

Addison, Martin Switch For Rest of Season

James Addison, after dunking in 62 points in the last two games, has moved into the Aggie varsity basketball team's center slot for the rest of the season.

Coach John Floyd said that he has moved Addison into Roy Martin's center spot for the season's

four remaining games. Martin will replace Addison at a forward post. After his 36 point spree against SMU, Addison was moved to center for the Texas game and dumped in 26 points.

The Cadets play TCU in Fort Worth Saturday night.

After a 43-58 loss to the Texas freshmen Tuesday night, the Fish wait until Feb. 26 to swing back into action. They play Wharton junior college here, their only remaining home game.

The freshmen now have a 6-4 season record, all of their losses coming on the road. They close out the season March 1 in Waco against the Baylor Cubs.

The varsity is scheduled for a long workout today for the game with the team that had won two Southwest conference titles and tied for another in the last three seasons. This year the Frogs have been troubled by injuries to their "big" men—Center Hank Ohlen and Forward Ray Warren.

Frogs Out of Race

TCU, like the Cadets, is out of the race this season. The Frogs have a 4-5 conference record after beating SMU, 73-65, last night. A&M has a 1-3 SWC mark and a 2-16 season record.

Ohlen didn't suit up for SMU because of an ankle injury, and Warren, slowed by a knee injury, played less than a half.

A&M only has home games left with Arkansas Monday night and Houston Wednesday night, making for a busy schedule of three games in five days. The U of H game is a non-conference contest.

Fish Swimmers Meet Houston, SA Teams

Unbeaten in two starts, the Fish swimming team meets the San Antonio aquatic club and the Houston YMCA Saturday in P. L. Downs jr. natatorium.

Starting time is 2:30 p. m. The freshmen won a triangular meet with the two earlier in the season and defeated the University of Texas Shorthorns last Saturday.

A&M's varsity swimmers, beaten by the Longhorns Saturday, may meet St. Thomas college of St. Paul, Minn., in the natatorium after the freshman meet. No word has been received yet from the Minnesota squad.

The varsity has beaten Emory university, Georgia Tech and Northwestern Louisiana State and has lost to Florida, Florida State and Texas.

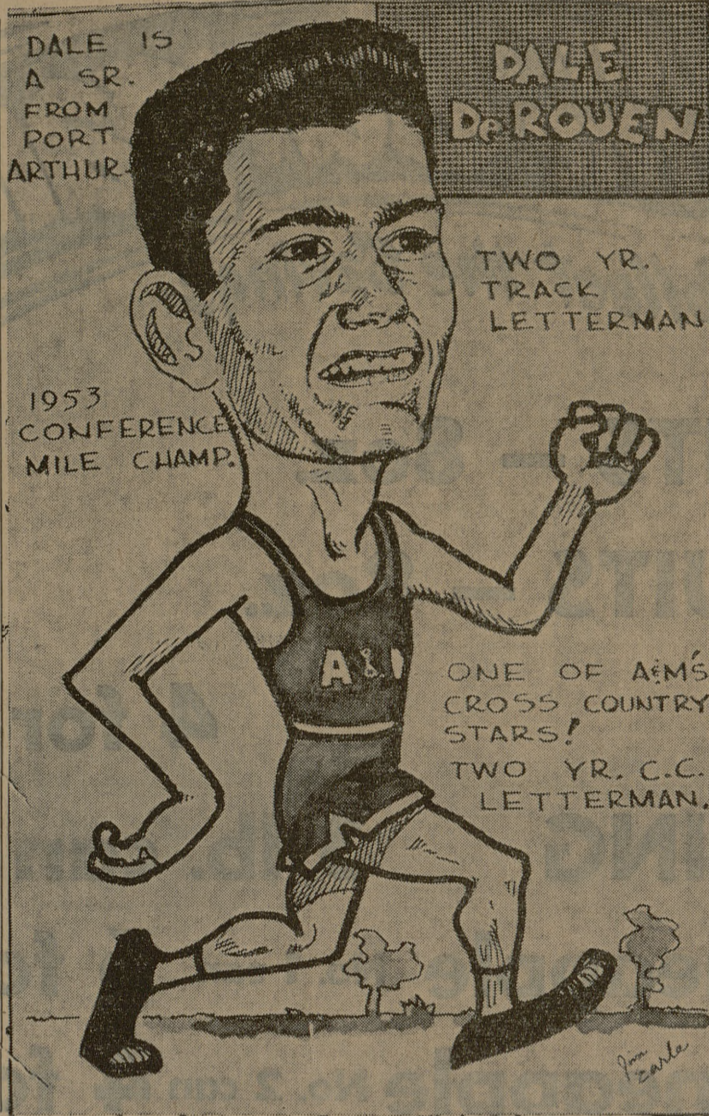

Both varsity and Fish will meet the SMU varsity and frosh here Feb. 27. The freshmen also swim against the Little Rock, Ark., Boys club here March 6 and against the

Texas Tech freshmen in Lubbock March 20.

