

# The Battalion

Number 47: Volume 55

COLLEGE STATION, TEXAS, FRIDAY, NOVEMBER 11, 1955

PRICE 5 CENTS

## World News

By THE ASSOCIATED PRESS  
GENEVA—Soviet Foreign Minister V. M. Molotov declared last night President Eisenhower's proposal for immediate U.S.-Russian exchange of military blueprints and reciprocal air inspection "would strengthen mutual distrust." Molotov added that his government would alter its "negative attitude" if the President's proposal were made part of a general reduction of armaments and prohibition of atomic weapons. But this would have to be "at the final stage."

\*\*\*  
CHICAGO—United Air Lines yesterday offered a \$25,000 reward "for information leading to the arrest and conviction of the person or persons responsible" for the crash of a United plane near Longmont, Colo., 10 days ago. Forty-four persons died in the crash.

\*\*\*  
LONDON—The Defense Ministry announced last night the Russians recently made another test in their 1955 series of nuclear explosions. Earlier yesterday, Foreign Minister V. M. Molotov proposed at the Big Four foreign ministers conference in Geneva that the major powers immediately renounce the use of atomic weapons as a first step in working out world disarmament.

\*\*\*  
ROME—Egypt is buying 30 Vampire jet fighter planes from an Italian firm, it was learned from an authoritative source last night. Delivery of the new planes under a cash-on-delivery contract signed six months ago is expected to start next month. The purchase price is not known.

\*\*\*  
WASHINGTON—The Pentagon has ready for immediate delivery to the Justice Department, upon request, its complete files on six cases of former war prisoners whom a recent Supreme Court ruling removed from the military's jurisdiction. A spokesman said yesterday the records are ready, but so far the civilian agency has submitted no request for them. The Justice Department said it had no comment. The Supreme Court earlier this week decided that persons now civilians could not be tried by courts-martial for offenses allegedly committed while they were in service.

## Russel Receives Cracked Vertebra

Dr. Dan Russel is in St. Joseph's Hospital due to a cracked vertebra received in an accident while building a deer stand.

His entire body is in a cast which must remain for a period of at least two months, however, portions of the cast will be removed as his condition improves.

Dr. Russel has been in the hospital in Bryan since the accident last Sunday. He expects to return home within the next 8-10 days.

Dr. Russel and a student, whose name was unavailable, were building a deer stand in a tree when a limb broke with Dr. Russel. The third vertebra in his back was cracked in the fall.

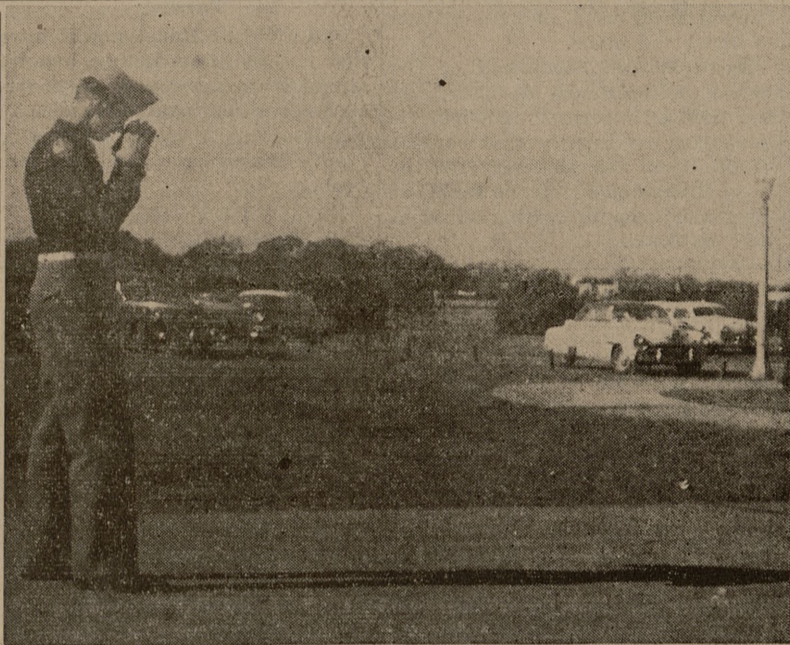

Dr. Russel has been a professor in the Agricultural Economics and Sociology department since 1926.

