COLLEGE STATION, TEXAS, WEDNESDAY, JANUARY 18, 1956

Price 5 Cents

Reed, Nowak To Lead Off TEES Series

Bob H. Reed, associate research architect and Matthew A. Nowak, research assistant, will lead off the Texas Engineering Experiment Station's 1956 series of monthly staff meetings with a talk on "Natural Lighting Studies by Means of Models."

The meeting will be held at 4 p.m. tomorrow in Room 140 of the Petroleum Geology building on the campus.

The speakers will be introduced by Dr. A. W. Melloh, vice-director of the station.

Since 1949, the Texas Engineering Experiment Station has conducted a program of research on problems of natural lighting, natural ventilation, and sound control in the design of buildings, particularly public school buildings, for Texas conditions. One of the significant products of this research has been the development of facilities and techniques for studying both the distribution of daylight within and the natural air movement through buildings by means of scale models. The application of these techniques to a variety of practical daylighting problems will be discussed by Reed and Nowak.

The meeting is open to all interested persons.

Graduate Lecture

Dr. Robert Stoneley, Department of Geology and Geophysics, Cambridge University, Cambridge, England, will present a graduate lecture in the Biological Sciences Building at 8 tomorrow night. Members of the faculty, staff, graduate students and general public are cordially invited.

Land Commissioner Urges Surveillance

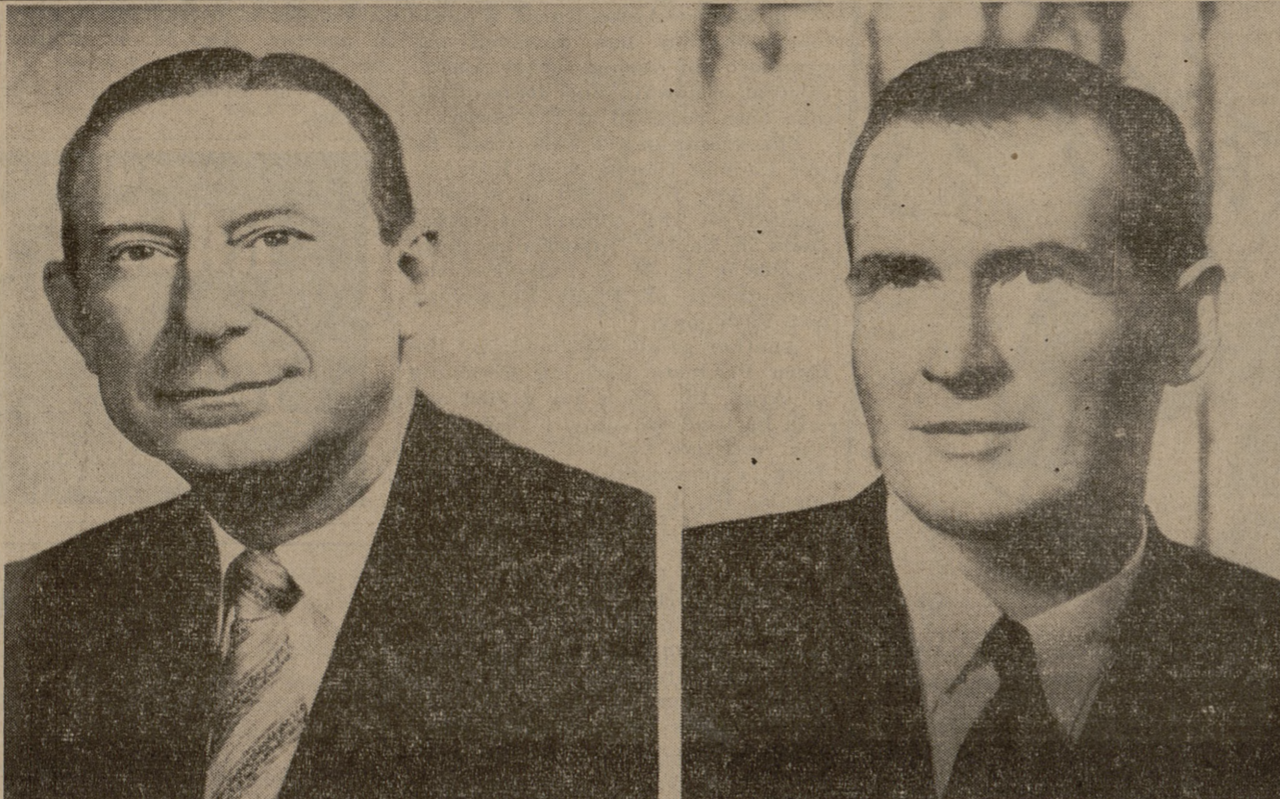

Earl Rudder, recently appointed State Land Commissioner, asked the College Station Kiwanis Club yesterday to "keep a close surveillance on his conduct as commissioner, and do the same for all other public officials."

