COLLEGE STATION, TEXAS, TUESDAY, JUNE 22, 1954

Price 5 Cents

Morgan Welcomes School Men Mon.

Ed H. Morgan gave welcome yesterday assembly session reference to be held 11-23. More than and school women

from all over Texas are due to attend the sessions.

A general assembly of all three groups will be held each morning beginning at 8:45 in the ballroom of the Memorial Student Center. The groups then will meet in separate sessions.

George B. Wilcox, head of A&M's education and psychology department, is general chairman of the conference.

The conference will mark the 18th annual meeting of the Texas School Administration Conference, James Taylor, superintendent, Katy public schools, president; the 29th meeting of the Texas Association of County Superintendents, Beeman Justice, superintendent, Nacogdoches county schools, president; and the fourth meeting of the Texas Association for Instructional Supervisors, James Sartain, supervisor, high schools, Dallas, president.

A nationally known educator, Dr. H. I. Willett, will deliver the opening address at the general assembly of the conference. He is superintendent of the Richmond, Va., public schools.

Battle For Guatemala Begins To Shape Up

TEGUCIGALPA, Honduras—(AP) A major fight in the battle for Guatemala appeared to be shaping up Monday at Zacapa, twenty miles inside Guatemala.

Troops of the leftist government of President Jacobo Arbenz Guzman were reported in Associated Press dispatches from Guatemala Monday night to be assembling in the area of Zacapa, a city of 8,000 population on the main railroad between the capital and the Caribbean port of Puerto Barrios.

In Washington, the Inter-American Peace Commission agreed to a last-minute Guatemalan request to suspend temporarily its consideration of a Guatemalan complaint alleging a "foreign aggression" against her.

The anti-Communist rebel flier, interviewed at Nueva Ocotepeque, in Honduras near the border, said troops of the "Liberation Army" were moving by truck toward Chiquimula and Zacapa. He said a main battle may be fought at Zacapa.

The rebels announced Monday their planes also had bombed Co-

ban, a garrison town in Central Guatemala, from a base inside the country.

The flier at Nueva Ocotepeque said a 5-hour battle was fought Sunday for possession of Esquipulas, a cathedral town five miles from the border, and the invaders began moving on Zacapa after that victory.

Three Guatemalan soldiers were killed in the battle, he reported, while the invasion forces suffered no casualties. He added that 500 Guatemalan citizens, including some soldiers, joined the rebels at Esquipulas, and joined in the march of Zacapa after receiving arms.

He reported leaflets containing an ultimatum for the surrender of Zacapa and Chiquimula had been dropped at both places by rebel planes.

Private reports reaching Guatemala City said renewed fighting had broken out Monday at Puerto Barrios, which the rebels have been trying to take since the invasion started.

Dance, Movie Highlight Week's Entertainment

Tonight's MSC Sock-Hop is expected to draw an even larger crowd than did last Tuesday's Stag and Hag shag, Mrs. Helen Atterbury, MSC secretary, said yesterday.

The dance is the second in a series planned by the MSC entertainment committee, headed by Gary Bourgeois, for the summer school session.

Prizes will be given the boy and girl wearing the best matched socks, the gaudiest socks, and the most original socks.

Juke Box Music Music for tonight's Sock Hop will be provided by the juke box.

A&M Dairymen Attending Meeting

Three members of the A&M dairy husbandry department staff will attend the annual meeting of the American Dairy Science Association at Pennsylvania State College June 22-24.

They are Dr. I. W. Rupel, head of the department, Dr. C. W. Van der Zant and Dr. I. I. Peters.

Dr. Rupel is a member of the association's committee for revision of the constitution and by-laws; chairman of the Dairy Cattle Type Committee of the joint production and extension divisions; a member of the curriculum committee; a member of the production section of the resolutions committee; and a former member of the editorial board.

Dr. Peters is a member of the association's committee on junior affiliates—such as the college's Cream and Kow Klub.

En route to and returning from the meeting, Dr. Rupel also will inspect two Holstein bulls, one in Indiana and one in Michigan, for possible addition to the department's Breeding Center, and will spend two days doing classification work for the American Dairy Cattle Club in northern Ohio.

Allen Academy Now Enrolling Fall Students

Allen Military Academy of Bryan is now enrolling students for the fall term, Col. Tom Wallis, the school's representative in Houston said Monday.

Classes at Allen start with the seventh grade and continue through the second year of junior college. The students are given close personal attention of the instructors, which is only possible because of the small classes, according to Colonel Wallis.

In addition, each student gets military training that stresses giving and obeying orders, drill, handling of firearms and field maneuvers.

CHS Library Program Will End Sept. 1

Sponsored by the Recreation Council and the public school, the summer library program at the A&M Consolidated High School library opened June 14 and will continue until the opening of school in September. The hours are from 8 a.m. to 12 noon, Monday through Friday.