Ripey Woodard, state 200 yard freestyle champ at Houston's Lamar high school, has joined the Fish. Richard Hunkler and Norman Ufer are other high school champions on the freshman squad. Hunkler won the 100 yard freestyle at Houston's Reagan, and Ufer took the 100 yard backstroke title.

Tom Barlow was third in the state in the backstroke, and Wally Penberthy placed second in the breaststroke while at Bryan high school.

Bruce Martin goes after his third straight victory of the season in diving. Breaststroker Jerry Marchbanks won the freshman intramural title in that event last semester.

For District Crown

CHS Takes On Tomball Tonight

Sporting a glittering 21-3 season record, A&M Consolidated high school tonight plays Tomball in the second of a two-out-of-three series for the district 25-A basketball title.

Game time is 8 p. m. in Tomball. Consolidated scored an easy 49-28 win here in the series opener Tuesday night. If Tomball wins tonight, the third game will be played tomorrow night in Sealy.

Yesterday the Tigers went through a brisk workout. Coach Jim Bevans will start his regular line-up of Pinky Cooner, David Bonnen, Bobby Jackson, Fred Anderson and J. B. Carroll.

Jackson is the leading Tiger scorer, with 345 points and a 14.4 season average. In the last seven

games, he has marked up 140 points for an even 20 point scoring average.

Consolidated gets the role of favorite after their easy win in the first game of the series. Jackson's work under the basket and on the backboards and Anderson's set shots give the Tigers a decided edge. Anderson and J. B. Carroll have developed into two hustling ball-hawks.

Anderson has scored 216 points for a 9 point scoring average.

Other scoring totals are: Bonnen 187 and a 9 point average; Cooner 159 points and a 6.6 average; Carroll-113 and a 4.7 average; Roland Beasley-87 points and a 4.6 average.

Col. 'Andy' Says —

Ag Victory Chances 'Slim' In All-Star Track Meet

Chances for an A&M victory in Saturday's dual track and field meet with the Mexico national all-stars are very slim, said Track Coach Frank G. Anderson.

The Mexican men's team would be that country's representatives in the Olympic games if they were played this year. The 29-member male and female squad has Mexico's national champion in 15 events.

Sponsored by the College Station Kiwanis club, the meet begins at 2:30 p. m. in Kyle field. Tickets are 50 cents for adults and 25 cents for students. The admission charge is to help the Mexican team pay its expenses, said Anderson.

Events in Metric Distances

All events will be staged in metric distances under Olympic rules and regulations.

The women's team will meet the Gulf Coast Women's AAU team. Saturday's competition will be Mexico's warm-up for the Central American track meet in Mexico City in about three weeks.

Over a half-dozen stars on A&M's Southwest conference championship team of last season have graduated. Anderson said that Bobby Gross is his only entrant who has surpassed Mexican efforts in any event this year. Gross competes in the shot put and discus.

Two members of Mexico's team Jorge Aquirre and Esther Villalon—hold three national records each. Aquirre is champion in the broad jump, high jump and hop, step and jump. Miss Villalon holds the record in the 50, 100 and 200 meters.

AAA Wins 5-0 In Table Tennis

Intramural ping pong competition started Tuesday for 12 units as the first session of spring semester table tennis got underway in the Memorial Student Center.

A anti-aircraft shut out squadron 13, 5-0, in the day's most one-sided contest.

Other results are: Squadron 19 over company I, 4-1; Squadron 10 over B field artillery, 3-2; Maroon band over squadron 3, 3-2; A quartermaster over squadron 5, 3-2.

To the E.E. or Physics Graduate with experience in Radar or Electronics

Here's a new kind of career

Hughes Research and Development Laboratories are engaged in a continuing program for design and manufacture of advanced radar and fire control systems in military all-weather fighters and interceptors.

YOU WILL serve as technical advisor in the field to companies and government agencies using Hughes equipment.

TO BROADEN your field of experience in radar and electronics you will receive additional training at full pay in the Hughes Laboratories to become thoroughly familiar with Hughes radar and fire control equipment.

AFTER TRAINING you will be the Hughes representative at a company where our equipment is installed; or you will advise in the operation of Hughes equipment at a military base.

THE GREATEST advancements in electronics are being made in this sphere because of military emphasis. Men now under 35 years of age will find this activity can fit them for future application of highly advanced electronic equipment.

How to apply: Consult your Placement Officer for appointment with a member of our Engineering Staff who will visit your campus.
