THERE ARE several good reasons why Kaiser Aluminum & Chemical Corporation has come to be regarded as the company for young men who want to grow.

An important reason is the fact that Kaiser Aluminum is the nation's fastest-growing major producer of aluminum. We now produce close to 30% of all the primary aluminum made in this country.

And we recently announced a new expansion program—the greatest single expansion in the history of the aluminum industry—that will soon make Kaiser Aluminum the second largest producer in the United States.

We are expanding rapidly because the future uses for

this modern metal are almost unlimited.

As a result, we are looking for exceptional young men who want unlimited opportunities for advancement and self-improvement.

As we expand, ambitious young men of ability at Kaiser Aluminum will rapidly advance to responsible positions in management, planning, production supervision, technical and sales supervision.

But our rapid expansion is only one of the reasons why your opportunities are great at Kaiser Aluminum. The complete story is told in the 23-page booklet, "Your Opportunity with Kaiser Aluminum." Get your copy at your college placement office now.
