

The Long Wait

The best things sometimes are a long time coming, and what could be the best thing for A&M, in particular, and other state schools in general, has finally come about.

This is the appointment, finally, by the governor of the Texas Commission on Higher Education.

To get the waiting part out of the way—it's about time. Now on to why this Commission can be so beneficial to A&M.

Money, as is well known, has long been a problem around state schools—and around A&M in particular, because of its major status as a technical school.

A technical school takes more money per student to run than does a liberal arts school. But, in the past, the same formula for determining allocations by the State Legislature has been used for all of the schools.

With the Commission now appointed plans can be made for a restudy of the formula—and for action taking into consideration the high cost of A&M's technical program.

And maybe the federal government might take a hint and consider the special status of military colleges as compared with the "twice-a-week" program of other schools.

Both A&M and military students at A&M need, and deserve, a better financial arrangement.

Open House

the Agricultural Building.

Agricultural Education will meet in room 307 of the Agricultural Engineering Building.

Agricultural Engineering will meet in room 200 of the Agricultural Engineering Building.

Agronomy Department will meet in room 105 of the Agronomy Building.

Animal Husbandry will meet in the lecture room of the Animal Husbandry Building.

Dairy Husbandry will board a bus at 4 p.m. by the Agriculture Building for a tour of the farm and return in a group for evening meal in Duncan Hall.

Floriculture will meet in the Floriculture Building.

Poultry Husbandry will meet in room 311 of the Agriculture Building.

Range and Forestry will meet in the seminar room on the second floor of the Agricultural Engineering Building.

Wildlife Management will meet on the third floor, rear, of the Agricultural Engineering Building.

Entomology Department will meet in room 105 of the Biological Sciences Building.

Horticulture Department will meet in room 103 of the Agriculture Building.

ARTS AND SCIENCES Biology Department will meet in room 113 of the Biological Sciences Building.

Business Administration will meet in the chemistry lecture room of the Chemistry Building.

Chemistry Department will meet in room 113 of the Chemistry Building.

CASH for your... SLIDE RULE LOUPOT'S

Economics Department will meet in room 129 of the Academic Building.

Education and Psychology will meet in room 103 of the Academic Building.

English Department will meet in room 315 of the Academic Building.

History Department will meet in room 207 of the Academic Building.

Journalism Department will meet in Building "J" in the stacks.

Mathematics Department will meet in room 223 of the Academic Building.

Modern Languages Department will meet in room 119 of the Academic Building.

Oceanography Department will meet in room 307 of Goodwin Hall.

Physical Education Department will meet in room 214 of White Coliseum.

Physics Department will meet in room 320 in the Physics Building.

ENGINEERING Aeronautical Engineering will meet on the first floor of the new Engineering Building.

Architecture will meet on the fourth floor of Academic Building.

Chemical Engineering will meet in room 104 of the Petroleum Building.

Civil Engineering will meet in room 11 of the Civil Engineering Building.

Electrical Engineering will meet in room 301 of the Electrical Engineering Building.

Geology Department will meet on the first floor of the Petroleum Building.

Industrial Education will meet in room 108 of the Mechanical Engineering Shops.

Mechanical Engineering will meet in the back part of the Machine Shop in the Mechanical Engineering Shops.

Industrial Engineering will meet in room 207 of the new Engineering Building.

Petroleum Engineering will meet in room 140 of the Petroleum Building.

VETERINARY MEDICINE Veterinary Medicine will meet in room 12 of the Veterinary Hospital.

Exchange Store Will Sponsor Huge Book Sale

More than 3,000 volumes of books with titles for every reading taste from psychiatry to fiction will be placed on sale at the Exchange Store starting Dec. 7, Carl Birdwell, manager, said yesterday.

The Exchange Store is sponsoring the book sale as a service to students and College Station residents, Birdwell said. Most of the books are remaining stock, bought from publishers at substantially reduced prices.

Prices will range from 19 cents to \$3.98 a copy. Children's books and other new editions will be on sale.

