

Student Conference Will Begin Friday

About 400 students from schools of the Southwest are expected to attend the fourth annual Ecumenical Student Conference which will be held in College Station starting Friday and ending Sunday.

Meetings will be held at the A&M Methodist Church and Wesley Foundation, with A&M students in charge of the conference. Dr. Elton Trueblood, professor of philosophy and noted author-lecturer from Earlham College, Indiana, will be the principal speaker for the conference. He also will speak in the Memorial Student Center at 2:30 Sunday afternoon as a presentation of the Center's "Great Issues Series. His topic for the speech will be "A Positive Answer to Communism."

Dr. Noel Keith, head of the Department of Religion at Texas Christian University, will lead Bible Discussions for the conference. He is the author of a number of articles appearing in church papers, and is listed in "Who's Who in the Southwest" and "Directory of American Scholars."

The basis of the Bible study will be the first five chapters of the Book of James. Sponsors of the Ecumenical Conference are the A&M Methodist Church, the A&M Christian Church, St. Thomas Episcopal Church, A&M Presbyterian Church, Our Saviour's Lutheran Church of College Station, and the Evangelical

and Reform Church of Bryan, in connection with the YMCA of the A&M College.

A&M student Murray Milner of Brownwood is general chairman for the conference. Other Aggies working with him are John Greenwalt, Bill Ashburn, Konrad Losen, David Behlen, Leniel Harbers, Joe Blair, Steve Love, Bill Riviere, Charles Rice, Bill Libby, and Kenneth Mays.

Last year's meetings were held at the YMCA on the campus, but were moved to the Methodist Church during planning last spring because of the remodeling of the YMCA. The rooms are not large enough to accommodate all of the conferences. Meals will be taken off-campus, although they could have been taken in college dining halls without breaking A&M System Board policy.

Infantry Juniors To Take Field Trip

Infantry juniors will take a one-day field trip to Fort Hood for orientation March 21, according to Charles A. Beever, Jr., first sergeant of "A" Infantry.

The program will consist of demonstration teams, with the main attraction being a regimental tank team.

They will leave in the morning and return that night.

GUARD AWARD—Maj. W. R. Williams, First Battalion, 143rd Infantry Regular Army Advisor, right, congratulates Capt. Barney Welch, company commander, Headquarters Company, First Battalion, 143rd Infantry Regiment, after presentation of the National Guard Bureau Award for excellence. The award was for excellence in efficiency in training during calendar year 1955.

News of the World

By THE ASSOCIATED PRESS
JERUSALEM—Israeli Premier David Ben-Gurion declared yesterday the danger of a second Arab-Israeli war has increased. He expressed confidence Israel would ultimately win any such test. Against a shifting pattern of Middle East events, Ben-Gurion told his Parliament the chances of preventing war "are somewhat smaller now" and, if bloodshed comes, the United States and Soviet Russia will share the moral responsibility.

WASHINGTON—President Eisenhower has advised Soviet Premier Bulganin that the United States is ready to negotiate a freeze on atomic weapons stockpiles if Bulganin will accept Eisenhower's "open skies" disarmament plan. Eisenhower also declared, in a cordial letter made public today, that other "major types of armaments" could be limited "under proper safeguards."

MOSCOW—Premier Nikolai Bulganin said last night that President Eisenhower's letter on disarmament is "a very interesting letter and a good one." The Premier made his remarks in response to questions by newsmen at a Kremlin reception for Prime Minister H. C. Hansen of Denmark. When a newsman suggested that since Bulganin and Communist party chief Nikita S. Khrushchev are going to England this spring it might be a good idea to go on to America, the Premier chuckled and replied that he would not mind going to the United States "but of course I would not want to be fingerprinted."

PALESTINE, Tex.—Residents of Jacksonville, Rusk and Palestine yesterday voted for \$9,500,000 in tax revenue bonds to build a lake on the Neches watershed. The vote was 2,660 to 1,197. Sale of the water is expected to wipe out any necessity for taxation.

Choose Animals

Animals to be shown in the Spring Dairy Show are to be chosen March 10. All agriculture students interested in entering the show should be at the breeding center that day at 1 p.m. The Cream and Kow Klub sponsors the show.

