Number 13: Volume 54

COLLEGE STATION, TEXAS / TUESDAY, NOVEMBER 9, 1954

Price 5 Cents

I, IA AF Seniors Flight Application Deadline Nov. 30

All category I and IA air science seniors who will graduate in May must file applications for flight training by Nov. 30 or be dropped from the air science program, according to the air science department.

Category I and IA students are those who indicated when they accepted an air ROTC contract that they would apply for pilot or observer training after graduation.

The directive from air ROTC headquarters says that these students will be considered as "not having fulfilled one of the requirements" if they do not apply for flight school.

Col. John A. Way, PAS, did not know whether students who do not file the applications would be dropped from air science immediately or allowed to finish the semester.

Category I and IA students who graduate after summer camp next summer must file the applications by Jan. 1, and those who graduate in August, 1955, must file by Jan. 30.

These students are also liable to discharge if they do not file the applications.

A&M has 178 category I air science seniors and 49 category IA seniors.

The rule does not apply to the 64 air science seniors in categories II, III, and IV. Category II is engineering students, category III is non-flying, non-technical students, and category IV is veterans.

Way urged the category I and IA students to turn in their applications as soon as possible, because those who turn in earlier applications are assigned to earlier flight classes.

Way also said he had "no reason to believe we can't commission" all air science graduates this year.

Housing Office Has SSS Test Applications

Applications for the Selective Service System college qualification test, Dec. 9, may be picked up in the housing office.

These applications must be filled out and mailed to Science Research associates, Chicago, Ill., by midnight, Nov. 23. Self-addressed envelopes are provided at the housing office.

The lower half of the application is mailed back, and this half has a ticket printed on it which the applicant for the test must present at the time of the examination.

To be eligible for the Selective Service tests, a student must meet the following requirements:

- Intend to request deferment as a student.

- Be satisfactorily pursuing a full-time course of instruction.

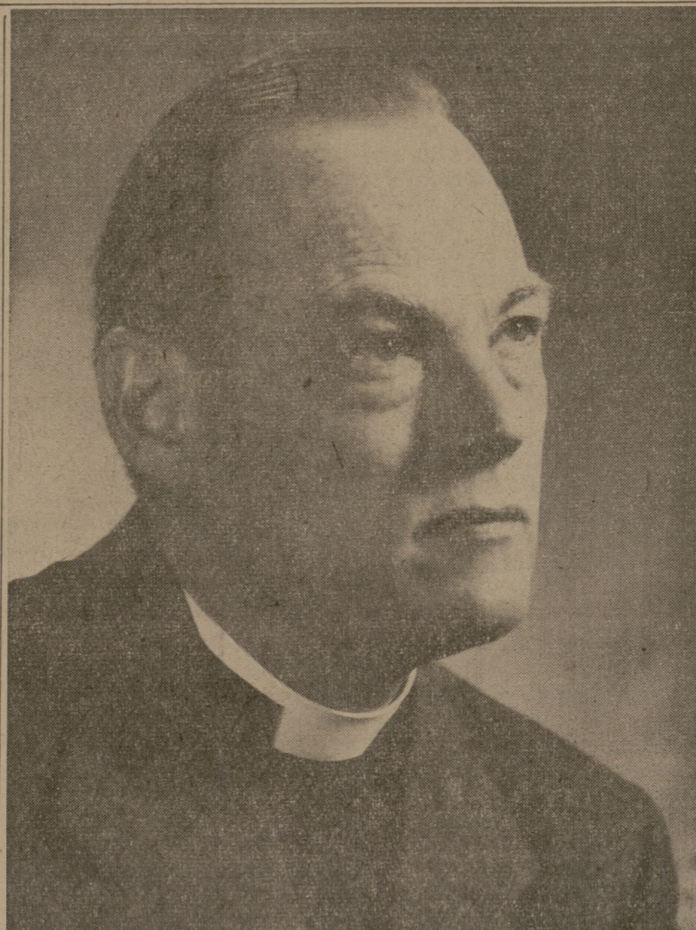

- Must not previously have taken the qualification test.

Present criteria for deferment as an undergraduate student are either a satisfactory score of at least 70 on the test, or specified rank among the male members of the class.

Local boards are not required to defer students meeting the criteria. If a local board refuses to defer a student meeting the criteria, he has the right to appeal his case.

TIMED—While Frank Ford cadet colonel of the corps, gives Aggie Sweetheart Judy Nuhn the traditional kiss at the corps trip football game (right picture), Frank Westmoreland and Larry Kennedy (above) time him with a stop watch and blank pistol. Ford claims he set a new record—36 seconds.

