

# McCarthy Committee Hits Back

By ED CREAGH  
 WASHINGTON, Nov. 10.—(AP)—A member of the Watkins committee, which has been accused by Sen. McCarthy of being a tool of

Communists, hit back today with a declaration that senators doing their duty should not be subjected to "personal abuse."  
 Sen. Case (R-SD), a member of the committee which recommended censure of McCarthy, spoke out near the end of the Senate's first day of debate on the hotly controversial censure question.

## News of the World

By THE ASSOCIATED PRESS  
 WASHINGTON—Soviet Premier Georgi Malenkov has suggested to the United States and British ambassadors in Moscow that the three great powers should try to improve relations among themselves by means of practical diplomacy.

\*\*\*  
 DALLAS—Justice W. E. Richburg called in a jury panel yesterday on which there were 15 women, the first female jury ever empaneled in Dallas. Six women were picked for the trial jury. They sat in judgment of another woman—charged with vagrancy.

\*\*\*  
 UNITED NATIONS, N.Y.—Carlos P. Romulo, Philippine delegate and former president of the U.N. Assembly, urged the U.N. to build an atomic reactor without waiting for President Eisenhower's atoms for peace program to take effect.

The day also saw McCarthy (R-Wis) swap accusations with Sen. Watkins (R-Utah), committee chairman.

McCarthy accused Watkins of twisting facts and the Utah legislator countered with a charge that McCarthy has violated his obligation—if not his oath—as a senator.

Watkins was referring to McCarthy's failure to appear before an investigating committee which looked into his affairs in 1952. This is the basis for one of the censure counts against him. The other charges he abused Brig. Gen. Ralph W. Zwicker when the general appeared before McCarthy's Investigations subcommittee.

