering Drawing Department

All students who are on scholastic probation or class attendance probation for the fall semester, 1953, and all students passing less than 12 hours or making less than 12 grade points at the end of the fall semester must secure approval of their respective deans to register for the spring semester 1954. The several deans or their representatives will interview such students in their offices on Thursday and Friday, January 28 and 29, 1954.

H. L. Heaton  
Registrar

Administration 601, "College Teaching," which carries two hours of graduate credit will be offered in the spring semester for faculty members and interested graduate students who expect to do college teaching. The course will be under the direction of Professor A. R. Burgess, Head of the Department of Industrial Engineering. The first meeting of this class has been scheduled for 4:00 p.m., Thursday, February 4, in Room 207 of the New Engineering Building.

The course will be conducted principally as a seminar, dealing in turn with the effective use of various teaching techniques. Consultants from several agencies on the campus will be drawn on for the benefit of their specialized experience. Topics to be included in this course are: Principles of learning, the class room lecture, conference type teaching, problem solving and the case method, laboratory instruction, effective use of the library, visual aids, and the design and grading of examinations.

J. G. McGuire, Chairman  
Committee on the Development of Teaching Personnel
