

Ag Nine Opens Series With Longhorns Today

Sophomore lefthander Toby Newton pits his fast ball against the bats of oft-beaten Texas today in the first of two-game series at Austin.

Game time is 3 p.m. and WTAW's Ken George will be on hand to broadcast a play-by-play description of the action.

Newton, who is fast developing into one of the conference's finest performers, will be out to help A&M improve its fourth place standing in the Southwest Conference. He has a 1-2 record and against league foes the conference's third best earned run average with 1.8.

The Longhorns, although dominating the SWC during most of its 41-year existence, are currently bringing up the rear in loop standings. Texas and Rice both hold 1-5 won-lost records to share

the conference cellar.

Dick Munday, the righthanded control artist from Bryan, will get the starting nod from Coach Beau Bell tomorrow. Munday won his last outing, 12-3, against Baylor and comes into the Austin series with a 1-1 conference record.

Phil Newport, stocky outfielder, paces the Aggies at the plate in SWC games with a healthy .417 average, good enough for fourth place in the conference. Captain Joe Boring leads the team in batting over the season with a fine .340 effort, and is second in loop games with .294.

Catcher James Smothermon is third among the Cadets in both SWC and full season games. Smothermon is hitting .286 thru 14 games and .250 in five league games.

Diminutive Doug Mullins sports

the best pitching record to date, having one win and no losses in 12 and one-third innings. Junior Paul Lang has a 1-1 record to show in seven innings of relief work.

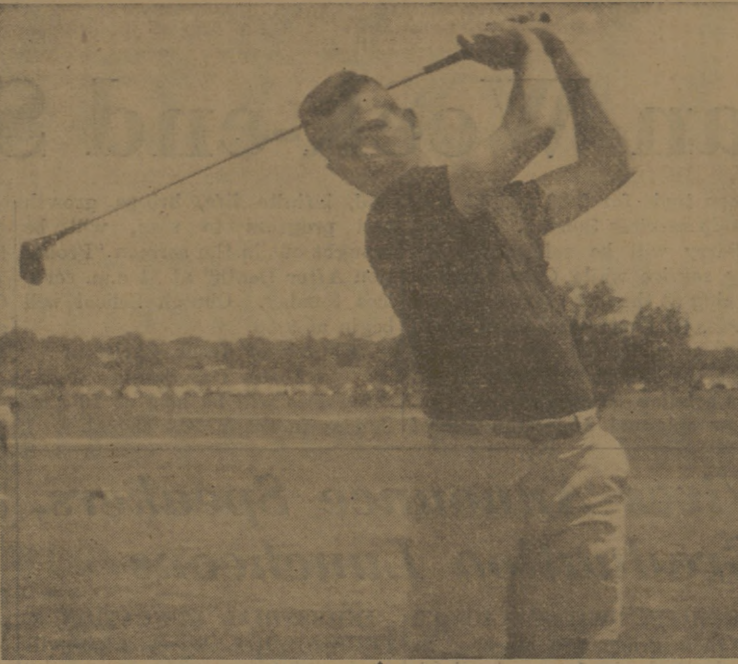

John Hoyle, the Aggies' fancy-fielding first baseman, has no errors through five SWC games and has made only one miscue in handling 118 chances over the season.

The Longhorns will probably send sophomore Harry Taylor or junior Buckellew against A&M today. Both are righthanders. Taylor has a 2-6 season slate while Buckellew is 1-1 over the year.

Second sacker Woody Woodman's .375 average leads the Longhorns in batting, followed closely by third baseman Jerry Good's .365.

PROBABLE STARTERS

A&M	Texas
John Hoyle	Wayne Graham
Dick Bleckner	Woody Woodman
Billy Ross	Jerry Good
Joe Boring	John Lowry
Phil Newport	Bill Moore
Clyde Stinson	Jim Brewer
Behn Hubbard	Mary Dunaway
J. Smothermon	Tom LeBleu
Toby Newton	Harry Taylor

LOUISVILLE COLONEL—Bobby Nichols will be among A&M's fine crew of golfers trying for their third straight Southwest Conference victory here tomorrow on the A&M links against TCU. Nichols, one of four outstanding sophomores on Coach Joe Fagan's Cadet golf team, hails from Louisville, Ky. The Aggies recently turned back both the Baylor and Arkansas golfers.