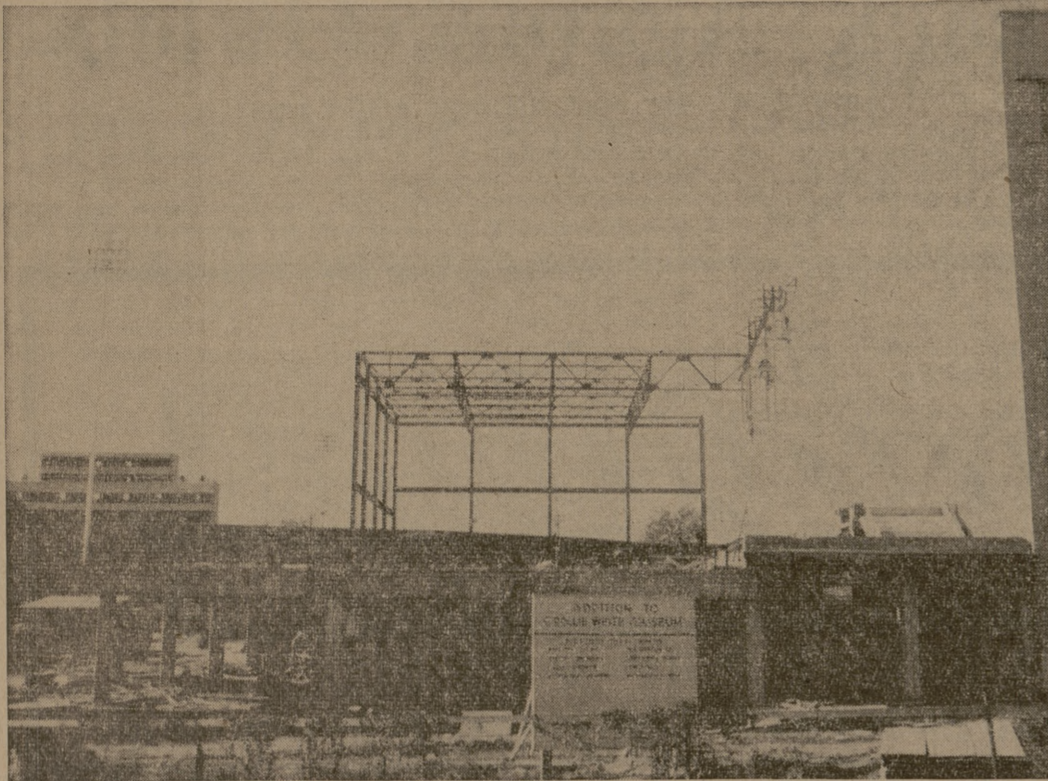

Case, in cautioning against "personal abuse" of senators, was replying to McCarthy's statement that the Watkins committee acted

GOING UP—A&M's newest gymnasium, a physical education gymnasium, is on its way to completion behind the G. Rollie White coliseum. The gym will have rooms for lockers, offices, and classes, as well as courts for basketball and volleyball.

What have **VICEROYS** got that other filter tip cigarettes haven't got?

THE ANSWER IS  
**20,000 FILTERS**  
 IN EVERY VICEROY TIP

Inside every Viceroy tip is a vast network of 20,000 individual filters to filter your smoke over and over again. You get only the full, rich taste of Viceroy's choice tobaccos . . . and Viceroy's draw so freely.

Yes, you get Viceroy's remarkable new tip . . . with 20,000 individual filters . . . plus king-size length for only a penny or two more than cigarettes without filters.

limited time on the knowledge of nature. The scientific advance into the unknown makes it impossible to foresee what should be kept secret."

In relation to the recent Atomic Energy Commission decision to remove Atomic Scientist Robert Oppenheimer's secrecy clearance, Pollard said there was "a very good case in favor of Oppenheimer."

His contributions to atomic research were perhaps greater than any one man, Pollard said. He was instrumental in the development of the atomic bomb, and his "rare combination" of scientific knowledge with general intellectual knowledge made many government commissions request his services.

Pollard said there was one reason all the members of the committee that rendered the decision and everyone with whom he worked in the government approved the clearance decision.

"They didn't trust him," he said. Pollard, a man of medium height, wore a black suit with a clerical collar. He spoke with a microphone in the MSC ballroom, never raising his voice from its soft-spoken tones.

After his talk, the audience submitted questions to him, most of them on tricky subjects dealing with the relationship of religion to science.

After the talk, the MSC Great Issues committee gave a reception for Pollard.

He will speak at the University of Texas tomorrow night on the same subject.

### Seniors To Take Inspection Trip

Seniors in the chemical engineering department will make an inspection trip to several companies after the Thanksgiving holidays, Dr. J. D. Lindsay, head of the department, announced.

They will visit the E. I. du Pont de Nemours Co. at Orange, B. F. Goodrich Chemical Co. at Port Neches, Champion Paper and Fibre Co. at Pasadena, Humble Oil and Refining Co. at Baytown, Mathieson Chemical Co. at Pasadena and the Hughes Tool Co. at Houston.

The chemical engineering department began a graduate course in October by extension at the Dow Chemical Company at Freeport. Charles D. Holland is the instructor. There are 26 employees of the company enrolled.

### Parking

drill field behind the dining hall, Badgett said.

"When the other two units are finished, there will be enough space for all cars of students in dormitories 1 through 12," he said.

He said about \$15,000 will be spent on student parking lots this year. This includes about \$7,500 for gravel and about \$4,000 for earth moving contracts.

Badgett said his plans include eventual curbing and blacktopping of all the student parking lots. Other projects being completed by the college now are the curbing of the Academic building parking lot and the widening of the streets in College View, in order to provide more parking spaces.

TEXAS TIP—Katherine Chapman, pretty 17-year-old Orange, Tex., carhop, served hamburgers and root beer to three men in a pickup truck hauling a cow and calf. After their meal the unidentified customers asked Miss Chapman if she would like the calf as a tip. Believing they were kidding, she said yes. They weren't kidding.
