

The word dandelion derives from the French dent-de-lion (lion's tooth) because of the tooth-like lobes on the leaf of the plant.

REAL SPORTS—Black and white can't do justice to the shirts shown, for the handshake is for the winner of the annual Kiwanis Sport Shirt Day. W. T. Riedel, left, principal of A&M Consolidated Junior High, was awarded a prize of \$1 for his black and green sport shirt. Club president R. G. Cherry, center, makes the presentation, while Rev. Norman Anderson, minister of the A&M Presbyterian Church, who was runnerup with a glowing red creation, somehow has the prize.

Negroes to Participate At UT In 1957

Negroes will play in varsity sports this fall at TWC, and at the University of Texas in 1957. A high athletic official at the University said, "Now that they've been given the go ahead, we must allow the Negro students the privileges of undergraduates including athletic participation." Saturday, the Texas Interscholastic League had announced a limited desegregation policy to go into effect at once. The question had been raised on the league status of schools in the El Paso independent school district, now that they have been desegregated. The League's ruling was that desegregated public schools won't be dropped from membership in the TIC.

Education Short Course Report Given

A report on a workshop in educational measurement and evaluation conducted at Texas A & M College last week will be presented to the Texas Education Agency. The agency will use the material in the publication of a pamphlet on measurements and evaluation for state distribution.

Twenty-one teachers and administrators of the public schools of Texas attended the workshop conducted by the Department of Education and Psychology, under the direction of Dr. W. P. Ewens, professor of education and psychology. This was one of four workshops held in the state this summer in cooperation with the Texas Committee on Educational Measurements and Evaluation.

The activities of the workshop were focused on the organization, administration and evaluation of the measurement program in the public schools and with the utilization measurement data by the teachers, administrators, pupils and parents.