"We have literally built the foundation upon which the state rests today by trading public lands," said Rudder. "The Land Office has the momentous task of administering and watching over these lands."

Rudder said most of the incompetence that has marked the Land Office's sub-agency, the Veteran's Land Program, stemmed from poor appraisal systems used in the past.

"We now employ some of the best soil experts in the state, and we expect to improve the program," Rudder said.

Rudder, a Brigadier General in the Army Reserves, was awarded several honors for his service in Germany during World War II. He

SPEAKERS—Dr. M. T. Harrington, left, chancellor of the A&M College System, will deliver the commencement address and Dr. Robert I. Kahn, right, Rabbi, Congregation Emanu El, Houston, will deliver the baccalaureate sermon, at the graduation ceremonies, Friday in Guion Hall. There are 237 candidates for degrees, including 39 for advanced degrees.

Candidates Listed

241 To Receive Degrees

Two hundred and forty-one students are candidates for degrees for the Friday graduation ceremonies. This is the first January graduation service in more than 10 years.

Names of candidates and degrees to be received are as follows:

DOCTOR OF PHILOSOPHY
Jesse Lane Fletcher, John Vincent Halick, Robert Henry Harms, Richard Lewis Jacobs, Lewis Johnson, Minton Jones Kelly, Robert

Lee Reddish, Wikki Shakir El Shamma, David Kershaw Stokes, Jr., Ensel Coolidge Stutts, Darol Duane Travis, Johannes Petrus Van Buijtenen, and John Frank Woodham.

MASTER OF EDUCATION
Ulrich Wilson Crow

MASTER OF SCIENCE
Byron Hubert Anderson, William Douglas Baker, Jr., Henry Kinsolving Bass, James Robert Biard, Thomas Ray Carter, Guillermo C. Corral-Franco, Glenn Allen Davis, Richard Harvey Davis, Jr., Don A. Duncan.

Bernard Edward Dunkle, Harold Eugene Grelen, William Bell Hayes, Hussein Helmy, Thomas Daniel Hinesly, William Low Hoffman, Andrew Crenan Hudson, Thomas Phillip Munt, Paul W. Lukens, Lloyd Theodore McBeth.

Jes David McIver, William Smith McLaughlin, Jr., Julius Marcus, Charles Standish Miller, Donald Edward Napp, Robert Andrew Noble, Leonard Vasco Packett, Jr., Wilfred Leo Polzer, Albert Williamson Rollins, Fathi Mahmoud Salama, Joe Weldon Streetman, Denton Robert Wieland.

SCHOOL OF AGRICULTURE BACHELOR OF SCIENCE
Agricultural Administration
Carlos Humberto Cantu, Howard Franklin Mims Childers, Raymond Arthur Dietrich, Donald Jean Gordon, Thomas D. Longbrake, Robert Bruce McCormick, Jr., James Rod Martin, Richard Vaughn Stafford, Josiah Wistar Worthington, James Harold Wuensche.

Agricultural Education
Hugh Lester Byrd, Joe C. Garza, Stewart Darden Hervey, Jr., William Riley Pence, Jr., Oren Carl Remmers, Doyle Lane Smith.

Agriculture
William Luther Allred, William Robert Barnes, Donald Cicero Boehnke, Robert Joseph Bruni, Robert Walker Caldwell, Jr., David Dean Cooper, Samuel Thomas Grissom.

Animal Husbandry
James Henry Harrison, Edward Lloyd Joyce, Billy Wylie Lockhead, Wilburn Durwood Love, Charles Henry McKay, Teddy Burk Mitchell, Gene Pryor Reagan.

Agribusiness
Bobby Leon Southall, Billy Hugh Steele, James Samuel Williams, Jr., Lawrence Edward Winkler.