Wednesday
 The A&M Speechmasters Group will meet in the Social Room of the MSC at 5:15 p.m. Members are reminded to make their reservations at the Main Desk before 2 p.m. Wednesday afternoon. The purpose of this group is to improve public speaking techniques for both extemporaneous and impromptu speeches. Anyone interested in visiting the meeting is welcome, just make your reservations at the Main Desk before 2 p.m. Wednesday.

JOB INTERVIEWS

The following job interviews will be held this week:

Wednesday
PHILLIPS PETROLEUM CO. will interview majors in chemical, mechanical, civil, architectural, geological, industrial, electrical and petroleum engineering and chemistry for opportunities in oil and gas production, manufacturing, transportation, geological and geophysical, research and development and engineering construction.

UNION OIL COMPANY OF CALIFORNIA will interview mechanical, petroleum and chemical engineering majors for refinery and production department trainee programs.

SAN FRANCISCO NAVAL SHIPYARD will interview civil, electrical and mechanical engineering majors. See the company information in the Placement Office for more information.

CORPS OF ENGINEERS, U. S. ARMY will hold interviews for the Galveston and Fort Worth Districts. Civil, electrical, mechanical and architectural engineering majors are asked to attend the interview.

OWENS-CORNING FIBERGLAS CORP. will interview mechanical, chemical, electrical and industrial engineering majors also physics, chemistry, mathematics, business administration, accounting majors for various opportunities in the company.

THE TEXAS COMPANY will interview business administration and accounting majors for position of Special Trainee. Opportunities in the accounting division of the refining department are open.

Wednesday and Thursday
GULF OIL CORP. of Port Ar-

thur will interview chemical and mechanical engineering majors. See interview notice for opportunities for each major.

Thursday
COLORADO INTERSTATE GAS COMPANY, Colorado Springs, will interview at the Mechanical Engineering Department. Schedule interview at the Placement Office.

ALLIS-CHALMERS MANUFACTURING COMPANY is interviewing majors in electrical, mechanical and industrial engineering, physics and chemistry for Graduate Training course leading to positions in various capacities.

CHICAGO BRIDGE AND IRON COMPANY, Houston, will interview mechanical, civil and architectural engineering majors for training in the field of construction of welded plate structures in the Southwest.

Thursday & Friday
ESSO LABORATORIES, Baton Rouge, will interview chemical engineering majors and advanced degrees in chemistry and physics for employment in research and pilot plant work.

BELL SYSTEM will interview majors in electrical, aeronautical,

industrial and mechanical engineering, physics, math, business administration, accounting and economics for Sandia Corporation, Bell Labs, Western Electric, A.T. & T. and Southwestern Bell.

Six To Represent A&M At Congress

A&M will be represented at the Southwestern Journalism Congress by six students and two faculty members. The meeting will be held March 8 through 10, at SMU, in Dallas.

Jim Neighbors, Jim Bower, Connie Eckard, Welton Jones, Joe Tindel and Dave McReynolds are the students attending the meeting from A&M. Donald D. Burchar, head of the Journalism Department, and Ross Strader, director of Student Publications, are the faculty members attending.

One way to reheat cooked rice is to add a few tablespoons of water to it and place it in a covered pan over boiling water or in the oven. Stir the rice gently a few times with a fork while it's getting hot.

Seniors in Engineering Mathematics Physics

The program enables you to attain a Master's Degree while gaining important practical experience on the engineering staff of Lockheed Aircraft Corporation.

The program in outline:
 You carry at least six units per semester at the University of California at Los Angeles, University of Southern California or other approved universities.
 You work three days per week on Lockheed engineering or scientific assignments.
 You are paid 3/5 of a full-time salary during the school year. (Salary and work on a full-time basis during school summer vacations.)

Eligible are U. S. citizens who are graduating with a B.S. degree in Aeronautical Engineering, Mechanical Engineering, Electrical Engineering (Communications or Power), Mathematics or Physics and members of the Armed Services who possess appropriate degrees and are being discharged.

Tuition, fees and books for a maximum total of 36 units of full-time study are paid by Lockheed.

Travel and moving allowances are provided those residing outside the Southern California area.

The California Division New of Lockheed Master's Degree Aircraft Corporation Work-Study announces its Program

Additional information may be obtained from your Placement Officer or Dean of the Engineering School or by writing E. W. Des Lauriers, Employment Manager and Chairman of the Master's Degree Work-Study Program.

Lockheed California Division staff members will visit this campus soon and will be happy to discuss your role in the program with you. Your Placement Officer can arrange an interview.