Included in the sale will be such books as Thomas Mann's "The Holy Sinner", in which the great modern novelist recasts the medieval legend of a sinner who became Pope and tells the story with all the mortal and psychological insight of true genius.

Books on religion, philosophy, science, history, psychology, and fiction will be on sale.

"Most of the books will be limited, as we have only a few copies of each," Birdwell said.

Richards Receives Borden Award

Harvey Lee Richards Jr., senior dairy husbandry major from Harlingen, has received a \$300 Borden Award, presented by Woodrow W. Echols, field supervisor for Borden Milk Company.

Board on Education Chosen

Fifteen men have been named by Governor Allan Shivers to the newly-created Commission on Higher Education, which will be a superboard of directors over the state's colleges. Shivers made the appointments Wednesday.

A. M. Muldrow, former Secretary of State and now Brownfield oilman, was named by the governor as temporary chairman. An organizational meeting of the Commission will be called by Shivers in January, at which time permanent officers will be chosen.

Other commissioners are W. N. Durham, Jr., Amarillo; R. T. Waddell, Odesa; K. B. Moore, Vernon; F. L. Flynn, Harlingen; M. W. Glosserman, Lockhart—all of whose terms end March 31, 1957;

Dr. Harry M. Shytle, Sherman; Dr. H. H. Connally Jr., Waco; Harris Melaskey, Taylor; H. H. Dewar, San Antonio; J. W. Newton, Beaumont—all of whose terms end March 31, 1957;

Mrs. J. F. Boren, Abilene; Jack

Cox, Corpus Christi; Millard Cope, Marshall; John Redditt, Lufkin; and Muldrow—all of whose terms end March 31, 1961.

One broad power of the Commission will be authority to order the consolidation or elimination of programs in a state college when it considers such action in the best interest of the school and the state generally.

It also has jurisdiction over all colleges. Budget requests by the school will be made up by a formula prescribed by the Commission, which will submit the proposals to state budget offices and the Legislature, along with its recommendations.

The financial powers of the Commission is especially important to A&M, for its appropriations from the Legislature are based on the formula used by the Commission. The formula which has been used in the past has left A&M short, because costs at a technical school such as A&M are more than for the state liberal arts schools.

A Campus-to-Career Case History

HE'S BUILDING A FOUNDATION FOR HIS FUTURE

Paul Guild, E.E., Purdue, '49, started as a student engineer with Long Lines—the Bell System unit that interconnects Bell Telephone Companies. In the student training program he became familiar with all operations of the business.

After that he spent two years on technical and engineering projects that took him to Indianapolis, Cleveland and Atlanta.

March of 1953 found Paul in Cincinnati working on the construction of radio relay routes. He worked with the newest microwave equipment that

transmits television pictures and telephone conversations simultaneously.

In 1955, as part of his further development, Paul was transferred to a completely different assignment. He now supervises the important planning job of balancing a working force of 900 Long Distance operators with the ever-changing work load.

"I use my engineering background on this job, too," says Paul. "It's extremely interesting and has lots of responsibility. Besides, you need experience in more than one department to give you background."

BELL TELEPHONE SYSTEM Paul Guild is typical of young engineers in the Bell System. Similar career opportunities exist in the Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information on these companies.

The Battalion The Editorial Policy of The Battalion Represents the Views of the Student Editors

The Battalion, newspaper of the Agricultural and Mechanical College of Texas and the City of College Station, is published by students four times a week during the regular school year. During the summer terms The Battalion is published once a week, and during examination and vacation periods, once a week. Days of publication are Tuesday through Friday for the regular school year, Thursday during the summer terms, and Thursday during examination and vacation periods. The Battalion is not published on the Wednesday immediately preceding Easter or Thanksgiving. Subscription rates are \$3.50 per semester, \$6.00 per school year, \$6.50 per full year, or \$1.00 per month. Advertising rates furnished on request.

Entered as second-class matter at Post Office at College Station, Texas, under the Act of Congress of March 3, 1879.