(See GRADUATES, Page 2)

Agricultural Engineering
George Williams Moses.

Agriculture Journalism
Russell William Condon and George Tipton Smith.

Agriculture Agronomy
Anthony E. Campos-Grace, Gordon Bodo Doebbler, Jerry Davis McGuire, Paul Henry Mohle.

Animal Husbandry
William Luther Allred, William Robert Barnes, Donald Cicero Boehnke, Robert Joseph Bruni, Robert Walker Caldwell, Jr., David Dean Cooper, Samuel Thomas Grissom.

Agribusiness
Bobby Leon Southall, Billy Hugh Steele, James Samuel Williams, Jr., Lawrence Edward Winkler.

Weather Today

SHOWERS

Forecast for College Station is continued cloudiness with possible showers. Yesterday's high of 47 degrees dropped to 33 degrees at 7 a.m. today. Temperature at 10:30 this morning was 35 degrees.

Morgan, Davis Return From Talks

Dr. David H. Morgan, president of the College, and Col. Joe E. Davis, commandant, were to return to A&M today after attending a conference of the heads of "essentially military colleges" in Washington, D.C.

They left Monday for the meeting at the request of Milton G. Baker, chairman of the Reserve Forces Policy Board. This was the first time that heads of military colleges were invited to come to a meeting at the request of the Department of Defense. No information is yet available as to what action, if any, was taken concerning the type of full-time ROTC program offered by military colleges.

Dr. Morgan will speak to members of the Houston Rotary Club tomorrow, and has another speech in Houston Jan. 24. He will also make a talk to the Bryan Chamber of Commerce Jan. 31.

Mid-Term Graduates Have Services Friday

Defense School Hears Director Stress Planning

"You and I are battling public apathy," C. D. Layne, director, Civil Defense Activities, Texas Department of Public Safety, Austin, told registrants to the seventh Texas Rescue Training School being held here this week.

Speaking to students taking part in the week-long school, Layne, using the topic, "Organization and Coordination of Training," emphasized that pre-planning and leadership is essential in order to carry out and discharge responsibilities to the people of Texas.

"There is no substitute for ability," he declared. "Each of you have certain native and inherent abilities which you coordinate through training with acquired abilities to do a far more effective job of service to your community and state. In time of disaster, people live or die according to the skills which you may learn here and apply to the disaster situation."

The trainees are being schooled in the various phases of disaster and the proper use of relief equipment, ending Friday evening in a three-hour demonstration of combined rescue operations carried out under simulated disaster conditions. The "school" will be held on "disaster street" in the Texas Firemen's Training School area northeast of the campus.

Kahn, Harrington Will Be Speakers

Baccalaureate services will begin at 10 a.m. Friday in Guion Hall with Rabbi Robert I. Kahn of Houston delivering the sermon. Chancellor M. T. Harrington of the A&M College System will deliver the commencement address which begins at 6:30 that night.

Rabbi Kahn, spiritual leader of Congregation Emanu El of Houston, is a native of Iowa. He received his B. A. Degree from the University of Cincinnati and was ordained by the Hebrew Union College as Rabbi. He came to Houston in 1935.

In 1944, Congregation Emanu El was organized under his leadership with 190 charter member-families. It has grown to include nearly 900 families and has erected one of the nation's outstanding contemporary buildings for worship and education.

Rabbi Kahn has been active in the general Jewish and civic community. He is a Rotarian, a Scottish Rite Mason and has been President of the Houston Lodge B'nai B'rith, of the Kallah of Texas Rabbis, of the Religious Education Association. He now serves on the Board of Traveller's Aid, Boy Scouts and Community Council.

His wife is the former Miss Rozelle Rosenthal of Dallas. They have three children: Alfred, Edward and Sharon.

Chancellor Harrington came to A&M, as a student, in 1918. He received his B. S. and M. S. degrees in chemical engineering here and was granted his Ph. D. in chemistry at Iowa State College in 1941.

He also did graduate work at Massachusetts Institute of Technology, University of Michigan and University of Southern California.

He taught here for 25 years and also for one year at Iowa State. Other experience includes two years with the Texas Company as an analytical chemist and three months with Lone Star Gas Company as a chemist.

