

# The Battalion

Number 159: Volume 55

COLLEGE STATION, TEXAS, WEDNESDAY, SEPTEMBER 19, 1956

Price Five Cents

NEW TEACHERS at A&M Consolidated High School include, left to right on the front row, Mrs. Pat Welch, girl's physical education; and Mrs. John Southern, homemaking. Standing are Jim House, vocational agriculture; Edward Logan, coach and history; and Arthur Bright, coach and math teacher.

## Increased Enrollment

### CHS Gets New Teachers

A&M Consolidated High School has five new teachers this year, according to J. J. Skrivaneck, principal. The change was brought about by increased enrollment and vacancies, he said.

The five are Mrs. John H. Southern, Mrs. Pat Welch, James House, Arthur Bright and Edward Logan.

Mrs. Southern, 1100 Taurus St., comes to CHS with a Bachelor of arts and education from the Uni-

versity of Arkansas and work on a Master's degree at Oklahoma A&M. She and her husband, a U. S. Department of Agriculture researcher working with the A&M Agriculture Economics department, came to College Station 10 years ago.

Mrs. Southern teachers home making to freshman, sophomore, junior and senior girls. She is sponsor of the C. H. S. chapter of Future Homemakers of America.

#### Edward Logan

A graduate of East Central State College in Ada, Okla. Edward (Pee Wee) Logan, 1312 Milner St., is entering his first year of teaching.

Logan is currently teaching American and world history to five sophomore and junior classes. He handles the backfield chores on the CHS Tiger football team and assists with the baseball team. He is also co-sponsor of the Major Athletics Club and the Golf Club.

#### Arthur Bright

Arthur Bright, 3604 4th St., Bryan, teaches math to sophomores and freshmen.

Bright comes to CHS from Rolla, Mo., where he taught for one year after receiving his Bachelor of Science degree from Indiana Central College. At present he is working on his M. S. degree in Education at A&M.

In addition to his math teaching duties, Bright coaches "B" team football, high school track and junior high baseball.

#### Mrs. Thomas Welch

Mrs. Thomas Welch, 405 N. Main,

joins the staff this year after 4 years of teaching in Arkansas and Missouri. She took her Bachelor of Science in Education and her Master of Physical Education from the University of Arkansas.

Mrs. Welch teaches girl's physical education to classes from the sixth grade in junior high to the seniors in high school.

#### Jim House

Jim House, 1003 Welsh St., graduated from A&M in 1951 after attending Tarleton State College. House taught for three years at Pattison, Tex. He is presently taking graduate work here.

House teaches vocational agriculture. He is also sponsor of the Future Farmers of America chapter and the Rodeo Club.

### Youngs Entertain With Dinner Party

Dr. and Mrs. Vernon Young entertained 22 graduate Range and Forest Management students and their wives at their home, 112 Moss Ave., Friday night from 6 to 11. Following a turkey dinner, guests played card games.

Also present was the president of the Wives Range and Forestry Club, Barbara Johnson, who presided at a short business and re-organizational meeting with graduate wives. The club will meet Sept. 25 and will be open for membership.

## Big Three Seeks To Share Suez Control With Egypt

### New Dormitory Planning May Go To Board

A new dorm for athletes complete with swimming pool and air-conditioning is reportedly under consideration this week and may be presented to the Board of Directors here Friday.

Plans are underway for several new dorms and an athletic dorm may be part of those plans.

Details of how much the new dorm would cost and how it would be furnished were not available.

College officials were not willing to talk about the details of the planning before the entire project is presented to the Board of Directors.

From other sources it was learned that the initial plans call for air-conditioned rooms, a kitchen and swimming pool.

President David H. Morgan said that plans have not been presented to his office but that if such plans were being made, they would come to him through the Athletic Council and then the normal route was to the Chancellor's office and then to the Board.

### Flying Waitress Finally Settles

SAN ANTONIO — (AP) — Half-Wrong-Way Eliasson, otherwise a comely waitress of 35 whose first name is Ingar, made a "three-bounce" landing at International Airport yesterday to bring an end to her erratic odyssey over South Texas.

Miss Eliasson, object of a wide search before she was located nearly 200 miles from her destination yesterday, was relieved to learn that the owner of the rented plane she was flying wasn't mad at her.

She wasn't proud of her landing today. The small plane she was piloting hit the ground and bounced about 30 feet in the air.

"Yesterday when I was lost, I made a three-point landing. Now, coming home, I made a three-bounce landing," she said.

### Wacoans Will Hear Kefauver

TEMPLE, Tex., (AP) — The Democratic vice-presidential nominee, Estes Kefauver, will speak Oct. 1 at Waco, national committeeman Byron Skelton said yesterday.

Kefauver was invited to come to Texas by Skelton, House Speaker Sam Rayburn, Sen. Lyndon Johnson, and Congressman W. R. Bob Poage at a recent campaign conference at Santa Fe, N. M.

### Dulles To Launch Project For Users' Association

LONDON — (AP) — The Western Big Three agreed last night to seek working arrangements with Egypt to share control of Suez Canal traffic as a step toward peaceful settlement of the crisis.

U.S. Secretary of State Dulles undertook to launch the American-British-French project for an 18-nation association of canal users at the second London Suez conference opening tomorrow.

Dulles will outline the plan, emphasizing its peaceful purpose, before diplomats of the 18 nations representing 90 to 95 per cent of shipping through the canal. The talks will open at 11 a. m. in storial Lancaster House under chairmanship of British Foreign Secretary Selwyn Lloyd.

WASHINGTON — (AP) — The United States has drafted emergency plans for rushing from 500,000 barrels of American oil to Europe each day in event the Suez crisis slows down oil deliveries from the Middle East.

