

Program Gets Attention

A high school guidance and counseling program developed under the direction of E. V. Walton, head of the Agricultural Education Department, is attracting nationwide interest, according to C. D. Holmes, superintendent of the Industrial Consolidated High School at Vanderbilt, where the program is in operation.

Holmes recently received a letter from the editor of *This Week* magazine expressing interest in the program. Several schools throughout Texas are planning to develop guidance programs under the Walton method.

Z. Montemayor, president of Mindanao Agricultural College in the Philippine Islands, made a trip from Pennsylvania to Industrial Consolidated High School to study the guidance and counseling program and immediately took steps to institute the Walton guidance and counseling program in

his college.

According to Holmes, results in the Industrial Consolidated School have been phenomenal. Holmes said personal problems among the students have declined more than 50 percent since the program was instituted. Jim Clark, principal, said that only three discipline cases severe enough to warrant principal's action have been encountered in three years.

Percentage of students attending college has jumped from 17 percent to a high of 55 percent. Scholastic grades have increased one letter grade during the time the program has operated and absenteeism and dropouts have been greatly reduced, Clark said.

The school board at Industrial Consolidated High School has been so favorably impressed by the change in the school that it authorized Holmes and Clark to travel anywhere in Texas at Industrial

Consolidated high school's expense to tell their counseling story.

Walton says the secret of the program rests in the use of lay people, cooperation of parents, and in training every teacher in simple fundamentals of counseling. The stress of modern-day society is too great for teenagers without more help than they get, Walton believes. One and one-third million children came to the attention of police in 1954 and the percentage is rapidly increasing, he pointed out in commenting on the need for effective guidance.

Dr. Yates Opens 'Preachers' Series

Dr. Kyle Yates, one of the leading preachers of the Baptist church, will preach at the First Methodist church in Bryan Sunday night at 7:30. Dr. Yates was one of the scholars on the commission which edited the Revised Standard Version of the Bible. He speaks five languages fluently and soon will go to Baylor University as a distinguished professor. He is now finishing his tenth year as pastor of the Second Baptist church in Houston, which is the largest Baptist church in Houston and one of the largest in the South.

Dr. Yates will be the first speaker in the series of four Sunday night speakers entitled: "The Great Preachers of Texas." Dr. Rankin, pastor of the First Methodist church in Bryan extends a cordial invitation to everyone.

TAES Gets A Lot Of Grants-in-Aid

The following announced grants-in-aid are part of many announced recently by the Texas Agricultural Experiment Station. Lack of space at the time and the shortened printing schedule during final examination week prevented including the complete list at the time of the first announcement.

The Portland Cement Association has renewed their grant of \$2,300 for the support of studies on construction techniques for tilt-up farm buildings. Price Hobgood of the Department of Agricultural Engineering is directing the studies.

The Fort Dodge Laboratories, Inc. of Fort Dodge, Iowa, has made a grant-in-aid for \$500 to support anaplasmosis therapy research. Dr. T. E. Franklin of the Department of Veterinary Medicine is supervising the studies.

The Gaines County Commissioners' Court has made available a renewal of their grant-in-aid of \$5,000 to be used to support re-

search studies on the causes of abortion in cattle. These studies are being conducted under the direct supervision of Dr. J. W. Dollahite, veterinarian in charge of the Station's Animal Disease Investigations Laboratory, Marfa.

The Central Power and Light Co. of Corpus Christi, through Dick Norton, manager of the Weslaco office has made available a grant-in-aid for \$450. The grant will be used to support the irrigation research program being conducted at the Weslaco substation. Superintendent W. R. Cowley is directing the studies.

Two Houston firms, Comet Rice Mills and River Brand Rice Mills, have each made available grants of \$750 to support rice quality investigations being carried on at the Beaumont substation. Acting Station Superintendent L. E. Crane is directing the investigations.

The General Foods Corp. Central Laboratories, of Hoboken, N.J., has made available \$3,000 for support of rice quality research. H. M. Beachell agronomist, will supervise the studies.

The last grant-in-aid was made by the Arrozal Bartes, S.A. Co. of Havana, Cuba, through W. C. Davis, vice-president, who was formerly superintendent of the Beaumont substation. This \$400 grant will be used to support research on the improvement of rice varieties.

A&M Researcher Gets Large Grant

The United States Department of Health, Education and Welfare has announced the award of \$2,685 to a Texas A&M College research assistant for studies of unidentified nutritional factors that affect reproduction. It is the first such grant made here.

