

'Applepolishing' To Get New Name In Batt Contest

"Applepolishing night" is on the schedule again, this time at a new time and with plans for a new name.

The night, planned by the student-faculty relations committee of the student life committee, is designed to bring faculty and students close together by having the professors invite students to their homes.

It will be Tuesday, April 27. The committee originally scheduled the night for last night, but the date was changed because of federal inspection, said Carl Landiss, chairman of the committee.

The Battalion will sponsor a contest next Wednesday to suggest a new name for the night. The contest will be held in the Memorial Student Center lobby.

"Too many people felt the name 'Applepolishing' was not right," Landiss said.

This is the way the night will operate:

Professors who want to invite students to their homes will fill a card in the student activities office, saying how many students they want, the hours, and how to get to their home.

Students will go to the student activities office and sign the card of the professor they would like to visit.

When a professor's card is filled, it will be returned to him so he will know how many students to expect.

Faculty members, staff members and administration personnel are invited to take part in the program, as well as all students, Landiss said.

Landiss sent out questionnaires to faculty members before the Christmas holidays. He said 115 of the replies were favorable to the plan and 23 were unfavorable.

"If it works this year we will try to make it an annual affair," he said.

Other members of the committee are T. B. Fields, Carroll Phillips, Bob Boriskie and Harri Baker.

Kiwanis Club Hears Panel On Government

A panel discussion on "The Future of World Government" was given yesterday to the College Station Kiwanis club.

The program was presented by the Memorial Student Center forum committee.

Bud Whitney, chairman of the MSC forum committee, served as moderator while the panel included Dr. Robert G. Laver, department of economics; Dr. J. M. Nance, department of history; Jim Morton and John Samuels, president of the MSC council.

Laver and Samuels took the affirmative while Nance and Morton supported the negative.

This panel discussion was recorded and will be played back over radio station WTAW Thursday at 5 p. m.

A short skit was given Dr. Luther Jones and Phillip Goode, professor of business administration, showing their "lofty idea of the Aggies of College Station." Accompanying Jones and Goode was Mrs. Bill Booth at the piano.

UT Students Act Against McCarthy

AUSTIN, March 31—(AP)—A group of University of Texas students prepared yesterday to circulate petitions among the student body to protest against the scheduled San Jacinto Day speech in Houston of Sen. Joseph McCarthy R-Wis.

The movement was started Tuesday night by about 20 students. Another meeting was called tonight by student President Franklin Spears of San Antonio.

The San Jacinto Chapter of the Sons of the Republic invited McCarthy to make the San Jacinto Day speech.

Army Graduates May Enter Flying

Graduating army seniors may volunteer for army aviation flight training after they have completed their basic training, according to information released by the military department.

Army ROTC graduates who are commissioned in the air force must agree to serve three years on active duty, including time spent in training.

A&M Leading Texas Colleges In Safety

A&M is doing more than any other Texas college in safety education according to the Texas Safety association, said Bennie Zinn, assistant dean of men.

Zinn attended a meeting of the association in Dallas last week.

Zinn made the statement yesterday at a meeting of the accident prevention committee of the college. About half of the committee members attended.

The committee decided to place a stop sign on the southwest corner of Lamar and Spence streets. This sign is an extra one which Howard Badgett, manager of physical plants, had on hand. The placement will be only temporary until the committee on traffic safety has time to meet and make a formal recommendation to the president.

Committeeman Roy C. Garrett of the agricultural engineering department said he would "rather see the stop sign put up now than in memory to somebody."

Progress has been made in clearing obstructions such as holes, ditches, low hanging limbs, and low electrical wiring, Zinn said. Much work has been done to promote safer practices in the handling of chemicals on the college farm, he said.

The committee will meet the week after the Easter holidays. Chairman Zinn asked the members to consider at the next meeting changes in the composition of the committee and the possibility of getting a college safety coordinator.

Academy of Science To Begin Friday

Lectures, movies and demonstrations will be the program here Friday and Saturday at the spring meeting of the Texas Academy of Science.

About 400 visitors are expected, according to Dr. C. C. Doak, head of the biology department and a director of the Academy. He said the annual conference of Texas high school science teachers will be held at the same time.

Dr. Conway W. Snyder, a nuclear physicist from the Oak Ridge National Laboratories, will offer one of the highlights of the two-day meeting. He will present an illustrated lecture at 11 a. m. Saturday on "Atomic Energy for Space Travel."

Joe Harris of San Antonio is president of the group. He reported at a recent directors' meeting that membership has shown a marked increase during the past year.