Books from all rooms in the Elementary School have been assembled in the High School Library, where, according to Mrs. J. T. Duncan, librarian, the young readers are spending hours daily around the tables with their favorite story-book characters. Fast readers may check out as many as five books at a time, to be kept for as long as two weeks. Many children, preferring to come in often, check out fewer books which they pick up and return on their way to other phases of the recreation program.

One Polio Case Reported This Year

Only one case of polio has been reported in Brazos County this year, officials of the Brazos County Health Unit reported yesterday.

Rhonda Breedlove, 2, daughter of Mr. and Mrs. H. A. Breedlove of College View, became ill on May 7. Her case was diagnosed as polio May 14. She was rushed to Houston for immediate treatment. Rhonda became paralyzed in the right shoulder and below the waist. The Health Unit officials said they did not know her condition at this time.

Dress, of course, will be informal. Unlike last week's dance, Mrs. Atterbury says that dating is the order for the Sock Hop. She emphasizes, however, that everyone should come, daters, stags, and married couples alike.

Starting time for the stomp is 8:00 o'clock immediately after the concert on the Starlight Terrace.

Film Society Movie Thursday evening the Film Society will present its second presentation of the summer with a showing of "The Count of Monte Cristo" at 7:30 o'clock in the ballroom.

Starring Robert Donat, Elissa Landi, and William Farnum, the movie is a thrilling spectacle of swashbuckling swordplay and mid-eval romance.

Burchard Returns Saturday From Press Meeting

D. D. Burchard, head of the A&M journalism department, returned from Ft. Worth Saturday after attending the 75th Anniversary Convention of the Texas Press Association held at the Hotel Texas, June 17-19.

Attending the convention with Burchard were his daughter, Betsy, and Jim Ashlock, A&M senior journalism student.

Top speaker for the occasion was Phil North, assistant managing editor of the Fort Worth Star Telegram. Other speakers at the convention were Governor Allan Shivers; Mrs. Oveta Culp Hobby, state secretary of health, education, and welfare; and Rilea Doe, vice president of Safeway Stores, Incorporated.

W. R. Beaumier, publisher of the Lufkin Daily News, was elected president of the association for the coming year. Next year's meeting for the annual convention will be at Galveston.

Correction Noted On Bicycle Sale

Walter F. Berndt, assistant auditor, has called attention to an error in the last edition of The Battalion.

The Battalion said that bids on 99 bicycles and assorted parts would be received in the office of the auditor until June 28.

According to Berndt, the bicycles were actually sold June 14.

Oceanography Experts Plan Caribbean Cruise

The "A. A. Jakkula," a seagoing research vessel belonging to the A&M Research Foundation, is scheduled to sail for the Caribbean Sea July 1, according to George B. Austin, chief scientist.

Austin said the main objective of the cruise is to study the bathymetric features of a sill which lies in the Yucatan Channel between

the island of Cuba and the Yucatan Peninsula.

He also said that to his knowledge this sill has never been clearly defined.

The study of water movements which go to make up the Florida current of the Gulf Stream system will receive secondary attention. Other studies which will be made are chemical and biological features of the Caribbean Sea.

