

WHY NOT VOTE YES!

Here are two very good reasons why you should vote YES for the sewerage bonds. Below is a picture of an outdoor toilet just behind Tiger Field. To the right is another potential spot of infestation. Do you want your children to continue to play near these disease-infested areas? If not then vote YES and get rid of these hazards to our community.

HOW WILL WE PAY?—Taxes will not be raised because these bonds will be paid from service charges. For the average home owner who has one WC connection this will be about \$1.50 per month; for two WC connections, \$2.25; for three or more, \$3.00. Not too much for so much protection and service is it?