## Weather Today

### COLDER

A cold front is expected to move in tonight dropping the temperature. Readings at 10:30 a.m. were 70 degrees. Yesterday's high of 70 degrees dropped to 50 degrees last night.

THE SUN DOES SHINE—Capturing proof that the sun does shine in College Station is Roger Alexander from Livingston. Sunshine was a welcome sight in this area as rains lifted and old man winter left for the day. With a bonfire building coming up, you can bet your bottom dollar that rains will also be forthcoming.

## SCONA Delegates Chosen By Panel

The eight delegates from A&M for the Student Conference on National Affairs, to be held in the Memorial Student Center Dec. 14 through 17, have been announced. The following were selected by a faculty panel.

William D. Willis, Murray Milner Jr., John O. Kirkpatrick, Robert H. Scott, Robert M. Moore, Jerry T. Neighbors, David C. Parrnell and G. Earle Vondergoltz. All except Milner are seniors; Milner is a junior.

Alternates chosen were: Temple G. Klippel and William H. Heard. The former is a senior and Heard, a junior.

Twenty-two students were interviewed for the positions of delegates by the panel composed of Dr. Alfred F. Chalk, Economics Department; L. J. Martin, English Department; Dr. R. L. Skrabaneck, Agricultural Economics and Sociology Department; and Dr. Paul J. Woods, History Department. Dr. Walter H. Delaplane, dean of the School of Arts and Sciences, was chairman for the group.

The students were interviewed for their reading, interests in national problems, and knowledge of current history and problems.

SCONA will draw student representatives from more than 50 colleges and universities of the South and Southwest. The theme for the discussions will be "The Role of the United States in World Affairs," and will be continued each year.

Eight round-tables are planned for discussion of problems connected with this theme. Chairman for this year's conference is senior John W. Jenkins. The affair will cost about \$12,000, all of which was raised by students interested in getting the annual conference started at A&M.

## Batt Story Gets Results For Bonfire

It is now a proven fact that some people do read The Battalion. Paul Holladay, head yell leader, made a plea for wood to go for the annual bonfire, and he got results. Friday night, he received a telephone call from a woman telling him that she had a tree he could have—that is if it wasn't too big.

With this kind of help from the people of Brazos County, A&M will surely have the biggest bonfire in the world again this year.

Riggs Selects  
J. K. Riggs, in charge of beef cattle teaching and research here, made a recent trip to San Marcos and Sabinal to check Aberdeen Angus and Hereford bulls for possible use in the college herd.

## Grants-In-Aid Given A&M; Total More Than \$5,000

Five grants-in-aid, representing more than \$5,000 and including four Charbray heifers, were received by the Texas Agricultural Experiment Station, announced R. D. Lewis, State Director.

The grants go toward carrying on the work of various experiment stations over the state in carrying out their different experiments, Lewis explained.

The four Charbray heifers were loaned to the Station by four Texas ranchers. They are Howard S. Martindale, Rocksprings; Ralph W. Hutchins, Raymondville; W. L. Goldston, Houston and Goldston-Emerson, also of Houston.

Lewis said the heifers would be used in connection with research aimed at the improvement of beef cattle within pure breeds and certain of their crosses through breeding methods, based on evaluation

viewed for the positions of delegates by the panel composed of Dr. Alfred F. Chalk, Economics Department; L. J. Martin, English Department; Dr. R. L. Skrabaneck, Agricultural Economics and Sociology Department; and Dr. Paul J. Woods, History Department. Dr. Walter H. Delaplane, dean of the School of Arts and Sciences, was chairman for the group.

The students were interviewed for their reading, interests in national problems, and knowledge of current history and problems.

SCONA will draw student representatives from more than 50 colleges and universities of the South and Southwest. The theme for the discussions will be "The Role of the United States in World Affairs," and will be continued each year.

Eight round-tables are planned for discussion of problems connected with this theme. Chairman for this year's conference is senior John W. Jenkins. The affair will cost about \$12,000, all of which was raised by students interested in getting the annual conference started at A&M.

Job Calls  
The following job interviews will be held next week:  
Monday  
NORTH AMERICAN AVIATION, INC. of Columbus, Ohio will interview majors in advanced degrees in applied mathematics, and physics, all levels in aeronautical, mechanical, electrical, civil and industrial engineering.

