Registration at A&M Concolidated school will be at 8:30 a.m. Thursday, according to L. S. Richardson, superintendent. High school students will register in the gymnasium; grades five through eight, in the old high school; and grades one through four, in the elementary school. Classes will begin Friday morning at 8:30.

The opening of the fall semester has been delayed by the reshuffling of all upper grades into different buildings. The four high school classes will move into the new high school The number of unemployed job building, which is rapidly nearing completion and is expected seekers registered with the Bryan to be ready for occupancy by registration day.

The seventh and eighth grades will move into the present high school building, and taking over the junior high school building will be the fifth and sixth grades. Lower grades will occupy all the elementary classrooms.

School will be in session until June 1, 1955. Holidays will be Nov. 25 and 26, Dec. 20 through Jan. 2, and March 7 through 11.

Two new courses will be added to the high school curriculum. One, vocational agriculture, will be taught by nearby communities. Cotton har- in August, in fact one of the best Charles Byrd, whose wife has been on the staff for several years as teacher of home economics.

Byrd comes to the high school from A&M's basic division where he served as dorm counselor. He graduated from A&M in 1937 and has taught vocational agriculture at Nacogdoches and Denton. The state approval agency approved Byrd's credentials and salary at the beginning of the summer vacation.

Mrs. Marshall Frazier will be speech therapist for the system. She will not join the staff until mid-semester, because she will be in clinical practice in the Southwest Texas State Teachers College speech theapy unit at San Marcos until that time.

In addition to these, six other new teachers have been added to the Consolidated faculty. There will be two new teachers and one temporary replacement for the Negro school.

A. R. Orr joins his wife in teaching mathematics in the high school; he will also teach physics. He recently retired from A&M after 11 years in the mechanical engineering department. Prior to that he served as a high school principal and school superintendent in several Oklahoma public schools

High school history and typing will be taught by William R. Miller, a June graduate of A&M, where he majored in business and accounting. He is a native of Calvert and served as a pilot in the
