

Dr. Richardson Presents Program to Commission

The Education Commission of A&M Consolidated School met Thursday afternoon to discuss proposed future plans for the school system, according to Dr. Charles La Motte, president.

Reports were presented by Dr. Les Richardson, superintendent of Consolidated schools to the board members.

The school system plans to employ approximately seven teachers in the near future including a mu-

sic teacher for grades 4-8; orchestra teacher for grades 6-12; female teacher for girls' physical education, 6-12; junior high science teacher; high school mathematics teacher; high school English teacher and a librarian from grades 1-8. The librarians salary is a bonus unit salary paid by the state.

Dr. Richardson told of the plan to diversify the training program in physical education to include driver training, offer more electives and increase intra-school competitive activities as enrollment rises. Dressing facilities will be provided by next year, and plans for landscaping the campus will provide more suitable facilities for outdoor activities.

"We are considering offering an advanced mathematics course," he said, "for high school students who have special aptitudes for mathematics."

Plans were considered for English to reduce the teaching loads of high school teachers to four periods per day in order to enable them to accept and grade more written work and increase the time that students spend in high school English classes.

Miss Jean Graham Gives Concert Tonight

Recital Set For Tonight At 8:15 By Pianist

Miss Jean Graham, who has been hailed by music critics as outstanding among America's younger artists, will give a concert at 8:15 tonight in Stephen F. Austin Auditorium in Bryan. Her appearance here is part of this season's concert program sponsored by Bryan-College Civic Music Association.

Miss Graham, who made her professional debut as soloist with the Chicago Symphony at fifteen, has played with the Big Three among American orchestras; the Boston Symphony, the Philadelphia Orchestra and the New York Philharmonic Symphony.

The young pianist made her New York recital debut at Town Hall in 1950 and has appeared on broadcasts over both the NBC and Mutual networks.

During the last two seasons Miss Graham has played well over a hundred concerts in the United States and Latin America. She has performed with such eminent conductors as Stock, Ormandy, Dorati, Stowkowski, and Arthur Fiedler.

One way to size up a cauliflower head at your vegetable market is to hold it for a few seconds — the head should seem heavy for its size.

ARCHITECTURAL WIVES Club will meet at 7:30 p.m. Wednesday at the YMCA for business meeting, then go to the Bryan Sewing Machine Co. for a Necchi demonstration.

DAMES CLUB will meet at 7:45 tonight in the YMCA and go in groups to the home of Mrs. George E. Potter who will give a speech on the romance of collecting old glass. Mrs. Potter resides at 502 S. Kerry.

ENGINEERS, SCIENTISTS, PHYSICISTS, APPLIED MATHEMATICIANS important on-campus interviews soon! North American Representatives Will Be Here March 12, 13

You'll learn first hand about the advantages and opportunities in choosing a career with a future at North American. Here engineers and scientists are now discovering new frontiers in four exciting new fields.

AUTONETICS
A Division of North American Aviation, Inc.
In the field of ELECTRO-MECHANICAL ENGINEERING—producing new missile guidance systems, fire and flight control systems, computers and recorders.

ROCKETDYNE
A Division of North American Aviation, Inc.
In the field of ROCKET PROPULSION—the largest producer of large liquid-propellant rocket engines, more powerful propellants and turbines.

ATOMICS INTERNATIONAL
A Division of North American Aviation, Inc.
Peaceful application of ATOMIC ENERGY in any phase of reactor development, either for research or power production.

MISSILE DEVELOPMENT ENGINEERING
Engineering and developing Long-Range MISSILES—Intercontinental MISSILES . . . flying at hypersonic speeds.

Contact your placement office today. Make an appointment to see North American representative, Mr. J. W. Pietrowski on March 12, 13.

Or, write Engineering Personnel Director, Dept. 991-20 Col., North American Aviation, Inc., Downey, California.

ENGINEERING AHEAD FOR A BETTER TOMORROW