Allen A. Kurnick, a 1955 graduate of the college now employed as a research worker in the Department of Biochemistry and Nutrition, under the direction of Dr. Russell Couch.

The federal agency, which includes the Public Health Service and National Institute of Health Services, has granted Kurnick the stipend to allow him to investigate effects of a number of unidentified

nutritional factors found in feed supplements on the reproductivity of poultry. Applications in the fields of livestock and human nutrition are expected to result from this study.

During his year of work, which begins immediately, he will conduct his investigations in the laboratories of the Department of Biochemistry and Nutrition, under the direction of Dr. Russell Couch.

Kurnick is a native of Kaunas, Lithuania, having come to the United States in 1938 as a youth. He is an honor graduate of California State Polytechnic College, where he obtained his bachelor of science degree in 1953, and of Texas A&M College, where he re-

OFFICIAL NOTICES

Official notices must be brought, mailed, or telephoned so as to arrive in the Office of Student Publications (207 Goodwin, VI 6-6415, hours 8-12, 1-5, daily Monday through Friday) at or before the deadline of 1 p.m. of the day preceding publication. — Director of Student Publications.

NOTICE TO PROBATION STUDENTS
All students who are on scholastic probation or class attendance probation for the fall semester, 1955, must secure approval of their respective deans to register for the spring semester, 1956.

Those students who are not currently on probation and passed less than 12 hours or making less than 12 grade points at the end of the fall semester should secure the approval of their respective deans to register for the spring semester, 1956. Those who fail to do this will be registering at their own risk and may be required to withdraw from the college.

The several deans or their representatives will interview such students in their offices on Thursday and Friday, February 2 and 3, 1956.

J. P. Abbott 79t2
Dean of the College
ALL DEPARTMENTS: Copies of the 1955-56 Student Directory are available (75 cents each) at the Office of Student Publications, 207 Goodwin Hall. 72t3

Farm Structure Course To Close

Today marks the close of the annual Farm Structure Short Course on Grain, Drying and Storage, offered by the Agricultural Engineering Department and the Agricultural Extension Service.

W. S. Allen of the Agricultural Engineering Department has been in charge of the course, which opened here yesterday.

Although the short course is offered particularly for manufacturers of storage buildings and equipment, some of the subjects that have been under discussion affect the farmer immediately; others, intended to produce better facilities for grain storage, affect him less directly.

Students, Staff Can File For Work

Undergraduate students and faculty members interested in obtaining summer employment should file a summer registration record with the Placement Office. The office is now contacting companies for possible summer openings.

Green notices will be posted on departmental bulletin boards and a file of summer calls will be maintained in the Placement Office. Calls that do not require a specific background or major field of study will be listed only in the Placement Office.

15,886 Visitors In Eight Months

A total of 15,886 visitors were on the campus of Texas A&M College for the last seven months of 1955 and the first month of 1956.

The total included 1,595 visitors for January, 1956, P. L. Downs, Jr., official greeter for the college, announced.

Ike's Assistant Will Speak Here

Dillon Anderson special assistant to Pres. Dwight D. Eisenhower, will speak here, February 3, on "Policy Formation in Government and Business".

He will address the 12:15 p. m. session of the 4th. annual Executive Development Course sponsored by the college.

FAMOUS is the word for Humble's **Esso Extra** Gasoline

What makes Esso Extra the famous gasoline?

Performance is the answer, performance that has earned Esso Extra the reputation of being the best gasoline you can buy.

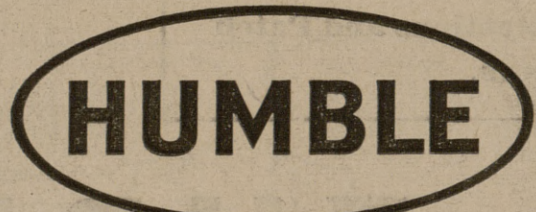

This year, as in every year, Esso Extra is the acknowledged quality leader among all the gasolines offered Texas motorists.

It is the leader in anti-knock performance, in power and pick-up, in engine flexibility, in quick starting and fast warm-up, in gasoline mileage—in all the gasoline

qualities that make your car run better, last longer, and operate more economically.

Any user will tell you that Esso Extra will improve the performance of your car—it is today the best gasoline for your automobile; it always has been and always will be.

Give your car a chance to perform its best—fill up with famous Esso Extra gasoline under any Humble sign.