The Rev. William G. Pollard
"Secrecy, Security, and Science"

First Great Issues

Pollard Here Tomorrow

Dr. W. G. Pollard, executive director of Oak Ridge Institute of Nuclear Studies, will speak at 7:30 tomorrow night in the Memorial Student Center on "Secrecy, Security and Science."

Pollard is the year's first Great Issues speaker. This series is under the direction of the Great Issues committee, sponsored by the MSC council.

Besides being a noted scientist, Pollard is also very active in religion. He was vestryman and lay reader at St. Stephens church, Oak Ridge; postulant for Holy Order, Diocese of Tennessee, Episcopal;

Cafe Rue Pinalle Friday in MSC

Cafe Rue Pinalle will present entertainers from Huntsville Friday night from 8:30 p.m. until midnight yell practice.

The entertainers are Betty Treadway, vocalist; James Stokes, piano soloist; Schalamahr Brunson, dancer; and Ernie Martelino's combo.

Reservations can be made at the bowling alley desk in the Memorial Student Center.

Rue Pinalle will be held in the ping pong area of the MSC.

ordained deacon; ordained priest; member of the Guild of Scholars of the Episcopal church; and member of the editorial board for The Christian Scholar.

In science, Pollard holds a fellow in physics, Master of Arts and Doctor of Philosophy from Rice Institute; and Bachelor of Arts from the University of Tennessee; He has been an assistant professor and a professor of physics at Tennessee; research scientist at the Columbia university division of war research; member of the board of directors and acting executive director of the Oak Ridge Institute. He was appointed executive director in 1947.

Pollard is a member of Phi Kappa Phi, Phi Beta Kappa, Sigma Xi, and Sigma Pi Sigma, and received the 1950 distinguished service award of the Southern Association of Science and Industry.

Note of Thanks

The A&M student body received a note of appreciation yesterday from Mr. and Mrs. W. R. Taylor of Kilgore, parents of Bill Taylor who was killed in an automobile accident Oct. 23, for the sympathy and kindness expressed by A&M.

Since 1933, he has published 14 articles in various technical publications. He also has written many religious articles.

Pollard was married in 1932, and has four children, ages 20, 18, 15, and 13.

Iranian Man Visiting Here This Week

The commanding general of the Imperial Iranian air force will be staying at the Memorial Student Center tonight.

The commander, Maj. Gen. Hedayat Gullanshah, is on an inspection tour that includes Bryan air force base, but he requested that reservations be made for him at the MSC.

He arrived yesterday and will leave Wednesday.

During his stay, he will meet with Habiballah Nassr, an A&M entomology student from Iran. Nassr is A&M's only Iranian student.

China Leads List Of Post Graduates

Forty-five students from 19 foreign countries are enrolled in the graduate school at A&M.

China with 11 graduate students leads the list. Other countries represented are Argentina, Brazil, Cuba, Egypt, Holland, India, Iraq, Japan, Korea, Pakistan, Mexico, Panama, Puerto Rico, Philippines, Portugal, Spain, Italy and Paraguay.

Saturday Night

Two SMU Floats Burned

Two Southern Methodist university homecoming floats burned over the weekend, and Dallas police are checking on the license number of an automobile seen near one of the fires.

Two SMU students said they saw the car near the scene of one of the fires. They said the car had A&M decals on the rear window and the occupants were shouting "gig'em."

One of the fires caused an estimated \$500 damage to the float of Delta Delta Delta sorority. The float, which was parked in front of the DDD house on the campus, burned about 7:15 p.m. Saturday.

Dallas fire department officials said the fire had been set, and was not caused by spontaneous combus-

City Council Approves Sewerage Bond Issue

Election Dec. 1 Decides Proposed CS System

By RALPH COLE
Battalion City Editor

The College Station City council last night voted unanimously to hold a sewerage bond election Dec. 1.

The council voted bonds, if approved in election, up to \$300,000. All of the proposed bonds will not be issued unless necessary.

The sewer line is designed to serve all of the presently developed areas of the city and future development for the next 25 to 50 years along any of the watersheds south of the city.

It involves two outfall lines. One begins east of Consolidated school and runs east and southeast following the creek through the Dobrovoly property and continues along this creek to the disposal plant.

MSC Council Awaits Revised Constitution

The Constitution and By-Laws committee is in the process of re-writing the Memorial Student Center council constitution with recommended changes but deferred its report until the next council meeting, Doug Krueger said last night at the council meeting.

Each council member will receive a copy of the revised constitution before the next scheduled meeting, Krueger said.