Dr. Harrington served as president of the college from 1950-53, when he was named chancellor of the A&M College System. He is the first graduate of A&M College to serve as its president and chancellor.

He is a member of the Southern Regional Education Board, Executive Committee Land-Grant Colleges and Universities, President Southern Association of Land-Grant Colleges and State Universities, Texas Advisory Committee on Atomic Energy, American Chemical Society, Sigma Xi, Phi-Lambda Upsilon, Tau Beta Pi, Phi Kappa Phi and Phi Eta Sigma.

His community activities include former member of the City Council, of this city; College Station Development Association; Bryan-College Station Rotary Club; Sol Ross Lodge No. 1300, A. F. & A. M., College Station.

News of the World

By THE ASSOCIATED PRESS

WASHINGTON — Congressional committees laid plans yesterday to obtain testimony from Gen. Matthew B. Ridgway, who has charged that politics prompted the Eisenhower administration to make dangerous cuts in the Army. Rep. Sikes (D-Fla.) said he would invite Ridgway to appear before a House appropriations subcommittee which he heads to go into charges made by the general in a magazine article.

OTTAWA—The Canadian government "is giving careful consideration" to recognition of Red

Plant Identifiers To Enter Contest

The story in Tuesday's Battalion about the grass judging team entering a national contest in Denver, Colo., Saturday had some mistakes. The true story is as follows.

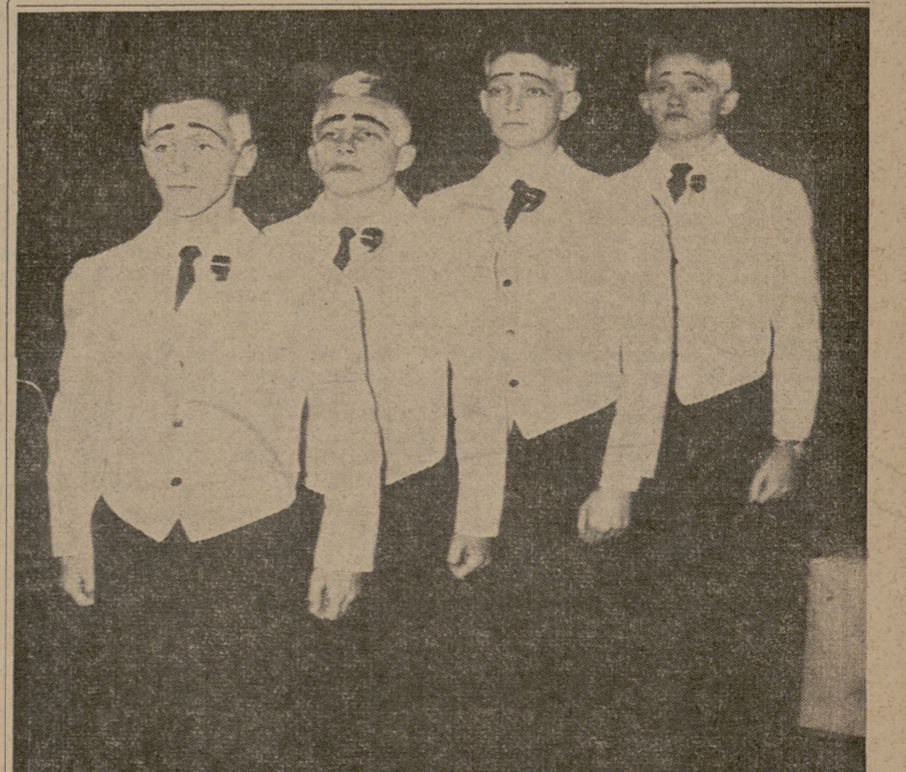

The A&M Plant Identification Team will leave here Saturday for a plant identification contest in Denver, Colo., held in conjunction with a meeting of the American Society of Range Management. The team, composed of Fritz Landers, Claude Alexander, David Faucet and Ronnie Gardner, will return to A&M Jan. 29. Don Huss is coach and club sponsor of the Range and Forestry Club.

Money for this trip was obtained from profits from a turkey shoot, sponsored by the R.&F. Club, last year.