TEXAS INSTRUMENTS INC. will interview majors in electrical and mechanical engineering and physics for all degree levels for research, development and design.  
Monday and Tuesday  
HUMBLE OIL & REFINING (See JOB, Page 4)

Two other gifts, to be used on the Rice-Pastures Station in Jefferson county, were \$1,200 worth of water given by the Lower Neches Valley Authority of Beaumont and a grain bin, value \$701.50, made by the Butler Manufacturing Company of Kansas City, Mo. The bin will be used in connection with rice drying and storage research studies being conducted on the station.

The Central Power and Light Company, of Corpus Christi, made available \$1,000 to be used to support cooperative investigations and demonstrations on grasses and legumes for range and pasture used in the Winter Garden area. This work will be carried on by the Winter Haven substation.

The Beef Cattle Program, carried on by Substation 21, near Gonzales, received \$357.94 from the Gonzales Chamber of Commerce.

AH Sheep Project  
Drs. T. D. Watkins Jr., R. O. Berry and B. T. Warwick, of the Animal Husbandry Department, traveled to Denton and Iowa Park sub-stations this week for surveying facilities for cooperative work in a Southern Regional Sheep breeding project. These two sub-stations are included in a coordinated early lamb production program with the Bluebonnet and College Station flocks.

## CSC Approves Civilian Guards For Bonfire By Dormitories

### Campus Bare As Students Get Holiday

A&M students began leaving the campus early this afternoon, headed for Houston, parties, girls, parades and a football game.

This is the second, and the last, Corps Trip for this year. Units will form at North Main, Bell and Clay Streets at 9 a.m. tomorrow morning and will move out at 9:30. Starting things off this weekend will be the Fish-Owlet football game in Rice Stadium tonight at 8. There will be no yell practice held because of police regulations. The only place yelling can be exercised is at the Fish game.

Bill (Jitterbug) Henderson, ex-Aggie athlete will be honored tomorrow during half-time ceremonies. The Band will spell out "Jitterbug" on the field while an appropriate tribute is read over the loud speaker. A plaque will be given to Henderson and his family by the Houston A&M Club.

Tomorrow night, the Challie Rice Literary Society will hold a Sock Hop in the Rice Gymnasium from 9 p.m. to 1 a.m. Admission is \$1 drag and 75 cents stag. The Rice Rythmaires will play for the dance.

The Aggies meet the Rice Owls at 2 p.m. tomorrow in Rice Stadium. The Owls are always rough during November, and this game promises to be one of the best.

Headquarters for A&M students will be in the Rice Hotel.

### Photoelectric Eye Stops Class Cutters

(Ed. Note—This story is not being published to give the profs any ideas, but perhaps they could rig up some way of "cramping" electrically.)

SAN ANTONIO—(AP)—A head-counting photoelectric eye has resulted in a sharp decrease in the number of students who disappear during physics lectures at Trinity University.

The electric eye mechanically counts heads as students enter and leave and, of course, registers when a student walks out on a class.

The gadget, designed by a student majoring in physics, has been dubbed the "evil eye" by other students.

### Rescue Team Has Demonstration

The Civil Defense Rescue Team from College Station will put on a rescue demonstration in Austin this afternoon as part of the Veterans Day activities held there.

### Constitution for Council Approved Unanimously

For the first time civilians will help guard the annual bonfire as definite housing groups. A proposal to this effect was presented to the Civilian Student Council by Byron A. Parham, who heads the Guard Duty Committee, and civilian yell leader John Cozad. After discussion it was approved by the CSC.

Wednesday night will be the first assigned guard duty for the civilian housing groups. The students will stand tours of 4-hours each starting at 7. Thursday night will also be given to the civilians. The Corps will guard next Friday, Saturday and Sunday nights, and on the following Monday through bonfire day, both Corps and civilians will stand guard.

A mimeographed sheet will be distributed to the ramp representatives of each civilian dorm, giving dates and where the guarding is to be done. For Wednesday and Thursday, the center pole is to be surrounded and Kyle Field is to be protected. Starting next Friday, the entrances to the college will also come under guard.

Cozad estimated that it would take about 25 students from each civilian housing unit to provide the protection needed. A complete list of who is where and when will be published in Tuesday's Battalion.

