

M.E. Wives Take First Aid Course

Some 15 members of the Mechanical Engineering Wives Club have begun a nine-week course in First Aid as a project for the summer under the direction of W. M. Dowell of the Physical Education Department.

"Fewer accidents occur with persons who have had First Aid training than with those who have not", according to Dowell, who coached tennis in the Athletic department. Instructions are given every Monday night from 7:30 to 9:30 in G. Rollie White Coliseum to the members.

In the course of study the girls are taught the purposes and rules of First Aid, what to do for shock, poisons, injuries to bones, joints and muscles, injuries due to heat or cold, wounds and their care, how to apply bandages and dressings, and also a general knowledge of the human body to give them a better understanding of the course. Probably one of the most important parts of their course is the section on artificial respiration.

One point that Coach Dowell impresses on his students is that first aiders never take the place of the doctor.

"First Aid is the immediate and temporary care given the victim of an accident or sudden illness until the services of a physician can be obtained," according to the official First Aid manual.

Persons who are schooled in First Aid know that it could mean the difference between life and death, between rapid recovery and long hospitalization, between temporary disability and permanent injury.

The M. E. Wives Club felt that they should have a knowledge of first aid what with all the bumps and bruises that accompany the raising of children.

The standard first aid course has approximately 18 hours of class-work which can be divided into three hour periods or two hour periods. Any member of the community can participate in the program by entering the classes that are given periodically.

Persons interested in entering the next session should call John Hill, VI 6-5414 or Coach Dowell at VI 6-5749.

B.A. Wives Club Hear Mrs. Ross

The Business Wives Club held their first meeting of the summer Monday night with a talk by Mrs. Betty Ross, a representative of the Round the World Tour.

Mrs. Ross showed different gifts from the various countries, explaining histories on a few.

One particular gift from India was an Aftaba which resembles a jug. The saying goes that the Indians went to a special river every year to cleanse their sins filling the Aftaba with mud from the river. During the following year if they committed a sin they would smear the mud on their forehead, thus easing the sin.

Gifts that were displayed were brass wall plaques and plates from England; fruit bowls, candle holders in a milk glass type, from Germany; a milk glass lamp from Williamsburg along with many other unusual articles.

Refreshments of cream cheese and chicken salad sandwiches and coffee and cokes were served by Mrs. Kathryn Moeller, sponsor and hostess for the evening.

Couples' Bridge Club To Meet

The Aggie Couple's Bridge Club will hold an organizational meeting Friday, June 29, at 7:30 p.m. in the YMCA.

This does not necessarily designate Friday as the final meeting place of the new club since members will vote at this time on dues, time and day.

Interested persons can contact Kathy and Charles Rowin at VI 6-4400 for additional information.

FIRST AID, ANYONE! — An unsuspecting person might think this was a mob massacre instead of the new students of First Aid. Members of the Mechanical Engineering Wives Club receive demonstrations in correct bandaging from W. M. Dowell, instructor, and a member of the physical education department. Left to right, are Eugenia Robertson, Ann Perryman, Evelyn Brady, Jean Ettinger, seated; Jo Benedict, Dowell, Joanne Wagner, Nancy Osborne, and kneeling, Jane Walker.

YER OUT!

If this has never happened to you no words can describe the awful finality of an umpire's decision. It falls like a sentence of death on a boy's heroic dream. And with it ebbs out the joy of his mightiest hit, and of the fly he caught last inning.

But thus baseball helps to build men. A fellow learns how to lose. And that's the first step in learning how to win. But the biggest lessons of life no sport can teach. On a higher tier than sportsmanship, teamwork and the desire to win are **FAITH, BROTHERHOOD, AND DEDICATION OF LIFE.** These are the ingredients of spiritual victory—the fabric of God-inspired manhood at its best.

We can rightly be proud of our sandlots and Little Leagues. But the character of American manhood depends most of all on our churches.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

| Day | Book | Chapter | Verses |
|-----------|----------|---------|--------|
| Sunday | Romans | 8 | 28-39 |
| Monday | Romans | 12 | 1-9 |