Dr. Orville Wags, nationally-known bacteriologist at the University of Texas, will address the convention after a Friday night dinner on "Integration of Young Scientists into the Texas Science Team."

Research papers will be presented in three divisions: high school students, college undergraduates, and graduate students and teachers. Doak is coordinator for the entire program. Dr. James G. Potter of the physics department is in charge of the teachers conference.

AND SIX OTHERS—Miss Carmen Hinds of Fort Worth will highlight the Friday night performance of Cafet Rue Pinalle in the MSC. On the program with Miss Hinds will be a chorus line of six girls. The Capers Combo will furnish dance music.

Who Inspects Inspectors Anyhow?

Everybody, and that means everybody, is going to have to get a haircut for federal inspection.

Maj. Basil Hoyle was teaching a junior air science class yesterday. At the end of the class period, he said that he would check everyone as they left the class to see if they needed a haircut.

As the last man walked out, Hoyle said, "And you'll have to get one."

That was fine, except the last man was air science instructor Capt. C. B. Doleac, who had been sitting in on the class.

Aggies Reminded About Sign Use

Students using signs in student elections should not tape signs to the walls, said Pete Hardesty, assistant director of student activities.

College regulations prohibit the use of tape on walls or nails driven into trees, posts, or walls, Hardesty said.

Last year the student senate recommended that no signs be used in student elections. Members of the senate felt that the signs were cluttering up the campus with cheap publicity and that the campaign should be on the basis of how well the candidate presents himself to the students.

Signs used in election campaigns should not exceed three by five feet according to college regulations. Parades, concerts and other campaign stunts are permitted during non-class and non-study hours.

Bryan Planning Armed Forces Day

A&M is making no special plans for Armed Forces Day, May 15, said Lt. Col. Taylor Wilkins, assistant commandant.

The Mother's Day review takes the place of any Armed Forces Day activities, he said.

The day is set aside by presidential proclamation to pay tribute to the nation's armed forces.

There will be an Armed Forces Day parade in Bryan. A committee of officials from A&M, Allen Military Academy, Bryan Air Force Base and the National Guard units will begin planning on the parade soon, said Jack Springer, manager of the Bryan Chamber of Commerce.

Non-Regs Organize For Elections Race

Non-regs at A&M have organized in an effort to obtain better representation in student government, a spokesman for the group told The Battalion yesterday.

Aimed at coordinating the non-military students of the college, the move is "a protest against unequal civilian representation on college committees as compared with corps representation," the spokesman said.

Students Offered Navy Job Training

Opportunity is being provided by the U. S. Navy hydrographic office for students in the engineering, geology, biology and meteorology to combine on-the-job training for about \$250 a month with their academic program of study.

"This is made possible through the student aid trainee program of the Potomac river command which employs students who qualify by taking civil service examinations in their fields," said Dr. Dale F. Lepper, head of the oceanography department. Employment is arranged to alternate with campus academic work throughout the year.

Agronomy Group To Appear on TV

Several agronomy students will appear on television, April 14, said Dr. J. E. Adams, head of the agronomy department.

The director of KPRC-TV has notified Adams that the students making the agronomy tour April 10-14 will be served a box lunch April 14, by the station. Several of the best speakers will be interviewed for the noon program, RFD-TV.

The tour will be taken by the junior and senior Agronomy students.

Weyland Will Hear Talk About His Life

Gen. Otto P. Weyland, A&M's highest ranking former student, is going to hear a commentary on his life at A&M from his roommate of the class of 1923 tomorrow at a luncheon given in his honor by President David H. Morgan.

Dewitt Greer, Texas highway engineer, will tell the 65 guests at the luncheon what happened while he was the general's roommate.

Weyland will give a response to Greer's commentary.

Greer will be introduced by Chancellor M. T. Harrington. Mor-

Military Inspectors Arriving On Campus Inspect Classes Today, Tomorrow

Will He Pass An Inspection Now, Major?

Tommy Hendricks, sophomore from Odessa, sat down in the barber's chair and gave him instructions for his haircut. The barber cut Hendricks' hair to his directions and asked him how he liked it.

Hendricks took a look and nodded approval.

A major in the military department, aware of the coming federal inspection, also checked the haircut from his seat beside Hendricks.

"Looks pretty shaggy," he said.

Without a word the barber promptly trimmed the duck-tails and sideburns, then said "next."

Deadline Set Today On Dorm Ticket Sale

Today is the last day for buying Sophomore ball tickets from the dormitory representatives.