Cubs Drop CHS to Fourth

Brenham's Cubs, avenging an early-season loss to the Tigers, knocked A&M Consolidated to fourth place in the district standings Thursday with a 6-1 win.

The Cubs broke up a scoreless game in the fifth, scoring four times and four base hits and two walks off Tiger pitcher Alton Arnold.

Thinyclads Leave Today

Aggies Take Five To Kansas Relays

By BARRY HART
Assistant Sports Editor

Five Aggie thinyclads are on the way to Lawrence, Kansas, today to compete in the Kansas Relays tomorrow.

Head Track Coach Frank Anderson is taking only field men to represent the Maroon and White. Bobby Jack Gross and Tom Bonorden will throw the shot put and discus, Winton Thomas and James Clark will enter the pole vault and Fritzie Connally will be in the high jump.

The Aggie runners will remain at home to prepare for the April 27th battle with the University of Southern California, SMU and Texas in Dallas.

A&M's five men will battle some of the nation's finest tomorrow as teams from Kansas, Oklahoma A&M, and Manhattan are expected to fight for the team championship.

Kansas swept to the title at the recent Texas Relays and will be the favorite tomorrow. The Jayhawkers place their chances in the capable hands of their tremendous middle distance men and Bill Nieder and Al Oerter.

Nieder recently became the second man in history to put the shot past the 60 foot mark with a throw of 60-3. Oerter took the Texas Relays discus with 165-3.

An added attraction to the giant meet will be the appearance of the world record holder in the shot,

Parry O'Brien, formerly of USC and 1952 Olympic champion, who will throw in an exhibition.

A&M's Gross could win the discus. He took third in the Texas Relays, but his 170-2 throw of last weekend is one of the best in the nation.

Bonorden hopes for at least a second in the shot put. He finished behind Nieder in Austin and has bettered 54 feet this year.

The Aggies' Clark and Thomas will be right up there with the best in the pole vault. Clark hit 13-8½ last Saturday here and Thomas has vaulted well over 13 feet in every meet this season.

Connally will have his work cut out for him as he battles with some of the nation's finest high jumpers. He has been consistently at 6-4 this year and should place.

The Aggies will drive to Dallas and board a train this afternoon for the remainder of the trip. They will return Sunday.

Regional Lures Thirteen Tigers

Thirteen A&M Consolidated athletes move into Houston this weekend for the mammoth regional meet.

Track leads the Tiger representatives as Coaches Horace Schaffer and Larry Hayes take six of their thinyclads to the cinder festivities.

Donald Tax will enter the 180-yard low hurdles, the broad jump, and both the 440-yard and mile relays. Bill Hall goes for the pole vault, the 440-yard dash and both relays. Dan Davis will run the 220-yard dash and both relays, Dick Hickman anchors the mile relay as well as enters the 880-yard run, Ed Linton will throw the discus and Bobby Witcher will anchor the 440-relay.

The preliminaries will be held Saturday morning with the finals in the afternoon and night.

Bill Lewis, Steadman Davis, Jerry Holland and Larry Leighton will carry Consolidated's colors into Friday's golf matches. The foursome, coached by Bill Miller, finished second in the district race.

Tennis concerns three Consolidated girls in Houston with Helen Holmes and Margaret Manthei combining their talents for the doubles matches and Jo Ann Walker entered in the singles competition.

Dear Friends

As a part of their work in Humble's Refining Research Laboratory, Humble scientists bombard petroleum hydrocarbons with electrons in a 2-million volt Van de Graaff Accelerator.

But if you ask one of these scientists what he expects to find, he'll answer, who knows!

For this is fundamental research. Results may be quick or they may be a long time developing. Who knows?

... Perhaps the scientists will find a way to increase the yield of useful products from a barrel of crude oil.

... Perhaps they'll be able to make improvements in the fine products already supplied you.

... Perhaps they'll develop an entirely new group of petroleum products. Who knows!

This much, however, is certain: Humble research scientists at Baytown use every device of physics, chemistry, mathematics and mechanics to provide you with more and better petroleum products.

Two quick examples: The specifications for Esso Extra gasoline, the formula for Humble Uniflo motor oil. These, without question, are the finest products you can use in your car.

Sincerely

HUMBLE OIL & REFINING CO.