A government oil spokesman said these emergency oil supplies would come mainly from Texas, Louisiana, Oklahoma and New Mexico as part of a nearly completed plan to avert "slow petroleum starvation" in Western Europe.

There is an unmistakable mood of skepticism and even some opposition to the proposed users group plan as foreign ministers and special envoys assembled. The same 18 nations had balked last month the Dulles plan for international control of the canal, which Egypt's President Nasser rejected even as a basis for negotiations.

As if to underline the doubts, one of the bosses of the Egyptian Suez Canal Authority sent forth what seemed to be a challenge to the organizers of the association.

Director Mahmud Yunis, speaking in the canal halfway port of Ismailia, was asked by reporters what would happen if the association tried to send ships through Suez with their own pilots.

"Let them try," Yunis retorted. Yunis declared the crisis set off by a mass walkout of foreign pilots last Friday has ended and that the traffic situation in the waterway "is returning to normal."

Only 31 ships cleared through the canal under the guidance of Egyptian and Greek pilots today, against an average of more than 40 daily before the walkout.

Should Egypt refuse to cooperate, the Western Big Three is counting on support from the 15 others for United Nations intervention in the dispute—whether in the Security Council of General Assembly. The plan would be to arraign Egypt on a charge of violating the principle of free passage through the canal which is provided in the 1888 Constantinople convention.

The U.N. would be asked to endorse a resolution condemning President Nasser's regime and asking it to restore the international character of the canal he took over July 26 from the old Suez Canal Co.

### Flight Program To Be Started Here For Army

A&M is one of the four schools in the Fourth Army area and one of the seven in the United States to participate in the flight training program for Army ROTC cadets, announced Col. Delmer P. Anderson, Professor of Military Science and Tactics.

Offered to Army students on an extra-curricula basis, the program will not alter the current prescribed ROTC program.

Volunteers must be enrolled for fourth year of senior division ROTC and scheduled to graduate in one academic year, Col. Anderson said.

In addition, they will be required to pass a Class I physical examination and a suitable flight aptitude test. Academically, they must be in the upper half of their class.

Candidates for the program must agree to volunteer for Army aviation training and assignment while on active duty and to serve three years, or two years subsequent to completion of the Army Aviation School, whichever is shorter, Col. Anderson said. Army Aviation School lasts approximately nine months.

Upon entry into active duty, graduates who complete the flight training program will first complete their branch basic officer courses before taking training at the Aviation School.

The Civil Aeronautics Administration will maintain control of all flying safety features at no expense to the student. The program calls for 35 hours each in ground and flight instruction. Successful completion of the flight course will enable the student to apply for private pilot's licenses.

The new program also provides medical and survivor benefits for ROTC members while participating in flight training.

Other schools in this area adopting the new program are the University of Texas, University of Oklahoma and Louisiana State University.

#### Town Hall Tickets

Non-student season tickets for Town Hall will go on sale at the Department of Student Activities at 8 a. m. Wednesday, Sept. 26. Mail orders will be filled beginning at noon of the same date.

#### Weather Today

Clear and partly cloudy is the forecast for today. Temperature at 11 this morning was 92 degrees. High and low for yesterday were 99 and 72 degrees.

## COLLEGE PLAYMATES

Proving that PLAYBOY is as popular with the young woman-about-campus as with her male counterpart, is the wave of correspondence received from co-eds like the charmer above. This lissome co-ed is Susan Counter of Orange Coast College, Costa Mesa, California, who says that she would consider it a great honor to be chosen as Playmate of the Month. Her letter of application, along with others of its kind, is printed in the Dear Playboy columns of the September issue of PLAYBOY magazine.

## Seating To Be Determined By Classes

By Jim Neighbors  
Battalion News Editor

Seating for the Villanova game will be determined by classes according to a vote taken by the Student Senate in a special meeting last night.

The senate accepted by a majority vote the report of the senate seating committee with two amendments. Doug DeCluitt moved to amend the original motion to state that the student section be marked off by classes in a permanent manner and Ted Lowe moved that the committee plan be accepted as a report. Both amendments were passed.

As the plan now stands, seniors, both Corps and Civilians, will occupy sections 130, 131, and 132. These three sections seat 2,319 per-

sons. This would leave 900 seats for senior dates. There are 1,415 seniors holding activity cards.

Juniors will sit in sections 128

### All College Dance Set For Saturday

An All-College Dance will be in The Grove Saturday from 9 until 12 p. m., according to the Office of Student Activities.

Music will be provided by the Aggieband Orchestra under the direction of Bill Turner. Admission will be \$1.50 stag or drag.

Tickets may be purchased at the Office of Student Activities on the second floor of the YMCA between the hours of 8 a. m. and 5 p. m.

and 129. At present there are 1,110 juniors holding activity cards. The two sections hold 1,808 people which would allow the juniors 700 dates. Sophomores and freshman are allotted sections 122 through 127, which seats 4,434. There are 1,189 sophomores and 2,030 freshmen with activity cards. This leaves room for 1,200 dates.

Total seats allowed to dates is 2,800. However, Pat Dial, business manager of the Athletic Department, is reported to expect approximately 1,500 date tickets to be sold for the game.

One of the most important details of the plan is the fact that immediately following the kick-off, all boundaries separating the classes will be removed, allowing the students to

fill any vacant seats in a section closer to mid-field.

Another aspect of the plan is the method used to divide Civilian students from Corps students. They will be separated according to the number of activity cards bought by Civilian and Corps students.

The seating cards handed out to all Civilian activity card holders becomes increasingly important. Without a seating card, a Civilian student may not be seated. Orange cards have been issued to seniors, blue cards to juniors, gray cards to sophomores, and white cards to freshmen.

Depending upon the success of the seating arrangement for the Villanova game Saturday, the plan may be used for the three remaining home games.