After today, tickets will be sold in the office of student activities and at the door of the hall.

Members of the military inspection teams for federal inspection today and tomorrow began arriving on the campus yesterday afternoon.

Today the officers will inspect classrooms, records, files and facilities. Tomorrow they will continue these inspections and also inspect cadet rooms from 8 to 10 a. m.

Cadets will be excused from classes for these two hours.

The inspection will end with a critique after a corps review tomorrow at 4 p. m.

Gen. O. P. Weyland, '23, former commander of the Far East air force, will be guest of honor at the review.

Head of the army board for the federal inspection will be

Col. Thomas C. Green, deputy chief of the Texas military district. Head of the air force board will be Col. Franklin G. Pruyn.

Each dormitory will be inspected by an inspecting officer, a military instructor, the military counselor, and a cadet officer.

Dormitories and the inspecting party for each are as follows:

Dormitory 1: Maj. Thompson, Maj. Parrish, Capt. Trant, Cadet Lt. Col. Carl Wilson.

Dormitory 3: Maj. McInerney, Maj. Waddell, Capt. Trant, Cadet Lt. Col. William Dark.

Dormitory 5: Maj. C. W. Coyne, Maj. Brown, Capt. Shipley, Cadet Lt. Col. Bruce Sterzing.

Dormitory 6: Maj. Klerk, Capt. Mitchell, Maj. Goff, Cadet Lt. Col. Bill Wiseman.

Dormitory 7: Lt. Col. Gates, Lt. Col. Phillips, Capt. Shipley, Cadet Lt. Col. W. R. Bowdoin.

Dormitory 8: Capt. Robinson, Maj. McCannon, Maj. Goff, Cadet Lt. Col. Duane Scott.

Dormitory 9: Lt. Col. Sasse, Maj. Winder, Lt. Neelley, Cadet Lt. Col. Jack Garrett.

Dormitory 10: Lt. Col. Thompson, Maj. Westbrook, Lt. Neelley, Lt. Col. Larry Hoffman.

Dormitory 11: Lt. Col. Killman, Maj. Birkner, Lt. Col. Adams, Cadet Lt. Col. Dick Porter.

Dormitory 12: Col. Pruyn, Col. Way, Maj. Taylor, Cadet Lt. Col. Leonard Eddy.

Hart hall: Maj. Saxby, Maj. Sims, Maj. Davis, Maj. Willets, Lt. Cashion, Cadet Maj. Eric Miller.

Dormitory 14: Capt. Farrell, Maj. Burt, Capt. Sparks, Cadet Lt. Col. E. L. Thompson.

Dormitory 15: Capt. Laird, Maj. Lowell, Capt. Crow, Cadet Lt. Col. Phil Jacobs.

Dormitory 16: Lt. James, Maj. Franks, Capt. Brusse, Cadet Lt. Col. Bob Manner.

Dormitory 17: Engineer inspector, Capt. Thigpin, Capt. Coffey, Cadet Lt. Col. J. M. Hickman.

Walton hall: Maj. Mathis, Maj. Schelter, Maj. Emerson, Capt. Bloom, Lt. Col. Melcher, Cadet Lt. Col. T. H. Keese.

Law hall: Col. R. R. Danek, Capt. McNeil, Capt. Byrd, Cadet Lt. Col. George Skladal.

Purvey hall: Maj. Cooper, Capt. Phillips, Capt. Byrd, Cadet Lt. Col. R. D. Hickman.

Milner hall: Lt. Col. Cox, Lt. Col. Hall, Lt. Col. Vaden, and Cadet Lt. Col. Terry Wilson.

Davidson Lectures To Air Reservists

Second Lt. Steve E. Davidson delivered a lecture on radiological defense planning at the Monday night meeting of the 9807th air reserve squadron.

Davidson described the results on an atomic explosion in an area and explained how the survivors could mobilize to recover. The members were divided into groups to discuss and make recommendations on a theoretical problem for mobilizing the survivors of a bombed air base for quick recovery.

Weather Today

Continued cloudy today and tomorrow. Possible showers and thunderstorms late today. Clearing slightly early tomorrow. High yesterday 71; low this morning, 47.

THAT'S A BEAR!

ATLANTA—(AP)—J. Paul Cobb was driving along a highway in South Georgia when he banged into a 250-pound black bear. The impact killed the animal and threw Cobb's car against a bridge railing. After raking the bridge for many yards, it cost him \$1,090 to get his car back in shape.