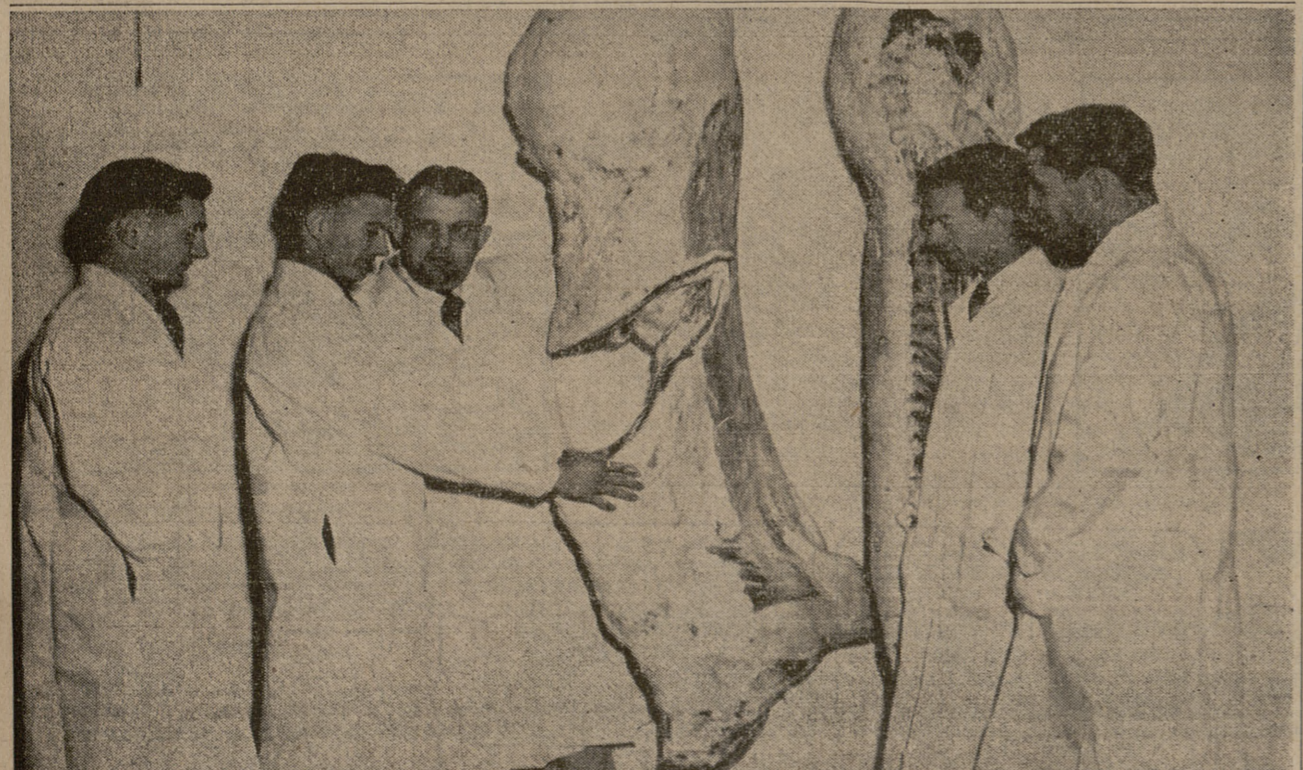

Seniors To Pay Aggield Mailing

Graduating seniors should deposit their Aggield mailing fee with the Student Publications Office before leaving the campus.

The office, which is located on the second floor of Goodwin Hall, is open from 8 a.m. to 5 p.m. every day except Saturday when it is closed all day. Amount of the fee is based on the distance the book has to be mailed.

AGGIE BUTLERS—The problem of changing sets in the highly successful Aggie Players' presentation of Oscar Wilde's "The Importance of Being Earnest" is solved by the quartet above. Left to right, Roy Eckard, Clint White, Jerry Neighbors and Don Powell work—but don't speak. "Earnest" has one more show tonight at 8 in the ball room of the MSC. Tickets are 50 and 75 cents. Vic Wiening is directing, and performing, in the comedy.

HOW ABOUT THAT—Gene King, center Meats Team coach, explains the rules of judging meat to his senior team. From left to right are J. M. Lebo, Ken Killion, King, J. A. Loftis and Robert Caldwell. The team placed fourth at the Intercollegiate Meats Judging Contest in Chicago, Ill., Nov. 29. Killion placed high individual in beef judging and the A&M team topped first place in that division at the contest.