In other action taken, the resignation of Jules Vixeu as chairman of the Film Society and the resignation of Jerry Schnepf from the constitution and by-laws committee were accepted by President Charles Parker.

A budget of \$75 was approved for a parliamentary procedure course with Mrs. Emmett Wallace of Bryan as instructor. The 12-hour course will meet for two hours three times weekly and will be open to both students and non-students with \$1 charged for students and \$3 for non-students.

The course would be especially beneficial to organization presidents who encounter difficulty in carrying out meetings in orderly procedures, Parker said. Responsibility for working out details of the course was turned over to the Forum Group.

Need for a course in etiquette was expressed by Dave Ashcroft, chairman of the etiquette committee, but permission to present a report at the next council meeting was requested.

Bud Whitney, chairman of the great issues committee, said arrangements are complete for the talk by Dr. W. G. Pollard, executive director of the Oak Ridge Institute of Nuclear Studies, who is the first speaker in the great issues series. "Secrecy, Security and Science" will be the topic of Dr. Pollard's talk Wednesday night in the MSC Ball Room.

The second line follows the present location from College Park southeast to the cemetery and then eastward to join the other outfall at the plant site.

The West Park and Negro area would be served by gravity with a line following the creek through that area until it intersects the creek through the Clark property.

The system involves no pumping and places the plant far outside of the present city limit. It requires greater lengths of line, but saves the cost of pumping stations and the cost of pumping sewage and maintaining the pumping stations.

The design on the sewer system is based on the following assumed populations and quantities: Sewage flow, 100 gallons per capita per day; infiltration, 30,000 gallons per mile per day; present population of the area east and south of the campus, 5,000; future population by the system, 10,000. The estimated date that the future population will be reached is 1985.

No preliminary designs have been made for the treatment plant. The estimated cost of the sewer lines is \$165,000 and the treatment plant is estimated at \$150,000. The total cost of this plan, including engineering and contingencies cost, is \$346,500.

The council has \$110,000 voted in another election to be used on the sewerage system. The \$300,000 will not be exhausted unless it is necessary.

A town hall meeting was set by the council for 7 p.m. Nov. 18. The meeting place will be announced at a later date. The meeting will be held to give the people of College Station both sides of the issue.

Homer A. Hunter of Dallas is the consulting engineer.

Art Displayed Until Nov. 15

An art exhibit, consisting of 25 pictures, will be on display until Nov. 15 in the Memorial Student Center.

The owner, Miss Janet Turner, has exhibited her works in 39 exhibitions and has been honored by presenting 25 one artist shows.

Civilian Council Hears Reports On Problems

The Civilian Student Council last night set up committees to study proposals aimed at strengthening relations between civilian and corps students.

The first committee to report asked that each councilman get the names of all civilian students who would volunteer to guard the bonfire while the corps is eating in the dining halls. Chairman of the committee is John Cozad, who asked each member of the council to turn the names in to him by Monday.

The council also voiced opinions in favor of encouraging civilian participation in the bonfire work, which will begin next week.

Another item discussed by the council concerned the discipline of civilian students attending campus functions, particularly dances. Councilman Charles Cocanougher suggested that a system be adopted similar to that used by the corps. The cadet officer of the guard and the officer of the day handle any disturbances that arise during campus functions.

A committee was appointed to study the matter.

A report was also heard concerning a possible civilian student dance next spring. The council asked each representative to find out how many students would be interested.

Councilmen absent from last night's meeting were Tommy Mixon, Bizzell hall; Ronald Frances, Milner hall; William Rains, Walton hall, and Joe West, Student Life committee representative and council parliamentarian.

Kiwanians To Sell Lunches for Game

The Kiwanis club will sell box lunches before the A&M-Rice football game Saturday, said W. E. (Woody) Briles, chairman of the Kiwanis finance committee.

Two pieces of chicken, cookies, pickles, olives, potato chips, an apple and two slices of bread with butter will make up the lunches which sell for \$1. The food is prepared by the A&M Consolidated high school cafeteria and packed by Kiwanis club members.

Lunches will be sold from 10:30 a.m. until game time.

Hidalgo-Starr Club Elects Officers

Joe Bob Snodgrass was elected president of the Hidalgo-Starr county hometown club.

Other officers are Jesse Russell, vice president; Bill Dietrich, secretary; Jerry Herndon, treasurer; and Clarence Sissell and Larry Hill, reporters.

Weather Today

PARTLY CLOUDY

The forecast for today will be partially cloudy and warmer with possible thundershowers to light rains late this afternoon. Yesterday's high was 76, low 53. The temperature at 11 this morning was 70.
