# McCarthy

(Continued from Page 1)  
is worried over a connection with the Moscow University and about exposure of some of his friends.

For Flanders, who gave McCarthy the roughest going-over he had received from any Senate Republican, the Wisconsin senator had only a brief comeback at the end of the program.

He said Flanders had said he, McCarthy, was diverting attention from communism abroad by his methods at home. Lincoln, McCarthy said, once remarked that all the armies of Europe and Asia couldn't make one track on the Blue Ridge and any destruction of this nation will come from within. McCarthy said he thought he would go along with Lincoln on that.

President Eisenhower told a news conference Wednesday it was a service for Flanders to point out dangers of a split party and the dangers of magnifying such things as "personal agrandizement . . . to the point that we are endangering the program of action . . . we are trying to put across."

**AN EXPERIMENT IN RELIGION**

We met a chemist some years ago who was planning to experiment with religion.

"Some Sunday," he said, "I'm going to go to Church and see if it makes any difference in my life."

"Doctor," we asked (for he had a number of degrees), "How does a chemist begin his experiments in a new field?"

"With research," came the reply. "He studies the findings of other men in that field—determines what has been proven—what is unknown."

"That's a good way to begin your experiment with religion," we suggested. "It would hardly be 'scientific' to judge Christianity, or your need for it, on the basis of one visit to Church. But a few months of faithful attendance, and many thoughtful evenings with the Bible will give you a clear understanding of what others have found in Christianity. You'll discover spiritual truths which centuries of experience have proven, and gain a faith that can bridge the Unknown."

At last report, our chemist was making fine progress in his experiment. In fact, he no longer thinks of his religion as experimental!

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For the sake of his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