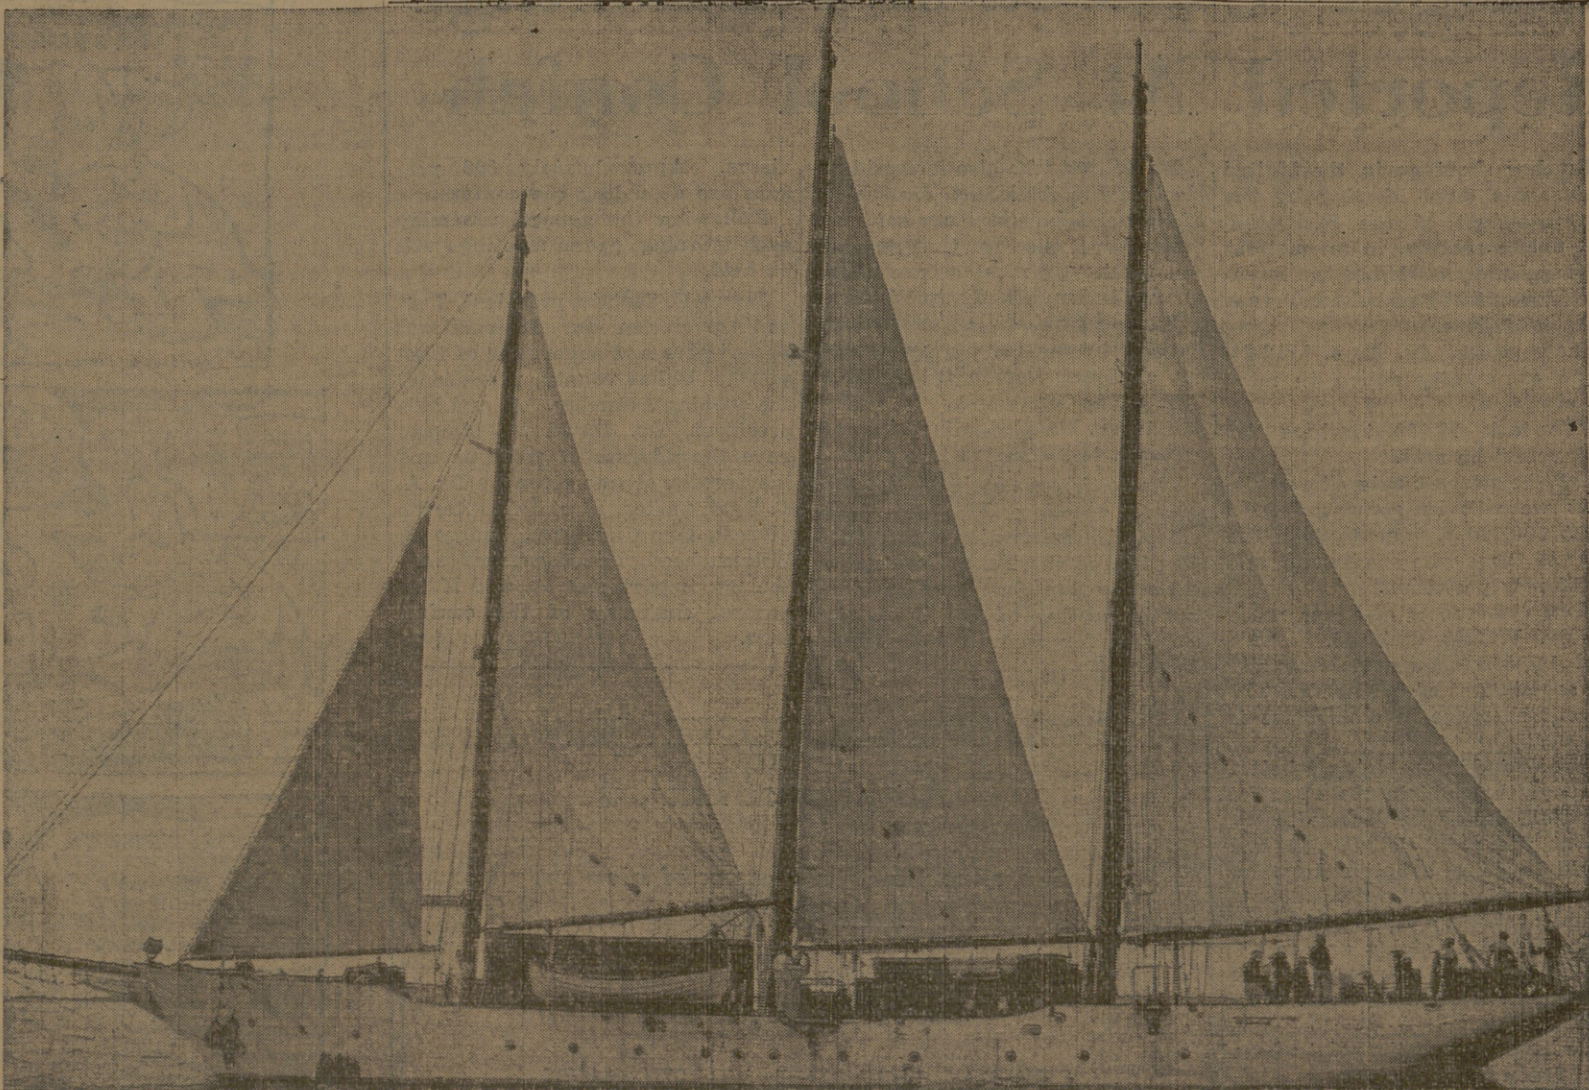

The Jakkula is scheduled to stop in Kingston and Jamaica for three days and in Havana, Cuba, for three days in order to take on fuel and supplies.

Members of this cruise are George B. Austin, chief scientist; Dr. John Barlow, biological oceanographer; Dr. Donald Hood, chemical oceanographer; Carter Sparger, physical oceanographer; Joseph Howe, chief marine technician; Phil Moore, marine technician; and three students, Martin Budkhead, George Boyett, and Robert Manning.

\$500 Oceanography Scholarship Offered

A \$500 scholarship will be awarded annually by the Texas A. & M. Research Foundation to a junior or senior student majoring in the meteorology option, it has been announced by the Oceanography Department.

Students with two years in engineering, physics, chemistry or mathematics may be eligible to begin the meteorology program and qualify for this scholarship. Applications may be filed with the Oceanography Department.

A. A. JAKKULA—The large research vessel owned by the A&M Research Foundation and operated by the Oceanography Department, the A. A. Jakkula, will set sail July 1 for the Caribbean Sea with a crew of Oceanography ex-

perts aboard. Research will concern geology of the Caribbean's floor and also the Gulf Stream in the vicinity of Florida.