The Council unanimously approved a constitution which is subsequently to be submitted for approval by the dean of Student Personnel Services, Dr. Robert M. Kamm. In the preamble to this constitution is written: "We, the Civilian Students of the Agricultural and Mechanical College of Texas, establish the following constitution in order to promote unity of the Civilian Students, encourage greater participation and to encourage closer cooperation between the civilian and military student groups."

The compromise reached at the Student Life Committee meeting earlier this week on the Twelfth Man Bowl was discussed at the meeting. The CSC had recommended to the SLC that the game be between civilian students and Corps. The compromise divided the teams into Maroon and White. This compromise placed 48 men, both Corps and civilian, on the Maroon team and 49, both Corps and civilian, on the White team. The Maroon team was to have 28 Corps men and 20 civilians, and the White team to have 25 Corps and 24 civilians. The percentages, 54.6 for Corps, and 45.4 for civilians, are approximately equal to the breakdown in students this year.

Hugh Lanktree, who is in charge of civilian ticket sales, emphasized to the Council members the importance of selling this game to students. The profits go to the Student Aid Fund and for the Twelfth Man Scholarship. Tickets, which will cost 50 cents each, will be distributed by Dec. 1, Lanktree said.

Each unit's man or men must be selected by the athletic officer or intramural manager and report for practice by Nov. 21. There will be no additions or switches after this date, Lanktree said, nor will students be allowed to represent another outfit or housing unit than that to which they belong.

MSC Cameras Turn On Models Tonight  
Tuesday night will be "Model Night" for the MSC Camera Committee.

They will have five (5) live, girl models in the Assembly Room at 7:30 p.m. All members are reminded to bring their cameras and a \$1 fee for the models.

Players to Present Caine Mutiny Trial  
The Aggie Players will present the Caine Mutiny Court Martial Monday, Tuesday and Wednesday in the Ballroom of the MSC.

C. K. Esten, of the English department, is directing the production. Members of the cast are Charles Ware as Greenwald; Bill Swann, Maryk; Don Powell, Chaltee; Toby Hughs, Blakely; Harry Gooding, Queeg; Hugh Langtree, Keefer; Connie Eckard, Urban; Don Fisher, Keith; Jim Leissner, Southard; Lester Cochran, Lundeen;

Ted Castle, Bird; Roger Alexander and Roy Cline, members of court; Ward Boyce, stenographer; and Roger Clark, orderly. Pete Justice is stage manager and Billy Joe Campbell is business manager. Curtain time is 8 p.m. Admission is 50 cents for students and 75 cents for adults.

### Two Local Men Will Attend Conference

Two local men, Dr. M. T. Harrington, chancellor of the A&M College System, and George Adams of Bryan, were announced as delegates to the President's White House Conference on Education to be held Nov. 28-Dec. 1.

The announcement was made by Dr. Edwin L. Rippey of Dallas, chairman of the Steering Committee for the Texas Conference.

There will be a 70-member delegation from Texas, including professional school men, business men, ranchers, clubwomen, Parents-Teachers Association leaders, and many others.

Professional educators will make up only about one-third of the Texas delegation, as the White House had requested that two-thirds of the group be persons who are not professionals in education.

Texas had a quota of 67. Special invitations were extended from Washington for Gov. Allan Shivers; Dean L. D. Haske, vice-president of the University of Texas; and J. W. Edgar, State commissioner of education.

### Christmas Panel Appointed By Club

Committee members were appointed for the annual Christmas Party sponsored by the Anderson County A&M Club at their meeting last week in the Academic building.

Members of the various committees are as follows: Howell Crittenden, John (Buddy) Sandhop, program; Charles Bremer, Forrest Williams, decorations; Jeff Horn, refreshments; Ronnie Averitte, Dave McReynolds, invitations.

The party will be held during the Christmas holidays at a date and place not yet decided. The members voted unanimously to invite all Aggie-Ex in the area to the party.

### Banks Will Talk

Dr. W. C. Banks, professor of veterinary radiology in the School of Veterinary Medicine, will give a talk on Treatment of Squamous Cell Carcinoma with radioactive cobalt at the symposium on the practical aspects of veterinary radiology to be held Dec. 1 in Chicago. Dr. Banks, president of the American Veterinary Radiology Society, also serves as chairman for the symposium.

WINNING SIGN—A Athletics and Squadron 24, winners in the sign contest three other times, were again awarded \$5 for the best sign for the Rice game. The formula for an Aggie victory, according to the sign, is Bryant plus team plus 12th Man.
