Book Department

We believe we have one of the finest, best stocked and best equipped book departments to be found in any college store in America.

With its own street entrance, well arranged book stacks and multiple check-out stations it's EASY to shop. As you enter you immediately see it is laid out by schools. There are separate areas for ENGINEERING, AGRICULTURE, ARTS & SCIENCES AND VETERINARY MEDICINE. Each school is broken down into teaching departments and each shelf carries a course number. New and Used books are in separate stacks - side by side - and each book has a price tag on the spine of the book indicating whether it is new or used.

Suppose you come in for the book used as a required text in History 306. You would first look for a sign designating the SCHOOL OF ARTS & SCIENCES. Second, within this area, you would look for a section labeled HISTORY. Third, within this section you would find a shelf bearing a label, HIST. 306. You then select a book from that shelf and proceed to other sections from which you need books or to one of the check out stations. THERE'S NO STANDING IN LINE AND NO WAITING FOR A CLERK TO FIND THE BOOK FOR YOU.

We have a big surprise for you! While you have been away this summer we've had our face lifted!
