Proudest title in the world!

housewife

A tribute to the American housewife

"Just a housewife" is a term we hear too often. That's about like saying "just a doctor" or "just a company president." The job you're doing as a housewife is one of the most important anybody is doing in America today.

Who is mainly responsible for your family's health? It's you—the housewife. And our fine national health record testifies to the good job you're doing on this score.

Who sets your family's standing in your community? You do. You not only create an attractive home for your family and plan the entertaining, but also make most of the outside social contacts in church, club and community. How far would the charitable operations of these groups get without your help?

And your family's financial standing depends as much upon your ability to manage money as it does your husband's ability to earn it. Your family savings program is as much your responsibility as it is your husband's.

That's why so many women today are urging their husbands to invest in U. S. Series E Savings Bonds. They know that the principal invested in Bonds is safe—not subject to market fluctuations. And the returns are sure—an average 3% interest, compounded semi-annually when held to maturity (9 years and 8 months). With the automatic extension privilege, Bonds will continue to pay that same high interest for 10 years more. That means \$1.80 in returns for every \$1.00 invested.

Remember, you can help your family win financial security tomorrow—by encouraging your husband to invest regularly in Savings Bonds today.

And the next time you hear someone say "just a housewife," stick up your chin and speak up for the job you're doing. Where would your family or your country be without you?

For the big things in your life, be ready with U. S. Savings Bonds
