An Ounce of . . .

Why should we buy Christmas Seals? We are inclined to think of tuberculosis as a disease that disappeared with the advent of modern drugs. But then we aren't realizing just how serious a problem TB still is. It is understandably easy to fall into a false sense of security and think "that will never happen to me."

But how bitter are the pangs of remorse when we find ourselves confronted with the problem we dodged so easily before?

By buying Christmas Seals, we aren't only helping those already stricken with TB; we also are helping the continuance of a kind of insurance that asks no premiums or monthly rates but lasts just as long as there are people who will give. An old saying goes: "An ounce of prevention is worth a pound of cure."

Daily Train Service Begins At North Zulch

The Burlington Lines' Sam Houston Zephyr will begin making conditional stops at North Zulch Sunday, to discharge or pick up passengers to or from Houston and Dallas.

Recent surveys in the area of Texas, roughly bordered by Bryan, College Station, Navasota, Huntsville and Madisonville, indicated a railway passenger potential in that area.

A conditional stop of a passenger train is one made on notice to the agent in advance when passengers desire to board the train. Notice to the conductor enroute is necessary so that he may arrange to stop the train to let passengers off.

The Zephyr operates on a daily run from Houston to Dallas and return, leaving Houston at 8:35 a.m. on the northward trip. It leaves Dallas at 5:00 p.m. on the southward trip. The train is scheduled to pass North Zulch at 10:07
